

Applicant has been assigned permit number PRT-801373. The requested permit, which is for a period of 5 years, would authorize the incidental take of the endangered golden-cheeked warbler (*Dendroica chrysoparia*). The proposed take would occur as a result of the construction of one single-family residence on Lot 23 (2.73 acres), Cloudy Ridge Road, Windmill Bluff Estates, Austin, Travis County, Texas.

The Service has prepared the Environmental Assessments/Habitat Conservation Plans (EA/HCP) for each of the incidental take applications. A determination of jeopardy to the species or a Finding of No Significant Impact (FONSI) will not be made before 30 days from the date of publication of this notice. This notice is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).

DATES: Written comments on the application should be received by June 16, 1995.

ADDRESSES: Persons wishing to review the applications may obtain a copy by writing to the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Persons wishing to review the EA/HCP's may obtain a copy by contacting Joseph E. Johnston or Alma Barrera, Ecological Services Field Office, 10711 Burnet Road, Suite 200, Austin, Texas 78758 (512/490-0063). Documents will be available for public inspection by written request, by appointment only, during normal business hours (9:00 to 4:30) U.S. Fish and Wildlife Service, Austin, Texas. Written data or comments concerning the application(s) and EA/HCPs should be submitted to the Acting Field Supervisor, Ecological Field Office, Austin, Texas (see **ADDRESSES** above). Please refer to the applicable permit number when submitting comments.

FOR FURTHER INFORMATION CONTACT: Joseph E. Johnston or Alma Barrera at the above Austin Ecological Service Field Office.

SUPPLEMENTARY INFORMATION: Section 9 of the Act prohibits the "taking" of endangered species such as the golden-cheeked warbler. However, the Service, under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

APPLICANTS: The applicant (Herbert) plans to construct a single-family residence on Lot A, Westlake Highlands, Section 2-A, Travis County, Texas. This action will eliminate less than one-half

acre of land and indirectly impact less than one-half additional acres of golden-cheeked warbler habitat per residence. The applicant proposes to compensate for this incidental take of golden-cheeked warbler habitat by placing \$1,500 into the City of Austin Balcones Canyonlands Conservation Fund to acquire/manage lands for the conservation of the golden-cheeked warbler.

The Applicant (Koster), plans to construct a single-family residence on Lot 133 on Flamingo Road, Cardinal Hills Subdivision, Austin, Travis County, Texas. This action will eliminate less than one-half acre of land and indirectly impact less than one-half additional acres of golden-cheeked warbler habitat per residence. The applicant proposes to compensate for this incidental take of golden-cheeked warbler habitat by placing \$1,500 into the City of Austin Balcones Canyonlands Conservation Fund to acquire/manage lands for the conservation of the golden-cheeked warbler.

The Applicant (Pratt) plans to construct a single-family residence on Lot 23 on Cloudy Ridge Road, Windmill Bluff Estates, Austin, Travis County, Texas. This action will eliminate less than one half acre of land and indirectly impacts less than one additional acres of golden-cheeked warbler habitat per residence. The applicant proposes to compensate for this incidental take of golden-cheeked warbler habitat by placing \$1,500 into the City of Austin Balcones Canyonlands Conservation Fund to acquire/manage lands for the conservation of the golden-cheeked warbler.

Alternatives to each of these actions were rejected because selling or not developing the individual subject properties with federally listed species present was not economically feasible.

Lynn B. Starnes,

*Acting Regional Director, Region 2,
Albuquerque, New Mexico.*

National Park Service

General Management Plan and Environmental Impact Statement for Sitka National Historical Park, Sitka, Alaska

ACTION: Notice of intent.

SUMMARY: The National Park Service (NPS) is preparing a general management plan (GMP) and accompanying environmental impact

statement (EIS) for Sitka National Historical Park. Although the oldest National Park System unit in Alaska, a GMP has never been prepared for Sitka National Historical Park. The purpose of the EIS is to evaluate the impacts of alternative development and management scenarios proposed for the park in the GMP.

The NPS Gateway Community Planning Initiative selected this GMP/EIS as a pilot project. The initiative is designed to more directly involve communities in planning decisions for National Park System units with close geographic, historic, or cultural ties to the affected communities. Sitka National Historical Park lies entirely within the municipality of Sitka, Alaska.

Three public scoping meetings are scheduled to identify management issues for the park. These will be held on: Tuesday, June 6, 1995 at 7 pm in the auditorium of the Alaska Public Lands Information Center, Anchorage, Alaska; Wednesday, June 7, 1995 at 7 pm in the Hammond Room of Centennial Hall, Juneau, Alaska; and Friday, June 9, 1995 at 7 pm in the Park Visitor Center, Sitka National Historical Park, Sitka, Alaska.

The environmental impact statement will be prepared in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4331 et seq.) and its implementing regulations at 40 CFR Part 1500. The NPS will prepare the EIS in conjunction with preparation of the GMP for Sitka National Historical Park.

Interested groups, organizations, individuals and government agencies are invited to comment on the plan at any time. The draft statement is anticipated to be available for public review in the summer of 1996.

FOR FURTHER INFORMATION CONTACT:

John Linnquist, National Park Service, Alaska Regional Office, Division of Planning and Design, 2525 Gambell St., Room 107, Anchorage, Alaska 99503-2892. Telephone (907) 257-2465

or

Kevin Percival, Planning Team Captain, National Park Service, Denver Service Center, Team West, P.O. Box 25287, Denver, Colorado 80225-0287. Telephone (303) 969-2265

or

Gary Gauthier, Park Superintendent, Sitka National Historical Park, P.O. Box 738, Sitka, Alaska, 99835. Telephone (907) 747-6281

Dated: May 5, 1995.

Paul R. Anderson,

Deputy Regional Director, Alaska Region.

BILLING CODE 4310-70-M

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731-TA-696-698
(Final)]

Magnesium From China, Russia, and Ukraine

Determinations

On the basis of the record¹ developed in the subject investigations, the Commission determines, pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. § 1673d(b)) (the Act), that an industry in the United States is materially injured² by reason of imports from China, Russia, and Ukraine of pure magnesium,³ provided for in subheading 8104.11.00 of the Harmonized Tariff Schedule of the United States (HTS), that have been found by the Department of Commerce to be sold in the United States at less than fair value (LTFV). The Commission further determines that an industry in the United States is not materially injured or threatened with material injury, and the establishment of an industry in the United States is not materially retarded, by reason of imports from China and Russia of alloy magnesium,⁴ provided for in subheading 8104.19.00 of the HTS, that have been found by the Department of

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR § 207.2(f)).

² Chairman Watson, Vice Chairman Nuzum, and Commissioner Crawford dissenting.

³ Pure magnesium encompasses: (1) Products that contain at least 99.95 percent primary magnesium, by weight (generally referred to as "ultra-pure" magnesium); (2) products containing less than 99.95 percent but not less than 99.8 percent primary magnesium, by weight (generally referred to as "pure" magnesium); and (3) products (generally referred to as "off-specification pure" magnesium) that contain 50 percent or greater, but less than 99.8 percent primary magnesium, by weight, and that do not conform to ASTM specifications for alloy magnesium. "Off-specification pure" magnesium is pure primary magnesium containing magnesium scrap, secondary magnesium, oxidized magnesium or impurities (whether or not intentionally added) that cause the primary magnesium content to fall below 99.8 percent by weight. It generally does not contain, individually or in combination, 1.5 percent or more, by weight, of the following alloying elements: aluminum, manganese, zinc, silicon, thorium, zirconium, and rare earths.

⁴ Alloy magnesium contains 50 percent or greater, but less than 99.8 percent, primary magnesium, by weight, and one or more of the following: aluminum, manganese, zinc, silicon, thorium, zirconium, and rare earths, in amounts which, individually or in combination, constitute not less than 1.5 percent of the material, by weight. Products that meet the aforementioned description but do not conform to ASTM specifications for alloy magnesium are not included in the definition of alloy magnesium. In addition to primary magnesium, alloy magnesium may contain magnesium scrap, secondary magnesium, or oxidized magnesium in amounts less than the primary magnesium itself.
