BILLING CODE 4310-RG-M

FEDERAL MARITIME COMMISSION

46 CFR Part 514

[Docket No. 95-08]

Service Contract Filing Requirements—Miscellaneous Revisions

AGENCY: Federal Maritime Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Maritime Commission proposes to amend its rules to provide an optional, abbreviated service contract format and to require service contracts to include certain identifying information concerning the signatories. This should reduce duplication and Commission and carrier costs, as well as facilitate automation of the Commission's service contract records.

DATES: Comments due June 22, 1995.

ADDRESSES: Comments (original and 15 copies) are to be submitted to: Joseph C. Polking, Secretary, Federal Maritime Commission, 800 North Capitol Street, N.W., Washington, D.C. 20573, (202) 523-5725.

FOR FURTHER INFORMATION CONTACT: Bryant L. VanBrakle, Director, Bureau of Tariffs, Certification and Licensing, Federal Maritime Commission, 800 North Capitol Street, N.W., Washington, D.C. 20573, (202) 523-5796.

SUPPLEMENTARY INFORMATION: Service contracts subject to section 8(c) of the Shipping Act of 1984 ("1984 Act" or "the Act"), 46 U.S.C. app. 1707(c),¹ are filed confidentially with the Federal Maritime Commission ("FMC" or "Commission").² Prior to such filing, a

¹ A service contract is defined by section 3(21) of the Act as:

* * * a contract between a shipper and an ocean common carrier or conference in which the shipper makes a commitment to provide a certain minimum quantity of cargo over a fixed time period, and the ocean common carrier or conference commits to a certain rate or rate schedule as well as a defined level—such as assured space, transit time, port rotation, or similar service features; the contract may also specify provisions in the event of nonperformance on the part of either party.

² Section 8(c) of the 1984 Act provides:

* * * each [service] contract entered into * * * shall be filed confidentially with the Commission, and at the same time, a concise statement of its essential terms shall be filed with the Commission and made available to the general public in tariff format, and those essential terms shall be available

statement of each contract's essential terms ("ET") is filed electronically in the Commission's Automated Tariff Filing and Information System ("ATFI"), made available to the general public in tariff format, and offered to all similarly situated shippers.³

ETs have been required to be filed in ATFI since November 1993. However, the associated confidential service contracts continue to be filed in paper format and can often be of considerable length. There is significant duplication between a service contract's text and that of its corresponding ET. To the extent the overlap between these interdependent documents can be minimized, the rate of error between the two documents should also be reduced.

Because service contracts are filed confidentially with the Commission, they must be secured under lock and key. Given the rapidly rising number of contract filings, and their sheer physical bulk, these documents are consuming an ever larger portion of the Commission's limited secured storage space.

Apart from the foregoing, the Commission is also proposing to address a ministerial detail relating to the content of service contracts. The current service contract rules do not require contracts to set forth the signatories' addresses. This has resulted in difficulty in clearly identifying shipper parties, including named affiliates, to certain service contracts, and, in some cases, hampered the Commission's investigative efforts.

The Commission therefore proposes to afford service contract parties the option of filing their service contracts in an abbreviated format, on condition that such filings incorporate by reference the corresponding ATFI ETs; certify that said ET contains all aspects of the parties' contract which are not set forth in the service contract filing; and set forth certain specific information. The FMC also proposes to require service contracts to set forth the parties' names, titles and addresses.

to all shippers similarly situated. The essential terms shall include—

(1) the origin and destination port ranges in the case of port-to-port movements, and the origin and destination geographic areas in the case of through intermodal movements;

(2) the commodity or commodities involved;

(3) the minimum volume;

(4) the line-haul rate;

(5) the duration;

(6) service commitments; and

(7) the liquidated damages for nonperformance, if any.

³ This requirement is implemented in the Commission's rules and regulations at 46 CFR 514.7(f)(1).

The collection of information requirements contained in this proposed rule have been submitted to the Office of Management and Budget for review under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96-511), as amended. Public reporting burden for this collection of information is estimated to decrease to an average of one manhour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Bruce A. Dombrowski, Deputy Managing Director, Federal Maritime Commission, Washington, D.C. 20573 and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

The Chairman of the Commission certifies, pursuant to section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, that this proposed rule will not have a significant economic impact on a substantial number of small entities, including small businesses, small organizational units, and small governmental jurisdictions.
