[Docket No. RP93-49-001]

**Paiute Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff**

May 9, 1995.

Take notice that on May 4, 1995, Paiute Pipeline Company (Paiute) tendered for filing to be a part of its FERC Gas Tariff, Second Revised Volume No. 1-A, the following tariff sheet.

First Revised Sheet No. 11

Paiute states that it is submitting the proposed tariff sheet in order to make adjustments to the fixed take-or-pay buyout and buydown charges to be collected by Paiute from its shippers as the result of a recent order issued in Docket No. RP92-229 with respect to Paiute's upstream pipeline, Northwest Pipeline Corporation (Northwest). According to Paiute, that order authorized Northwest to assess Paiute an amount of \$758,291, including interest as of January 31, 1995, in addition to the fixed take-or-pay charges previously paid by Paiute to Northwest. Paiute indicates that its filing only proposes to revise the amounts of the fixed take-or-pay charges to be passed

through to its customers based upon the Commission's Northwest order, and that the methodology utilized to allocate the amounts among its customers is the same methodology used in Paiute's December 21, 1992 filing in Docket No. RP93-49-000.

Paiute requests that the tendered tariff sheet be accepted for filing to become effective June 1, 1995.

Paiute states that copies of the filing were served upon all of Paiute's customers and affected state regulatory commissions, and upon all parties on the service list in Docket No. RP93-49-000.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed on or before May 16, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and area available for public inspection in the public reference room.

[Docket No. RP95-279-000]

**Transwestern Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff**

May 9, 1995.

Take notice that on May 4, 1995, Transwestern Pipeline Company (Transwestern) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets:

Effective May 4, 1995:

2nd Revised Sheet No. 95A

3rd Revised Sheet No. 95C

2nd Revised Sheet No. 95D

2nd Revised Sheet No. 95E

2nd Revised Sheet No. 95F

2nd Revised Sheet No. 95K

1st Revised Sheet No. 95M

2nd Revised Sheet No. 95N

Effective June 5, 1995:

3rd Revised Sheet No. 95B

Transwestern states that the purpose of this filing is to revise certain portions of its tariff to comply with the Commission's Final Rule, Order No. 577 (Order), issued March 29, 1995 in Docket No. RM95-5-000. This Order, to

be effective May 4, 1995, amended 18 CFR 284.243(h) of the Commission's capacity release regulations. In this Order, the Commission has extended the exception from advance posting and bidding to one full calendar months. The Order also revises provisions regarding roll-overs of exempted releases by providing for a 28 (rather than 30) day hiatus during which shippers that release capacity at less than the maximum rate cannot re-release capacity to the same replacement shipper (at less than maximum rate).

In addition, Transwestern is proposing to revise Section 30.4(b) of its capacity release provisions relating to posting certain information regarding pre-arranged deals. Transwestern is submitting tariff sheets that would remove the requirement to post the following: (1) The name of the Pre-Arranged Shipper; and (2) whether the Pre-Arranged Shipper is an affiliate of the Releasing Shipper or Transwestern. Transwestern believes that this change is consistent with the spirit of Order No. 636. With respect to pre-arranged deals the Commission's goal was to ensure that the released capacity was allocated pursuant to the best offer regardless of the identity of the Pre-Arranged Shipper. Transwestern submits that it will continue to post information regarding the identity of the Pre-Arranged Shipper and its affiliation to the Releasing Shipper or Transwestern on an after-the-fact basis, thereby allowing interested parties to monitor affiliate transactions.

Transwestern states that copies of the filing were served on its gas utility customers, interested state commissions, and all parties to this proceeding.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before May 16, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the
