DEPARTMENT OF ENERGY

Intent To Prepare an Environmental Assessment of Decommissioning the Strategic Petroleum Reserve Weeks Island Facility, Iberia Parish, Louisiana

AGENCY: Strategic Petroleum Reserve (SPR), Department of Energy (DOE).

ACTION: Notice of intent to prepare an environmental assessment and to conduct public scoping.

SUMMARY: The Department of Energy (DOE) has determined that, pursuant to the National Environmental Policy Act (NEPA), an Environmental Assessment (EA) should be prepared to assess the potential environmental consequences of decommissioning the Strategic Petroleum Reserve (SPR) Weeks Island Facility in Iberia Parish, Louisiana. A groundwater leak has compromised the containment integrity of the facility, which currently stores 73 million barrels of crude oil underground in a salt dome. In December 1994, DOE concluded that the integrity of the Weeks Island mine cannot be assured and that it is unsuitable for continued crude oil storage. The agency plans to move Weeks Island's crude oil inventory to other SPR storage sites in Louisiana and Texas beginning in October 1995 and then decommission the facility, completing in June 1999. The range of proposed decommissioning actions and associated environmental issues that have been identified are described below. DOE is requesting comments, suggestions, and any information that interested parties may have that would assist the agency in identifying additional alternatives and environmental issues to consider in the EA.

DATES: A public meeting will be held in New Iberia, Louisiana on Thursday, June 8, 1995, at 7 p.m. Speakers may

pre-register in writing, by telephone or by facsimile by close of business June 1, 1995. Written comments must be received by June 21, 1995.

ADDRESSES: The meeting will be held at the New Iberia Senior High School auditorium, 1301 East Admiral Doyle Drive, New Iberia, Louisiana. Inquiries, written comments and suggestions, and requests to speak at the scoping meeting, to review the draft EA when it becomes available, and/or to receive the approved EA should be labeled "Weeks Island EA" and submitted to Ms. Durinda L. Robinson, Office of Public Affairs (FE-445.2), Department of Energy, 900 Commerce Road East, New Orleans, Louisiana 70123. Requests to speak will also be accepted by telephone at (504) 734-4312 between the hours of 8:00 a.m. and 4:00 p.m. CDT, Monday through Friday, except Federal holidays, or by facsimile, (504) 734-4427.

SUPPLEMENTARY INFORMATION:

Background

The SPR Weeks Island Facility is in Iberia Parish, Louisiana, about 15 miles south of the city of New Iberia. It is a conventional room-and-pillar salt mine in a salt dome that was converted by DOE for the long-term storage of crude oil. It was filled to capacity with 73 million barrels of oil and has been in a standby mode since 1982. The mine and surface property were acquired from the
