

used in areas that can demonstrate an ability to meet the 1990 Clean Air Act deadlines for Reasonable Further Progress and attainment while implementing an I/M program that falls below the originally promulgated enhanced I/M performance standard. The proposed action would also revise the high enhanced I/M performance standard to include a visual inspection of the positive crankcase ventilation (PCV) valve on all light-duty vehicles and light-duty trucks from model years 1968 to 1971, inclusive, and of the exhaust gas recirculation (EGR) valve on all light-duty vehicles and light-duty trucks from model years 1972 through 1983, inclusive. The proposal also solicits public comment on whether or not EPA should include revised regulatory language in its final rulemaking which change the population cutoff for basic I/M from 50,000 persons to 200,000 persons. Lastly, the proposal would make clarifying amendments to the I/M requirements for areas undergoing redesignation.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018-AD20

Endangered and Threatened Wildlife and Plants; Proposed Special Rule for the Conservation of the Northern Spotted Owl on Non-Federal Lands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Reopening of the Comment Period for the Proposed Special Rule.

SUMMARY: On February 17, 1995, the Fish and Wildlife Service (Service) published a proposed special rule, pursuant to section 4(d) of the Endangered Species Act (Act), to replace the blanket prohibitions against incidental take of spotted owls with a narrower, more tailor-made set of standards that reduce prohibitions applicable to timber harvest and related activities on specified non-Federal forest lands in Washington and California. The original deadline for comments on the proposed rule was May 18, 1995. The intent of this notice is to reopen the comment period to July 17, 1995.

DATES: The comment period for written comments is reopened until July 17, 1995.

ADDRESSES: Comments and materials concerning this proposed rule should be

sent to Mr. Michael J. Spear, Regional Director, Region 1, U.S. Fish and Wildlife Service, 911 N.E. 11th Avenue, Portland, Oregon 97232-4181.

FOR FURTHER INFORMATION CONTACT: Mr. Curt Smitch, Assistant Regional Director, North Pacific Coast Ecoregion, 3704 Griffin Lane SE, Suite 102, Olympia, Washington 98501 (360/534-9330); or Mr. Gerry Jackson, Deputy Assistant Regional Director, North Pacific Coast Ecoregion, 911 N.E. 11th Avenue, Portland Oregon 97232-4181, (503/231-6159).

SUPPLEMENTARY INFORMATION:

Background

The implementing regulations for threatened wildlife generally incorporate the prohibitions of section 9 of the Endangered Species Act of 1973, as amended (Act), for endangered wildlife, except when a "special rule" promulgated pursuant to section 4(d) of the Act has been issued with respect to a particular threatened species. At the time the northern spotted owl, *Strix occidentalis caurina*, was listed as a threatened species in 1990, the Service did not promulgate a special section 4(d) rule and therefore, all of the section 9 prohibitions, including the "take" prohibitions, became applicable to the species. To replace the blanket prohibitions against take of spotted owls, the Service published a proposed special rule, 50 CFR part 17, on February 17, 1995, (60 FR 9484), in the **Federal Register**, pursuant to section 4(d) of the Act, which proposes a narrower, more tailor-made set of standards that reduce prohibitions applicable to timber harvest and related activities on specified non-Federal forest lands in Washington and California.
