The petitions were submitted pursuant to section 251 of the Trade Act of 1974 (19 U.S.C. 2341). Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Trade Adjustment Assistance Division, Room 7023, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

The Catalog of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.313, Trade Adjustment Assistance.

Dated: May 18, 1995.

Lewis R. Podolske,
Acting Director, Trade Adjustment Assistance Division.

Permits; Foreign Fishing

In accordance with a memorandum of understanding with the Secretary of State, the National Marine Fisheries Service publishes for public review and comment summaries of applications received by the Secretary of State requesting permits for foreign fishing vessels to operate in the Exclusive Economic Zone (EEZ) under provisions

of the Magnuson Fishery Conservation and Management Act (Magnuson Act, 16 U.S.C. 1801 *et seq.*). This notice concerns the receipt of an application from the Government of the Russian Federation requesting authorization to conduct a joint venture (JV) in the Northwest Atlantic Ocean. The application requests 20,000 metric tons of Atlantic sea herring be made available for the JV. The factory trawler NADIR is identified as the vessel that will receive sea herring from U.S. vessels. While no Fishery Management Plan for Atlantic sea herring has yet been implemented, based on receipt of the Russian application, and in accordance with section 201(h) of the Magnuson Act, necessary regulatory actions are being effected and a Preliminary Fishery Management Plan (PMP) for Atlantic sea herring is being developed. Approvability of the proposed JV to have the foreign vessel NADIR receive Atlantic sea herring from U.S. fishing vessels in the EEZ will be contingent on specifications under the PMP that would make available an amount of U.S.-harvested herring for such operations, and on other issues that bear on the approval of foreign fishing permits.
