Science Advisory Board

[FRL-5207-5]

Notification of Public Advisory Committee Meeting; Open Meetings

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that various Committees and Subcommittees of the Science Advisory Board will meet as follows:

(1) *The Hazardous Waste Identification Rule (HWIR) Subcommittee* of the SAB Executive Committee will meet on May 31-June 1, 1995, at the Quality Hotel Capitol Hill, 415 New Jersey Avenue, NW., Washington, DC, telephone (202) 638-1616. The Subcommittee will meet from 8:30 a.m. to 5 p.m. on May 31 and from 8 a.m. to 4 p.m. on June 1. An evening working session may be held on May 31, if needed. The meeting will be open to the public, but seating will be limited.

Background

The Subcommittee met on April 26-27, 1995, to review the Agency's draft multi-media, multi-pathway risk analysis being developed to support the proposed Hazardous Waste Identification Rule (HWIR). At that meeting, the Subcommittee agreed that an additional public meeting would be needed to complete the review and discussion of the risk analysis document. The purpose of HWIR is to specify those conditions under which materials designated as hazardous waste may be declassified as such and therefore no longer subject to the constraints of hazardous waste management. The Executive Committee of the SAB established an ad hoc subcommittee for this review in order to adequately consider the multiple routes of fate, transport, and exposure of humans, plus ecological effects of wastes. The Charge to the Subcommittee includes examination of the approaches for assessing fate and transport of waste constituents, ecological exposure and effects, and human exposure and effects. In addition, the Agency has asked the Subcommittee to consider whether the approach taken for determining high-end estimates will produce roughly comparable levels of conservatism across the different pathways and receptors being considered.

Additional Information

To obtain a copy of the review document, "Development of human health-based and ecologically-based exit criteria for the Hazardous Waste Identification Project (HWIP)," contact the RCRA Docket at (202) 260-9327. To

obtain a meeting agenda and a copy of the Charge to the Subcommittee, contact Ms. Constance Valentine, Science Advisory Board, 401 M Street, SW. (1400F), Washington, DC, 20460, telephone (202) 260-6552, FAX (202) 260-7118, or via the Internet at valentine.connie@epamail.epa.gov.

Anyone wishing to make an oral presentation to the Subcommittee regarding the HWIR risk analysis must notify Stephanie Sanzone, Designated Federal Official for the Subcommittee, at telephone (202) 260-6557, FAX (202) 260-7118, or via the INTERNET at sanzone.stephanie@epamail.epa.gov no later than May 25, 1995. The request should identify the name of the individual who will make the presentation and an outline of the issues to be addressed.

(2) *The Ecological Processes and Effects Committee (EPEC)* will meet on June 2, 1995, beginning at 8 a.m. and ending no later than 4 p.m., at the Quality Hotel Capitol Hill, 415 New Jersey Avenue, NW., Washington, DC, telephone (202) 638-1616. The purpose of the meeting is to: (1) Discuss reports under preparation by various Subcommittees (possibly including draft reports on bioaccumulation modeling, AVS methodology for sediment metals, acid deposition feasibility study, and the science issues surrounding marsh management); (2) engage in a consultation with Agency staff on the selection and use of case studies in the ecological risk assessment guidelines being developed by the Agency; and (3) receive a briefing from Robert Huggett, Assistant Administrator for Research and Development on his vision for the Environmental Monitoring and Assessment Program (EMAP). The SAB has developed the consultation as a mechanism to advise the Agency on technical issues that should be considered in the development of regulations, guidelines or technical guidance before the Agency has taken a position.
