FEDERAL RESERVE SYSTEM

Allied Irish Banks, p.l.c.; Notice to Engage in Nonbanking Activities

This notice corrects a notice (FR Doc. 95-6868) published on page 14,942 of the issue for Tuesday, March 21, 1995. The entry for Allied Irish Banks, p.l.c., Dublin, Ireland (Allied), is revised to include providing, through AIB Investment Managers Limited, Dublin, Ireland (Company), discretionary portfolio management services by purchasing and selling foreign exchange, foreign exchange-related instruments, and certain futures and

options on futures on financial commodities for customer accounts. Company would conduct the proposed activities throughout the world.

Allied states that Company would not trade for its own account, but only for the accounts of customers, and would only provide the proposed services to institutional customers, as defined in § 225.2(g) of the Board's Regulation Y. Allied maintains that the Board previously has determined by regulation that providing foreign exchange-related discretionary portfolio management services is closely related to banking. 12 CFR 225.25(b)(17). Allied has stated that Company's foreign exchange-related advisory activities would comply with the limitations contained in § 225.25(b)(17) of the Board's Regulation Y. Allied also maintains that the Board previously has determined that providing discretionary portfolio management services in connection with the purchase and sale of futures and options on futures on financial commodities is closely related to banking. *See Banque Nationale de Paris*, 81 Federal Reserve Bulletin 386 (1995) (BNP). Allied has stated that unlike the proposal approved by the Board in BNP, Company would purchase and sell over-the-counter instruments on behalf of managed accounts. In order to address potential conflicts of interest and other potential adverse effects, Allied has committed that Company would observe the standards of care and conduct applicable to fiduciaries.

Any comments or requests for hearing should be submitted in writing and received by William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 22, 1995. Any request for a hearing on this notice must, as required by § 262.3(e) of the Board's Rules of Procedure (12 CFR 262.3(e)), be accompanied by a statement of the reasons why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

This notice may be inspected at the offices of the Board of Governors or the Federal Reserve Bank of Richmond.

Board of Governors of the Federal Reserve System, May 15, 1995.

Jennifer J. Johnson,

Deputy Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Health Care Policy and Research

Nominations of Clinical Practice Guideline Topics

The Agency for Health Care Policy and Research (AHCPR) is inviting recommendations of health topics, with supporting rationale, for consideration by AHCPR in selecting topics for development of clinical practice guidelines. The process AHCPR employs in establishing priorities and selecting topics for guidelines, based on statutory criteria, is described below.

Background

The Agency for Health Care Policy and Research (AHCPR) is charged, under Title IX of the Public Health Service Act (PHS Act), with enhancing the quality, appropriateness, and effectiveness of health care services, and access to such services. The AHCPR accomplishes its goals through the establishment of a broad base of scientific research and through the promotion of improvements in clinical practice and in the organization, financing, and delivery of health care services. (42 U.S.C. 299-299c-6 and 1320b-12.)

As part of its charge, under section 912 of the PHS Act, the Administrator of AHCPR arranges for the development, periodic review, and updating of clinically relevant guidelines that may be used by physicians, other health care practitioners, providers, educators, and health care consumers to assist in determining how diseases, disorders, and other health conditions can most effectively and appropriately be prevented, diagnosed, treated, and clinically managed. (See 42 U.S.C. 299b-1(a).)

The guidelines are required to:

1. Be based on the best available research and professional judgment;
2. Be presented in formats appropriate for use by physicians, other health care practitioners, providers, medical educators, medical review organizations, and consumers;
3. Be presented in treatment-specific or condition-specific forms appropriate for use in clinical practice, educational programs, and review of quality and appropriateness of medical care;
4. Include information on the risks and benefits of alternative strategies for prevention, diagnosis, treatment, and management of the particular health condition(s); and
5. Include information on the costs of alternative strategies for prevention,

diagnosis, treatment, and management of the particular health condition(s), where cost information is available and reliable.

Section 914(a) of the PHS Act (42 U.S.C. 299b-3(a)) identifies factors to be considered in establishing priorities for guidelines, including the extent to which the guidelines would:

1. Improve methods for disease prevention;
2. Improve methods of diagnosis, treatment, and clinical management for the benefit of a significant number of individuals;
3. Reduce clinically significant variations among clinicians in the particular services and procedures utilized in making diagnoses and providing treatments; and
4. Reduce clinically significant variations in the outcomes of health care services and procedures.

Section 914 also provides that the methodology may include the considerations under section 904 of the PHS Act, relevant to establishing priorities for technology assessments, and other considerations determined by the Administrator to be appropriate.

The criteria for determining priorities for technology assessments include: The prevalence of a particular health condition; variations in current practice; the economic burden posed by the prevention, diagnosis, treatment, and clinical management of a health condition, including the impact on publicly funded programs; aggregate cost of the use of the technology(ies) involved; the morbidity and mortality associated with the health condition; and the potential to improve health outcomes or affect costs associated with the prevention, diagnosis, or treatment of the condition.

Consistent with several Title IX provisions, such as sections 912(e) and 914(a)(2)(B) of the PHS Act, and with section 1142 of the Social Security Act, the Administrator assures that the needs and priorities of the Medicare program are reflected appropriately in the agenda and priorities for development of guidelines. In the future, the Administrator will also give special consideration to topics which are not likely to be addressed by the private sector, and to those which are likely to be implemented by organized systems of care.

In response to section 914(a)(2)(C), which requires the Administrator to publish a methodology for establishing priorities for guideline topics and a **Federal Register** notice of topics under consideration annually, a notice was published on September 1993, entitled "Criteria for Selection of Clinical
