**Foreign-Trade Zone 168—Dallas-Fort Worth, Texas; Foreign-Trade Zone 196—Fort Worth, Texas; Requests for Expanded Manufacturing Authority Nokia Mobile Phones Manufacturing (USA), Inc. (Telecommunications Products)**

Applications have been submitted to the Foreign-Trade Zones Board (the Board) by the Foreign-Trade Zone Operating Company of Texas, operator of FTZ 168, and Alliance Corridor, Inc., grantee of FTZ 196, requesting authority on behalf of Nokia Mobile Phones Manufacturing (USA), Inc./Nokia Mobile Phones Trading (USA), Inc. (Nokia), to expand Nokia's authority to manufacture telecommunications products under zone procedures within FTZ 168 and FTZ 196. The applications were submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). They were formally filed on May 8, 1995.

The FTZ Board authorized Nokia to manufacture cellular phones using certain foreign components under zone procedures within FTZ 168 and FTZ 196 in late 1994 (Board Orders 728 and 729, 60 FR 2376, 1/9/95).

Nokia is now seeking authority to manufacture a broader range of telecommunications products at its plants within FTZ 168 and FTZ 196, including mobile/cellular phones, cellular phone systems equipment, office and cellular switching systems, telecommunications network equipment, and related signal and data processing equipment. Many of the components for the finished cellular phones are currently sourced from abroad, including printed circuits, integrated circuits, semiconductors, resistors, capacitors, diodes, crystals, liquid crystal display panels, switches, speakers, antennas, power supplies, transformers, batteries, pagers, leather and plastic cases, rubber and plastic parts, fasteners, iron and steel parts, and packaging materials. Other components that may also be sourced from abroad include signal reception and transmission equipment, sound recording equipment, electric motors, glass envelopes, propylene, cabinets, wire, cable, and computers/components.

Zone procedures would exempt Nokia from Customs duty payments on the foreign components used in export production. On its domestic sales, the company would be able to choose the duty rates that apply to finished products (free-8.7%). The duty rates on

components range from duty-free to 15 percent. The applications indicate that savings from zone procedures would help the international competitiveness of Nokia's domestic plants.

In accordance with the Board's regulations, a member of the FTZ Staff has been appointed examiner to investigate the applications and report to the Board.

Public comment on the applications is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is July 17, 1995. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to August 1, 1995).

Copies of the applications and the accompanying exhibits will be available for public inspection at each of the following locations:
