NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-250 and 50-251]

Florida Power and Light Company; Turkey Point Unit Nos. 3 and 4; Notice of Partial Denial of Amendment to Facility Operating License and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (NRC) has denied a portion

of an amendment request by the Florida Power and Light Company (FPL or the licensee) for an amendment to Facility Operating License Nos. DPR-31 and DPR-41, issued to the licensee for operation of the Turkey Point Plant, Units 3 and 4, located in Dade County, Florida. Notice of Consideration of Issuance of this amendment was published in the **Federal Register** on November 9, 1994 (59 FR 55869).

The purpose of the licensee's amendment request was to revise the Technical Specification (TS) to revise the definition of core alterations, allow the personnel airlocks to be open during core alterations and revise a footnote pertaining to opening of certain valves.

The NRC staff has concluded that the portion of the licensee's request regarding the footnote allowing certain valves to be open during core alterations cannot be granted for the reasons stated in letter dated May 11, 1995. The licensee was notified of the Commission's denial of the proposed change by letter dated May 11, 1995.

By June 19, 1995, the licensee may demand a hearing with respect to the denial described above. Any person affected by this proceeding may file a written petition for leave to intervene.

A request for hearing or petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC, 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, by the above date. A copy of any petitions should also be sent to the office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to J. R. Newman, Esquire, Morgan, Lewis & Bockius, 1800 M Street, NW., Washington, DC 20036, attorney for the licensee.

For further details with respect to this action, see (1) the application for amendments dated October 20, 1994, and (2) the Commission's letter to the licensee dated May 11, 1995. These documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the Florida International University, University Park, Miami, Florida 33199. A copy of Item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Document Control Desk.

Dated at Rockville, Maryland this 11th day of May, 1994.

For the Nuclear Regulatory Commission.

David B. Matthews,

Director, Project Directorate II-1, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket No. 030-22026; License No. 37-20746-01 (Revoked) EA 95-090]

Joseph Paolino and Sons, Inc.; Mt. Laurel, New Jersey; Confirmatory Order

I

Joseph Paolino and Sons, Inc. (Licensee) previously held Byproduct Material License No. 37-20746-01 issued by the Nuclear Regulatory Commission pursuant to 10 CFR Part 30. The license authorized the possession and use of sealed sources containing byproduct material (cesium-137 and americium-241) in portable moisture density gauges, in accordance with the conditions specified therein. The license was issued on September 20, 1984 and was revoked by an Order Revoking License for nonpayment of fees on July 30, 1993.

II

The Order Revoking License directed the Licensee to transfer all licensed material that was in its possession to an authorized recipient. The Licensee failed to transfer the material and on August 18, 1994, the NRC issued a Notice of Violation and Revoked License, which was returned unclaimed and resent by messenger service and signed for by the Licensee on October 6, 1994. On December 14, 1994, the NRC issued a Notice of Violation and Proposed Imposition of Civil Penalty—\$3000 and Notification of Consideration of the Imposition of Daily Civil Penalties for unauthorized possession of byproduct material and failure to comply with the Order Revoking License. The Licensee failed to respond to this action and on March 8, 1995, the NRC issued a Notice of Violation and Proposed Imposition of Daily Civil Penalties—\$15,000. The Licensee responded and transferred the byproduct material in its possession to an authorized recipient on March 24, 1995. The Licensee did not pay the outstanding civil penalties totaling \$18,000.

III

The Notice of Violation and Proposed Imposition of Civil Penalties dated December 14, 1994 and March 8, 1995 are still outstanding. As the parties
