

management activities initiated by BLM to protect natural resources and facilities.

IV. The APHIS-ADC Shall

A. Evaluate wildlife damage management needs in cooperation with State agencies and permittees.

B. Annually review and update as needed, wildlife damage management plans in cooperation with the BLM, appropriate State and federal agencies, permittees, and others. Cooperate with the BLM to identify areas where mitigation or restriction may be needed to comply with BLM's Resource or Management Framework Plans.

C. Complete necessary NEPA documents and decision records on activities related to predator control primarily for livestock protection on BLM lands.

D. Conduct activities on BLM lands in accordance with APHIS-ADC policies, wildlife damage management plans, applicable State and Federal laws and regulations, and consistent with BLM Resource or Management Framework Plans.

E. Provide the BLM with technical information on recommended wildlife damage management tools and techniques, when requested.

V. It Is Mutually Agreed by the Parties That

A. The parties will participate, as needed, in State agreements relating to wildlife damage management on BLM lands with the appropriate State and federal agencies.

B. The parties will ensure interagency coordination and review of the effects of wildlife damage management activities on BLM lands and resources before APHIS-ADC makes decisions on management plans that it develops.

C. The parties will meet on a State or regional basis annually or more often if needed, to coordinate management operations. Representation shall be by the BLM State Director and the APHIS-ADC Regional or State Director. The BLM and APHIS-ADC may agree to have other parties or agencies with shared or related responsibilities be present at these annual meetings such as the State Wildlife Agency Director, State Departments of Agriculture and the Forest Service Regional Forester or their designated representatives.

D. The parties will elevate any problems regarding implementation of this agreement that cannot be resolved to the next higher level for resolution.

E. This MOU shall supersede all existing MOUs between APHIS-ADC and BLM and supplements and amendments thereto, relating to the

conduct of wildlife damage management programs by the parties on BLM lands.

F. Nothing in this MOU is intended to modify in any manner the present cooperative programs of either agency with States, other public agencies, or educational institutions.

G. This MOU is neither a fiscal nor a funds obligation document. Any endeavor involving reimbursement or contribution of funds between the parties to this MOU will be handled in accordance with applicable laws, regulations, and procedures including those for Government procurement and printing. Such endeavors will be outlined in separate agreements that shall be made in writing by representatives of the parties and shall be independently authorized by appropriate statutory authority. This MOU does not provide such authority.

H. Nothing in this memorandum shall obligate either the BLM or APHIS-ADC to expend appropriations or to enter into any contract or other obligations.

I. All wildlife damage management activities on BLM lands will be coordinated with appropriate State and Federal agencies.

J. This MOU may be modified or amended upon written consent of both parties or may be terminated by either party with 30-day written notice to the other party.

BILLING CODE 4310-55-P

Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit for a Timber Harvest Operation by Red Oak Timber Company in Vernon Parish, Louisiana

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Red Oak Timber Company, (Applicant), is seeking an incidental take permit from the Fish and Wildlife Service (Service), pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973 (Act), as amended. The permit would authorize the take of up to six endangered red-cockaded woodpecker, *Picoides borealis*, in Vernon Parish, Louisiana, for a period of 6 months. The proposed taking is incidental to otherwise lawful timber harvesting on 137 acres (Project). The entire site is considered occupied by red-cockaded woodpecker and will be permanently altered.

The Service also announces the availability of an environmental assessment (EA) and habitat conservation plan (HCP) for the incidental take application. Copies of the EA or HCP may be obtained by making a request to the Regional Office address below. This notice is provided pursuant to section 10(c) of the Act and National Environmental Policy Act Regulations (40 CFR 1506.6).

DATES: Written comments on the permit application, EA, and HCP should be received on or before June 15, 1995.

ADDRESSES: Persons wishing to review the application, HCP, and EA may obtain a copy by writing the Service's

Southeast Regional Office, Atlanta, Georgia. Requests must be in writing to be processed. Documents will also be available for public inspection by appointment during normal business hours at the Regional Office, or the Jackson, Mississippi, Field Office. Written data or comments concerning the application, EA, or HCP should be submitted to the Regional Office. Please reference permit under PRT-800149 in such comments.

Regional Permit Coordinator, U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345, (telephone 404/679-7110, fax 404/679-7280).

Field Supervisor, U.S. Fish and Wildlife Service, 6578 Dogwood View Parkway, Jackson, Mississippi 39213, (telephone 601/965-4900, fax 601/965-4340).

FOR FURTHER INFORMATION CONTACT: Will McDearman at the Jackson, Mississippi, Field Office, or Rick G. Gooch at the Atlanta, Georgia, Regional Office.

SUPPLEMENTARY INFORMATION: *Picoides borealis* is a non-migratory resident of mature pine forests of the Southeastern United States. All *Picoides borealis* in the State of Louisiana are considered part of the Louisiana coastal plain population. The two family groups of *Picoides borealis* on the Applicant's property are considered to be part of the Vernon district's population of the Kisatchie National Forest. Populations on the Kisatchie and adjoining Fort Polk have increased in the last several years due to improvements in timber management and overall species management directives.

For purposes of mitigation and minimization of the impacts to the species, the Applicant's HCP proposes to translocate adult and subadult *Picoides borealis* from the project site to the Fort Polk military installation, and conducting habitat enhancement procedures on Kisatchie National Forest lands.

The EA considers the environmental consequences of three alternatives, including the no action, sale of existing timber rights and/or the project for other lawful purposes, and the proposed action.

Dated: May 9, 1995.

Judy L. Jones,

Acting Regional Director.
