**Summary Statement of Serious Damage  
Manmade Fiber Luggage—Category 670-L  
April 1995**

The sharp and substantial increase in imports of manmade fiber luggage, Category 670-L, is causing serious damage to the U.S. industry producing manmade fiber luggage.

Manmade fiber luggage imports, Category 670-L, increased from 72,550,000 kilograms in 1992 to 77,238,000 kilograms in 1993, a six percent increase. Manmade fiber luggage imports, Category 670-L, continued to increase in 1994 and 1995, reaching 87,413,000 kilograms during year ending January 1995, 13 percent above the year ending January 1994 level and 20 percent above the 1992 level.

Serious damage to the domestic industry resulting from the sharp and substantial increase in imports of manmade fiber luggage is attributed to imports from Thailand, Philippines and Sri Lanka. The combination of high import levels, surging imports and low priced luggage from these countries have resulted in loss of domestic output, market share, investment, employment, and man-hours worked.

Total imports of manmade fiber luggage, Category 670-L, from the three countries listed above increased from 24,069,000 kilograms in the year ending January 1994 to 30,932,000 kilograms in the twelve months ending in January 1995, a sharp and substantial increase of 29 percent. Together their year ending January 1994 imports were 31 percent of total U.S. imports in Category 670-L. Their share of total Category 670-L imports increased to 35 percent in the year ending January 1995. Their year ending January 1995 imports, measured in kilograms of fabric content, were 102 percent of total 1994 U.S. production of manmade fiber luggage.
