Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed collection of information and related forms may be obtained by contacting the Bureau of Reclamation's (Reclamation) clearance officer at the telephone number listed below. Comments and suggestions on the proposal should be made directly to Reclamation's clearance officer and the Office of Management and Budget, Paperwork Reduction Project (1006-0006), Washington, DC 20503, Telephone 202 395-7340.

Title: Certification Summary Form and Reporting Summary Form for Acreage Limitation, 43 CFR Part 426.

OMB approval number: 1006-0006.

Abstract: These forms are to be used by water district offices to summarize individual landholder certification and reporting forms as required by the Reclamation Reform Act of 1982 (Title II of Public Law 97-293) and 43 CFR Part 426, Rules and Regulations for Projects Governed by Federal Reclamation Law. This information allows Reclamation to establish water users' compliance with Reclamation law.

Reclamation form numbers: 7-1781A and 7-1781B.

Frequency: Annually.

Description of respondents: Contracting organizations for Reclamation project irrigation water.

Estimated completion time: 40 hours.

Annual responses: 318.

Annual burden hours: 12,720.

Reclamation clearance officer:

Marilyn Rehfeld, 303-236-0305 (X459).

Dated: April 5, 1995.

Alonzo D. Knapp,

Manager, Reclamation Law, Contracts, and Repayment Office.

Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the

provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed collection of information and related forms may be obtained by contacting the Bureau of Reclamation's (Reclamation) clearance officer at the telephone number listed below. Comments and suggestions on the proposal should be made directly to Reclamation's clearance officer and to the Office of Management and Budget, Paperwork Reduction Project (1006-0005), Washington, DC 20503, Telephone 202-395-7340.

Title: Individual Landholder's Certification and Reporting Forms for Acreage Limitation, 43 CFR 426.

OMB approval number: 1006-0005.

Abstract: This information collection requires certain landholders to complete forms demonstrating their compliance with the acreage limitation provisions of Reclamation law. The forms establish each landholder's status with respect to landownership limitations, full-cost pricing thresholds, lease requirements, and other provisions of reclamation law.

Reclamation form numbers: 7-2178A, 7-2179A, 7-2180, 7-2180-EZ, 7-2181, 7-2183, 7-2184, 7-2187, 7-2188, 7-2189, 7-2190, 7-2190-EZ, 7-2191, 7-2193, 7-2194, 7-2197, 7-2198, and 7-2199.

Frequency: Annually.

Description of respondents: Owners and lessees of land on Federal Reclamation projects.

Estimated completion time: .32 hours.

Annual responses: 43,863.

Annual burden hours: 14,116.

Reclamation clearance officer:

Marilyn Rehfeld, 303-236-0305 (X459).

Dated: April 5, 1995.

BILLING CODE 4310-94-M

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

Availability of Final Environmental Assessment and Finding of No Significant Impact

AGENCY: United States Section, International Boundary and Water Commission, United States and Mexico.

ACTION: Notice of Availability of Final Environmental Assessment and Finding of No Significant Impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Final

Regulations (40 CFR parts 1500 through 1508); and the Operational Procedures of the United States Section, International Boundary and Water Commission, United States and Mexico (USIBWC), for implementing section 102 of NEPA, published in the **Federal Register** September 2, 1981 (46 FR 44083-44094); the USIBWC hereby gives notice that the Final Environmental Assessment and Final Finding of no Significant Impact for Quisto Energy Corporation (Quisto) to construct, operate, and maintain a gas well located on the Main Floodway of the Lower Rio Grande Flood Control Project (LRGFCP) are available. The USIBWC finds that the proposed action to issue a license to Quisto for such works is not a major federal action that would have a significant adverse effect on the quality of the human environment. A Notice of Finding of No Significant Impact was signed April 3, 1995, (60 FR 19081-19082) and provided a thirty (30) day review and comment period before making the finding final.

ADDRESSES: Mr. Yusuf E. Farran, Division Engineer, Environmental Management Division, International Boundary and Water Commission, United States and Mexico, United States Section, 4171 North Mesa Street, C-310, El Paso, Texas 79902-1441. Telephone: 915/534-6704, Fax: 915/534-6680.

SUPPLEMENTARY INFORMATION:

Proposed Action

The action proposed is for the USIBWC to issue a license to Quisto to construct, operate, and maintain a gas well and install related features within Smith-Coates Well #1 Drilling Unit on Lot 2, Block 15 of John Closser Subdivision, Hidalgo County, Texas. The gas well is proposed to be located on privately owned land within the Main Floodway of the USIBWC LRGFCP approximately 8 kilometers south of Pharr. Access to the drilling site is by way of existing county and private roads and a proposed 274-meter long road.

Alternatives Considered

Three alternatives were considered in the Final Environmental Assessment (EA):

The Proposed Action Alternative is for Quisto to construct, operate, and maintain a gas well in a cultivated field within the Main Floodway of the USIBWC LRGFCP. This proposed action will require the USIBWC to issue a license to ensure that such works do not cause an obstruction to flood flows within the floodway or interfere with
