

Office of Surface Mining Reclamation and Enforcement**Abandoned Mine Land Reclamation Program**

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.
ACTION: Notice of intent.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) is requesting comments as to whether the Abandoned Mine Land (AML) Reclamation Program Final Guidelines, published March 6, 1980 (45 FR 14810-19), should be revised, and if so, what specific revisions need to be included.

DATES: *Written Comments:* OSM will accept written comments on the proposed rule until 5 p.m. Eastern time on July 21, 1995.

ADDRESSES: *Written Comments:* Hand deliver to the Office of Surface Mining Reclamation and Enforcement, Administrative Record, Room 660, 800 North Capitol Street NW., Washington, DC; or mail to the Office of Surface Mining Reclamation and Enforcement, Administrative Record, Room 10-SIB, 1951 Constitution Avenue NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Norman Hess, Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior, 1951 Constitution Avenue NW., Washington, DC 20240; Telephone: 202-208-2949 or 208-5365.

SUPPLEMENTARY INFORMATION: In 1980, OSM published AML Reclamation Program Final Guidelines (45 FR 14810, March 6, 1980) for reclamation programs and projects. These guidelines were intended to assist States, Indian tribes and OSM in interpreting and applying the general reclamation requirements for individual programs and projects contained in the Surface Mining Control and Reclamation Act (SMCRA) and the AML program regulations. These guidelines were designed to promote uniformity in programs and projects that are carried out by different entities assigned the responsibility for administering AML programs and to provide a common basis for the conduct of program and project evaluation activities.

The 1980 guidelines currently contain several outdated citations and other provisions due to legislative revisions to

Title IV of SMCRA as well as policies adopted by OSM since 1980. Therefore, OSM is considering whether to revise the guidelines, and if so, what specific revisions and updates to incorporate. Toward this end, OSM requests all interested parties and organizations to provide any relevant comments related to this contemplated revision.

All comments will be analyzed and considered by the agency in making the determination of whether to revise the existing guidelines. If a decision is made to proceed with revision of the guidelines, appropriate comments will be incorporated into the revised guidelines to the fullest extent possible.

Dated: May 15, 1995.

Robert J. Uram,
Director.
