

*Final Supplemental Environmental Impact Statement on Management of Habitat for Late Successional and Old Growth Forest Related Species Within the Range of the Northern Spotted Owl* and its Record of Decision (Interagency, 1994). Closure is for an indefinite period (15 years or longer) beginning on or about 1 June, 1995, when roads will have barriers or gates installed. Closures may be reversed by the BLM. Acceptable reasons for reopening include the following: fire (prescribed or suppression), emergency, rescue, forestry management on lands administered by a private party (including but not limited to thinning, fertilization, stand exams, reforestation and harvesting activities on private lands and as authorized by the Area Manager on BLM administered lands), salvage sales on BLM administered lands (authorized by the Area Manager or their agent on a case-by-case basis), small forest products sales on BLM administered lands (authorized by the Area Manager or their agent on a case-by-case basis) and wildlife/fisheries monitoring and research. *Recreational use of motor vehicles by all parties within the closed areas is prohibited.* This does not affect non motorized forms of travel. The reason for this order is to implement the Northwest Forest Plan as it relates to road density management and is designed primarily to enhance big game habitat, reduce sedimentation, and reduce maintenance costs.

Copies of the environmental assessment for this proposal and maps of the roads affected are available from the Coos Bay District office, at the address below.

All persons authorized to enforce state game laws may enforce this closure. Oregon State Police and the Coos County Sheriff's Department are hereby authorized to enforce state and federal laws and regulations on federal properties affected in this notice.
