

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Northrop Grumman Corporation Research and Development Venture

Notice is hereby given that, on March 22, 1995, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Northrop Grumman Corporation has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties are: Grumman Aerospace Company, Bethpage, NY (a subsidiary of Northrop Grumman Corporation); The Cyril Bath Company, Monroe, NC; and Massachusetts Institute of Technology, Cambridge, MA. The objective of the venture is to conduct joint research to develop commercially viable technology for reconfigurable tooling for sheet metal forming and other potential low rate production applications for an adaptive factory environment.

Constance K. Robinson,

Director of Operations, Antitrust Division.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—The Passive Millimeter Wavelength Camera Technology Reinvestment Project ("PMMWC TRP")

Notice is hereby given that, on February 1, 1995, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), TRW Inc. has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the projects. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties are: TRW Inc., Redondo Beach, CA; and McDonnell Douglas Aerospace, Long Beach, CA. The nature and objectives of the Passive Millimeter Wave Camera (PMMWC) Consortium is to provide the

most advanced and affordable US military systems, and the most competitive commercial products in the global marketplace for the civilian airlines, parcel carriers, fire and rescue, and related industries through the development of a PMMW camera that "sees" through weather and projects a TV-like image of the forward scene. To accomplish this objective, a partnership comprised of a radiometric sensor developer and an aircraft manufacturer has been established forming a fully integrated team. This will avoid inefficient duplication of effort and expense while performing research in this area. The Parties intend to cooperate in the collection, exchange and, where appropriate, dissemination of the research results, to work closely with various government and private agencies, and perform further acts allowed by the National Cooperative Research and Production Act that would advance the PMMWC TRP's objectives.

Membership in the venture remains open, and the parties intend to file additional written notifications disclosing all changes in the membership or planned activities.

Constance K. Robinson,

Director of Operations, Antitrust Division.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Petroleum Environmental Research Forum

Notice is hereby given that, on March 1, 1995, pursuant to the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), the participants in the Petroleum Environmental Research Forum ("PERF") Project No. 93-19 have filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties and the general area of planned activity are: Amoco Oil Company, Naperville, IL; Marine Spill Response Corporation, Washington, DC; and University of West Florida, Pensacola, FL.

The nature and objectives of the research program performed in accordance with PERF Project No. 93-19 is to determine the effect of

bioemulsifiers on the bioremediation of open water oil spills.

Information about participation in Project 93-19 may be obtained by contacting David E. Fritz, Amoco Oil Company, Naperville, IL.

BILLING CODE 4410-01-M

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Petroleum Environmental Research Forum—Project No. 93-08

Notice is hereby given that, on March 15, 1995, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. § 4301 *et seq.* ("the Act"), the Participants in the Petroleum Environmental Research Forum ("PERF") Project No. 93-08, titled "Environmentally Acceptable Thread Compounds", have filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to Section 6(b) of the Act, the identities of the parties are Mobil Research and Development Corporation, Dallas, Texas; Siderca S.A.I.C., Buenos Aires, ARGENTINA; Texaco Inc., Bellaire, Texas; and U.S. Steel Group, Fairfield, Alabama. The general area of planned activity is to investigate and evaluate the behavior and acceptability of certain candidate environmentally acceptable alternative line pipe, casing and tubing (LP-C&T) thread compounds on full-size API tubing. Research and development work required in furtherance of PERF Project No. 93-08 is to be carried out by Centre For Frontier Engineering Research.

Participation in this Project will remain open to any and all interested parties until issuance of the final Project Report, which is presently expected to occur approximately Six (6) months after the Project commences. The participants intend to file additional written notifications disclosing all changes in membership of the group of participants involved in this Project. Information regarding participation in the Project may be obtained from Mobil Research and Development Corporation,
