**Foreign-Trade Zones Board**

[Docket A(32b1)-7-95]

**Foreign-Trade Zone 155—Calhoun County, Texas, Request for Export Manufacturing Authority, ABB Randall Corporation (Gas Plant Modules)**

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Calhoun-Victoria FTZ, Inc., grantee of FTZ 155, pursuant to § 400.32(b)(1) of the Board's regulations (15 CFR part 400), requesting authority on behalf of ABB Randall Corporation (ABB Randall) to manufacture gas plant modules for export under zone procedures within FTZ 155. It was formally filed on May 8, 1995.

The authority would be used for the fabrication of nine gas plant modules for shipment abroad as part of an overseas plant construction contract involving ABB Randall which will be completed by the end of 1996. Certain components (about 80% of total) would be sourced from abroad, including: flat rolled steel and steel alloy products, steel and steel alloy bars/rods and angles/shapes, reservoirs/vessels/tanks (iron or steel), steel, copper and aluminum wire, steel,

copper and aluminum pipe/tubing, pumps, electric power motors and generators, electrical signaling devices, and electrical machines.

Because all of the modules would be exported, zone procedures would exempt ABB Randall from Customs duty payments on the foreign materials.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period of their receipt is June 19, 1995. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to July 3, 1995.

A copy of the application and the accompanying exhibits will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th Street & Pennsylvania Avenue, NW., Washington, DC 20230.

Dated: May 12, 1995.

**Gray Portland Cement and Clinker From Mexico; Final Results Of Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of final results of antidumping duty administrative review.

**SUMMARY:** The review period is August 1, 1992, through July 31, 1993. This review covers one manufacturer/exporter, CEMEX, S.A. (CEMEX). On June 3, 1994, the Department of Commerce (the Department) published the preliminary results of its administrative review of the antidumping duty order on gray portland cement and clinker from Mexico. We gave interested parties an opportunity to comment.

For our final results, we have determined that CEMEX failed to cooperate with the Department. As a result, we have assigned CEMEX a margin based upon best information available (BIA), in accordance with section 776(c) of the Tariff Act of 1930,

as amended (the Act). When a company refuses to cooperate with the Department or otherwise significantly impedes the proceedings, we use as BIA the higher of (a) the highest of the rates found for any firm for the same class or kind of merchandise in the same country of origin in the less-than-fair-value (LTFV) investigation or prior administrative review, or (b) the highest rate found in this review for any firm for the same class or kind of merchandise in the same country of origin. For purposes of the instant review, this margin is the highest rate found for any firm in the LTFV investigation, *i.e.*, CEMEX's margin, as amended pursuant to litigation (61.85 percent). The "All Others" rate for this order is 61.35 percent.

**EFFECTIVE DATE:** May 19, 1995.

**FOR FURTHER INFORMATION CONTACT:** Robert James or John Kugelmann, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-5253.

**SUPPLEMENTARY INFORMATION:**

**Background**

On June 3, 1994, the Department published in the **Federal Register** (59 FR 28844) the preliminary results of its administrative review of the antidumping duty order on gray portland cement and clinker from Mexico (55 FR 35371, August 30, 1990). The Department has now completed this review in accordance with section 751 of the Act.

**Scope of Review**

The products covered by this review include gray portland cement and clinker. Gray portland cement is a hydraulic cement and the primary component of concrete. Clinker, an intermediate material product produced when manufacturing cement, has no use other than being ground into finished cement. Gray portland cement is currently classifiable under the Harmonized Tariff Schedule (HTS) item number 2523.29, and cement clinker is currently classifiable under HTS item number 2523.10. Gray portland cement has also been entered under HTS item number 2523.90 as "other hydraulic cements." The HTS subheadings are provided for convenience and U.S. Customs Service purposes only. Our written description of the scope remains dispositive.
