## Federal Energy Regulatory Commission

[Docket No. CP95-501-000]

### K N Interstate Gas Transmission Co.; Application

May 19, 1995.

Take notice that on May 16, 1995, K N Interstate Gas Transmission Co. (KNI),

P.O. Box 281304, Lakewood, Colorado 80228, filed in Docket No. CP95-501-000 an application pursuant to Section 7(b) of the Natural Gas Act for authorization to abandon by sale to Mountain Petroleum Corporation (MPC) its Phuma Compressor Station facilities located in Phillips County, Colorado, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

KNI proposes to abandon by sale to MPC one Ajax DPC42 compressor, one glycol dehydrator and miscellaneous station pipeline and valves. KNI states that its predecessor constructed the Phuma Compressor Station in 1977 to compress gas that it purchased from MPC and gathered through its adjacent gathering system for use as system supply. KNI states that, due to the small amount of gas (100 Mcf per day) received from MPC, the costs of operating the gathering system by K N Gas Gathering, Inc. (KNGG) and the compressor station facilities by KNI exceeded the revenues received to gather and compress the gas. KNI also states that, in order to relieve KNGG and KNI of the high cost of operating the facilities and still provide MPC with the opportunity to produce its gas, KNI, KNGG and MPC have entered into a facilities purchase and sale agreement whereby MPC would purchase the facilities. It is indicated that, because of its non-jurisdictional status, the gathering system has already been transferred to MPC by KNGG. It is also indicated that because MPC is the only producer with gas supplies connected to the Phuma facilities, no other party would be affected by the proposed abandonment.

KNI states that MPC would purchase the compressor station, dehydrator and appurtenant facilities at a price of \$12,500.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 9, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for KNI to appear or be represented at the hearing.

Take notice that on May 1, 1995, Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas 77251-1642, filed in Docket No. CP95-432-000 an abbreviated application pursuant to Section 7(b) of the Natural Gas Act, as amended, and Sections 157.7 and 157.18 of the Federal Energy Regulatory Commission's (Commission) Regulations thereunder, for permission and approval to abandon certain mainline transmission facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Trunkline states that it proposes to abandon approximately 2,187 feet of twenty-inch connector pipeline (Line 100-T1) on the south side of Trunkline's Red River crossing in Rapides Parish, Louisiana.
