

would hold a public meeting on May 24, 1995. The purpose of that meeting was to review the Section 106 documentation which identifies affected historic properties, assesses the potential impacts, and discusses potential measures to mitigate or avoid the adverse effects, including consideration of alternative sites.

The date of that meeting has changed. The meeting will now be held on July 10, 1995 at 10:00 a.m., 441 4th Street NW. (#1 Judiciary Square), Room 220 South (Zoning Commission Hearing Room).

The documentation to be considered will be available to the Board and to the general public on or after June 9, 1995 and may be reviewed by calling the Historic Preservation Division.

BILLING CODE 7590-01-M

[Docket No. 50-356]

University of Illinois at Urbana-Champaign Low Power Reactor Assembly; Notice of Proposed Issuance of Orders Authorizing Disposition of Component Parts

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an Order authorizing the University of Illinois at Urbana-Champaign (the licensee) to partially dismantle the Low Power Reactor Assembly (LOPRA). This would return the reactor to a subcritical assembly. After transfer of all LOPRA byproduct and special nuclear material to the Illinois Advanced TRIGA Reactor (TRIGA), Facility License No. R-115, the Commission would consider an Order authorizing termination of Facility License No. R-117, for the LOPRA, in accordance with the licensee's application dated February 10, 1995.

The first of these Orders would be issued following the Commission's review and approval of the licensee's disposition plan for the LOPRA. This Order would authorize implementation of the approved plan. Following completion of the authorized activities and verification by the Commission that transfer of all radioactive material to the TRIGA license has been achieved, the Commission would issue a second Order terminating the LOPRA facility license. Prior to issuance of each Order, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

By June 14, 1995, the licensee may file a request for a hearing with respect to issuance of the subject Orders and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to

intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matters within the scope of the action under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate in the conduct of the hearing, including the opportunity to
