Office of Energy Research

Energy Research Financial Assistance Program Notice 95-09: Outstanding Junior Investigator Program

AGENCY: U. S. Department of Energy (DOE).

ACTION: Notice inviting grant applications.

SUMMARY: The Division of High Energy Physics of the Office of Energy Research (OER), U.S. Department of Energy, hereby announces its interest in receiving grant applications for support under its Outstanding Junior Investigator (OJI) Program. Proposals should be from non-tenured academic faculty investigators who are currently involved in experimental and theoretical high energy physics or accelerator physics research, and should be submitted through a U.S. academic institution. The purpose of this program is to support the development of the individual research programs of

outstanding scientists early in their careers. Awards made under this program will help to maintain the vitality of university research and assure continued excellence in the teaching of physics. It is expected that DOE will issue five to ten grant awards for OJI research projects during the fiscal year, depending on the number of meritorious applications and the availability of appropriated Fiscal Year 1996 funds.

DATES: To permit timely consideration for award in Fiscal Year 1996, formal applications submitted in response to this notice should be received no later than 4:30 EST November 1, 1995.

ADDRESSES: Completed formal applications referencing Program Notice 95-09 should be forwarded to: U.S. Department of Energy, Office of Energy Research, Grants and Contracts Division, ER-64 (GTN), 19901 Germantown Road, Germantown, Maryland 20874-1290, ATTN: Program Notice 95-09. The same address must be used when submitting applications by U.S. Postal Service Express, any commercial mail delivery service, or when handcarried by the applicant.

FOR FURTHER INFORMATION CONTACT: Dr. Jeffrey Mandula, Division of High Energy Physics, ER-221 (GTN), U.S. Department of Energy, 19901 Germantown Road, Germantown, Maryland 20874-1290. Telephone: (301) 903-4829.

SUPPLEMENTARY INFORMATION: The Outstanding Junior Investigator program was started in 1978 by the Department of Energy's Office of Energy Research. A principal goal of this program is to identify exceptionally talented new high energy physicists early in their careers and assist and facilitate the development of their research programs. In accordance with 10 CFR 600.7(b)(1), eligibility for awards under this notice is restricted to non-tenured academic investigators who are conducting experimental or theoretical high energy physics or accelerator physics research at an established U.S. academic institution. Since its debut, the program has initiated support for between five and ten new Outstanding Junior Investigators each year. The program has been very successful and makes an important contribution to the vigor of the High Energy Physics program. Applicants should request support under this notice for normal research project costs as required to conduct their proposed research activities.

General information about development and submission of applications, eligibility, limitations, evaluations and selection processes, and other policies and procedures are

contained in the Application Guide for the Office of Energy Research Financial Assistance Program and 10 CFR Part 605. The DOE expects to make five to ten grant awards in Fiscal Year 1996 to meet the objectives of this program. It is anticipated that approximately \$370,000 will be available in Fiscal Year 1996 subject to availability of appropriated funds. In the past, awards have averaged \$50,000 per year, with the number of awards determined by the number of excellent applications and the total funds available for this program. The application guide is available from the U.S. Department of Energy, Division of High Energy Physics, Office of Energy Research, ER-221, 19901 Germantown Road, Germantown, Maryland 20874-1290. Telephone requests may be made by calling (301) 903-4829.
