Endangered and Threatened Species Permit Application

AGENCY: Fish and Wildlife, Interior.

ACTION: Notice of document availability; request for comments.

Availability of an Environmental Assessment and Receipt of an Application for a Permit to Allow Incidental Take of Threatened and Endangered Species by Murray Pacific Corporation on its Mineral Tree Farm in Lewis County, Washington.

SUMMARY: This notice advises the public that Murray Pacific Corporation (Applicant) has applied to the U.S. Fish and Wildlife Service (FWS) for an incidental take permit pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The Applicant has requested the permit as an amendment to their existing permit (PRT-777837) authorizing incidental take of the northern spotted owl, which was issued on September 24, 1993, and have amended their existing Habitat Conservation Plan (HCP). The application has been assigned permit number PRT-777837. The Applicant has also requested to enter into a consensual agreement with the U.S. National Marine Fisheries Service (NMFS) to address the needs of anadromous salmonids being considered for listing under the Act, and with the FWS to conserve other fish and wildlife species which may be associated with habitats on their Mineral Tree Farm in Lewis County, Washington (Tree Farm). The requested permit would authorize the incidental take of all species presently listed under the Act, that may occur on the Applicant's Tree Farm. The proposed incidental take would occur as a result of timber harvest activities in the various habitat types that occur now, and will occur on the Tree Farm during the term of the proposed permit. The HCP Amendment includes an agreement for the issuance of additional permits for the incidental take of species not presently listed under the Act, but which may become listed during the term of the proposed permit, and which may occur in habitats on the Tree Farm.
