

commercial traffic is known to transit the area; however, sufficient notice will be provided for any affected party to alter plans with minimal impact.

Regulatory Evaluation

This proposal is not a significant regulatory action under section 3(f) of Executive Order 12866, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has been exempted from review by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040, February 26, 1979). The Coast Guard expects the economic impact of this proposal to be so minimal that a full Regulatory Evaluation, under paragraph 10e of the regulatory policies and procedures of DOT, is unnecessary. Commercial traffic on the affected portion of the Connecticut River is infrequent. The race is popular and is anticipated to draw business to the local merchants. Local commercial entities have been notified of the race schedule.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this proposal will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their fields and that otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632).

For reasons set forth in the above Regulatory Evaluation, the Coast Guard certifies under 5 U.S.C. 605(b) that this proposal, if adopted, will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This proposal contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

The Coast Guard has analyzed this proposal in accordance with the principles and criteria contained in Executive Order 12612, and has determined that this proposal does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard has considered the environmental impact of this proposal

and in accordance with paragraph 2.B.2.e(35)(e) of Commandant Instruction M16475.1B, the event is deemed to be categorically excluded from further environmental documentation.

SUPPLEMENTARY INFORMATION: This proposed rule change is designed to adjust PTO fees in accordance with the applicable provisions of title 35, United States Code; section 31 of the Trademark (Lanham) Act of 1946 (15 U.S.C. 1113); and section 10101 of the Omnibus Budget Reconciliation Act of 1990 (as amended by section 8001 of Public Law 103-66), all as amended by the Patent and Trademark Office Authorization Act of 1991 (Public Law 102-204).

Background

Statutory Provisions

Patent fees are authorized by 35 U.S.C. 41 and 35 U.S.C. 376. A fifty percent reduction in the fees paid under 35 U.S.C. 41 (a) and (b) by independent inventors, small business concerns, and nonprofit organizations who meet prescribed definitions is required by 35 U.S.C. 41(h).

Subsection 41(f) of title 35, United States Code, provides that fees established under 34 U.S.C. 41 (a) and (b) may be adjusted on October 1, 1992, and every year thereafter, to reflect fluctuations in the Consumer Price Index (CPI) over the previous 12 months.

Section 10101 of the Omnibus Budget Reconciliation Act of 1990 (amended by section 8001 of Public Law 103-66) provides that there shall be a surcharge on all fees established under 35 U.S.C. 41 (a) and (b) to collect \$111 million in fiscal year 1996.

Subsection 41(d) of title 35, United States Code, authorizes the Commissioner to establish fees for all other processing, services, or materials related to patents to recover the average cost of providing these services or materials, except for the fees for recording a document affecting title, for each photocopy, and for each black and white copy of a patent.

Section 376 of title 35, United States Code, authorizes the Commissioner to set fees for Patent applications filed under the Patent Cooperation Treaty (PCT).

Subsection 41(g) of title 35, United States Code, provides that new fee amounts established by the Commissioner under section 41 may take effect thirty days after notice in the **Federal Register** and the Official

Gazette of the Patent and Trademark Office.

Section 31 of the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113), authorizes the Commissioner to establish fees for the filing and processing of an application for the registration of a trademark or other mark, and for other services and materials relating to trademarks and other marks.

Section 31(a) of the Trademark (Lanham) Act of 1946 (15 U.S.C. 1113(a)), as amended, allows trademark fees to be adjusted once each year to reflect, in the aggregate, any fluctuations during the preceding 12 months in the CPI.

Section 31 also allows new trademark fee amounts to take effect thirty days after notice in the **Federal Register** and the Official Gazette of the United States Patent and Trademark Office.

Recovery Level Determinations

The proposed rule would adjust patent and trademark fees for a planned recovery of \$643,014,000 in fiscal year 1996, as proposed in the Administration's budget request to the Congress.

The patent statutory fees established by 35 U.S.C. 41 (a) and (b) are proposed to be adjusted on October 1, 1995, to reflect any fluctuations occurring during the previous 12 months in the Consumer Price Index (CPI-U). In calculating these fluctuations, the Office of Management and Budget (OMB) has determined that the PTO should use CPI-U data as determined by the Secretary of Labor. However, the Department of Labor does not make public the CPI-U until approximately 21 days after the end of the month being calculated. Therefore, the latest CPI-U information available is for the month of February 1995. In accordance with previous rulemaking methodology, the PTO uses the Administration's projected CPI-U for the 12-month period ending September 30, 1995, which is 3.2 percent. Based on this projection, patent statutory fees are proposed to be adjusted by 3.2 percent. Before the final fee schedule is published, the fees may be slightly adjusted based on actual data available from the Department of Labor.

Certain non-statutory patent processing fees established under 35 U.S.C. 41(d) and PCT processing fees established under 35 U.S.C. 376 are proposed to be adjusted to recover their estimated average costs in fiscal year 1996. Three patent service fees that are set by statute will not be adjusted. The three fees that are not being adjusted are assignment recording fees, printed

patent copy fees and photocopy charge fees.

Certain trademark service fees established under 15 U.S.C. 1113 are proposed to be adjusted to recover their estimated average costs in fiscal year 1996.

The proposed fee amounts were rounded by applying standard arithmetic rules so that the amounts rounded would be convenient to the user. Fees of \$100 or more were rounded to the nearest \$10. Fees between \$2 and \$99 were rounded to an even number so that the comparable small entity fee would be a whole number.

Workload Projections

Determination of workloads varies by fee. Principal workload projection techniques are as follows:

Patent application workloads are projected from statistical regression models using recent application filing trends. Patent issues are projected from an in-house patent production model and reflect examiner production achievements and goals. Patent maintenance fee workloads utilize patents issued 3.5, 7.5 and 11.5 years prior to payment and assume payment rates of 79 percent, 55 percent and 32 percent, respectively. Service fee workloads follow linear trends from prior years' activities.

General Procedures

Any fee amount that is paid on or after the effective date of the fee increase would be subject to the new fees then in effect. For purposes of determining the amount of the fee to be paid, the date of mailing indicated on a proper Certificate of Mailing or Transmission, where authorized under 37 CFR 1.8, will be considered to be the date of receipt in the PTO. A Certificate of Mailing or Transmission under Section 1.8 is not "proper" for items which are specifically excluded from the provisions of Section 1.8. Section 1.8 should be consulted for those items for which a Certificate of Mailing or Transmission is not "proper." Such items include, inter alia, the filing of national and international applications for patents and the filing of trademark applications. However, the provisions of 37 CFR 1.10 relating to filing papers and fees with an "Express Mail" certificate do apply to any paper or fee (including patent and trademark applications) to be filed in the PTO. If an application or fee is filed by "Express Mail" with a proper certificate dated on or after the effective date of the rules, as amended, the amount of the fee to be paid would be

the fee established by the amended rules.

A notice of final rulemaking was published at 60 FR 20195 (April 25, 1995) wherein several new fee provisions were made to implement the 20-year patent term and provisional applications. Language changes were made in 37 CFR 1.16 (a), (b), (d), (f), and (g) which are reproduced in this proposed rule package. In addition, fees involving 37 CFR 1.17 (r) and (s) are now proposed to be adjusted by changes in the CPI to remain equal to the basic filing fee for a utility patent application.

PTO Information Dissemination Products

The PTO provides information to the public in the Patent Search Room and the Trademark Search Library in Arlington, Virginia, and at 78 Patent and Trademark Depository Libraries around the country. A list of the libraries is included in each issue of the Official Gazette of the Patent and Trademark Office. In addition, a number of patent and trademark search tools and document-delivery products, published on paper and on various machine-readable media, are sold directly to the public.

Printed PTO publications may be ordered from the Government Printing Office or one of its Book Stores located throughout the country. 37 CFR 7.1 Requirements

Sections 7.1(b)–(h) contain language similar to that in §§ 3.21, 3.28, 3.31, 3.34, 3.26, 3.27, and 3.41, respectively.

Section 7.1(b), if revised as proposed, would provide that an instrument relating to a patent must identify the patent by the patent number, that an instrument relating to a national patent application must identify the national patent application by the application number (consisting of the series code and the serial number, e.g., 07/123,456) or the serial number and filing date, that an instrument relating to an international patent application which designates the United States of America must identify the international application by the international application number (e.g., PCT/US90/01234), and that if an assignment is executed concurrently with, or subsequent to, the execution of the patent application, but before the patent application is filed, it must identify the patent application by its date of execution, name of each inventor, and title of the invention so that there can be no mistake as to the patent application intended.

Section 7.1(c), if revised as proposed, would provide that each instrument submitted to the Office for recording must be accompanied by a cover sheet referring to those patent applications and patents against which the instrument is to be recorded, that one set of instruments and cover sheets to be recorded should be filed, and that if an instrument to be recorded is not accompanied by a completed cover sheet, the instrument and any

incomplete cover sheet will be returned for proper completion of a cover sheet and resubmission of the instrument and a completed cover sheet.

Section 7.1(d), if revised as proposed, would provide that each cover sheet must contain: (1) the name of the party conveying the interest; (2) the name and address of the party receiving the interest; (3) a description of the interest conveyed or transition to be recorded; (4) each application number or patent number against which the instrument is to be recorded, or an indication that the instrument is filed together with a patent application; (5) the name and address of the party to whom correspondence concerning the request to record the instrument should be mailed; (6) the number of applications or patents identified in the cover sheet and the total fee; (7) the date the instrument was executed; (8) a statement by the party submitting the instrument that to the best of the person's knowledge and belief, the information contained on the cover sheet is true and correct and any copy submitted is a true copy of the original instrument; and (9) the signature of the party submitting the instrument.

Section 7.1(e), if revised as proposed, would provide for the correction of errors in the cover sheet. Specifically, § 7.1(e), as proposed, would provide that an error in a cover sheet recorded pursuant to this Part will be corrected only if: (1) the error is apparent when the cover sheet is compared with the recorded instrument to which it pertains, and (2) a corrected cover sheet accompanied by the recording fee set forth in § 1.21(h) of this chapter and either the original recorded instrument or a copy of the original recorded instrument is filed for recordation.

Section 7.1(f), if revised as proposed, would provide that the Office will accept and record non-English language instruments only if accompanied by a verified English translation signed by the individual making the translation.

Section 7.1(g), if revised as proposed, would provide that instruments and cover sheets to be recorded should be addressed to the Commissioner of Patents and Trademarks, Box Assignment, Washington, D.C. 20231.

Section 7.1(h), if revised as proposed, would provide that all requests to record instruments must be accompanied by the recording fee set forth in § 1.21(h) of this chapter, and that the fee set forth in § 1.21(h) of this chapter is required for each application and patent against which the instrument is recorded as identified in the cover sheet.

Other Considerations

This proposed rule change is in conformity with the requirements of Executive Order 12612, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501, et seq. This rulemaking contains one information collection entry relating to registration of Government patent interests in patents. This information collection has been approved by the Office of Management and Budget under Control Number 0651-0027. This proposed rule has been determined not to be significant for purposes of Executive Order 12866.

The PTO has determined that this proposed rule change has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

The Assistant General Counsel for Legislation and Regulation of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the proposed rule change would not have a significant impact on a substantial number of small entities (Regulatory Flexibility Act, Pub. L. 96-354). The proposed rule change increases fees to reflect the change in the CPI as authorized by 35 U.S.C. 41(f). Further, the principal impact of the major patent fees has already been taken into account in 35 U.S.C. 41(h), which provides small entities with a 50-percent reduction in the major patent fees.

A comparison of existing and proposed fee amounts is included as an Appendix to this notice of proposed rulemaking.

In order to ensure clarity in the implementation of the proposed fees, a discussion of specific sections is set forth below.

PART 7—REGISTER OF GOVERNMENT INTERESTS IN PATENTS

1. The authority citation for 37 CFR Part 7 would continue to read as follows:

Authority: E.O. 9424, February 18, 1944, 9 FR 1959; 3 CFR 1943–1948 comp.

2. Section 7.1 is proposed to be revised to read as follows:

§ 7.1 Requirements.

(a) Executive Order 9424 (3 CFR 1943–1948 Comp.) requires the several departments and other executive agencies of the Government, including Government-owned or Government-controlled corporations, to forward promptly to the Commissioner of Patents and Trademarks for recording all licenses, assignments, or other interests of the Government in or under patents or applications for patents.

(b) An instrument relating to a patent must identify the patent by the patent number. An instrument relating to a national patent application must identify the national patent application by the application number (consisting of the series code and the serial number, e.g., 07/123,456) or the serial number

and filing date. An instrument relating to an international patent application which designates the United States of America must identify the international application by the international application number, (e.g., PCT/US90/01234). If an assignment is executed concurrently with, or subsequent to, the execution of the patent application, but before the patent application is filed, it must identify the patent application by its date of execution, name of each inventor, and title of the invention so that there can be no mistake as to the patent application intended.

(c) Each instrument submitted to the Office for recording must be accompanied by at least one cover sheet as specified in paragraph (d) of this section referring to those patent applications and patents against which the instrument is to be recorded. Only one set of instruments and cover sheets to be recorded should be filed. If an instrument to be recorded is not accompanied by a completed cover sheet, the instrument and any incomplete cover sheet will be returned for proper completion of a cover sheet and resubmission of the instrument and a completed cover sheet.

(d) Each cover sheet required by paragraph (c) of this section must contain:

- (1) the name of the party conveying the interest;
 - (2) the name and address of the party receiving the interest;
 - (3) a description of the interest conveyed or transaction to be recorded;
 - (4) each application number or patent number against which the instrument is to be recorded, or an indication that the instrument is filed together with a patent application;
 - (5) the name and address of the party to whom correspondence concerning the request to record the instrument should be mailed;
 - (6) the number of applications or patents identified in the cover sheet and the total fee;
 - (7) the date the instrument was executed;
 - (8) a statement by the party submitting the instrument that to the best of the person's knowledge and belief, the information contained on the cover sheet is true and correct and any copy submitted is a true copy of the original instrument; and
 - (9) the signature of the party submitting the instrument.
- (e) An error in a cover sheet recorded pursuant to this Part will be corrected only if:

- (1) the error is apparent when the cover sheet is compared with the

recorded instrument to which it pertains, and

(2) a corrected cover sheet accompanied by the recording fee set forth in § 1.21(h) of this chapter and either the original recorded instrument or a copy of the original recorded instrument is filed for recordation.

(f) The Office will accept and record non-English language instruments only if accompanied by a verified English translation signed by the individual making the translation.

(g) Instruments and cover sheets to be recorded should be addressed to the Commissioner of Patents and Trademarks, Box Assignment, Washington, DC 20231.

(h) All requests to record instruments must be accompanied by the recording fee set forth in § 1.21(h) of this chapter. The fee set forth in § 1.21(h) of this chapter is required for each application and patent against which the instrument is recorded as identified in the cover sheet.

Enhanced Monitoring Rule

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule; notice of public meeting.

SUMMARY: Notice is hereby given that EPA will hold a public meeting on May 31, 1995 to discuss EPA's proposed enhanced monitoring rule and potential approaches to restructuring this rulemaking. On October 22, 1993 (58 FR 54648), EPA published a notice of proposed rulemaking that contained proposed rules to govern a new enhanced monitoring program under section 114(a)(3) and related provisions of the Clean Air Act. 58 FR 54648. In light of the President's concerns regarding flexibility and cost-effectiveness, EPA believes that it may be inappropriate to take final action on the rule as proposed. Moreover, EPA believes that it can develop a more cost-

effective method of enhanced monitoring that will also meet the statutory requirement of section 114(a)(3). The Agency will use this meeting to obtain the views of interested parties before taking further action in connection with this rulemaking.

DATES: This public meeting will be held on May 31, 1995 from 8:30 a.m. to 4:30 p.m. at the address set forth below.

ADDRESSES: *Meeting location:* The public meeting will be held at the DuPont Plaza Hotel, 1550 New Hampshire Avenue, Washington, DC 20036, telephone 202-483-6000. *Supporting Documents:* Documents related to discussions will be available at the meeting and in the docket discussed below. Subsequent to the meeting, these documents and a summary of the meeting will be available on the Technology Transfer Network, Emission Measurement Technical Information Center Electronic Bulletin Board, telephone 919-541-5742, Internet address TELNET ttnbbs.rtpnc.epa.gov.

Docket: The Agency has established EPA Air Docket A-91-52 for this rulemaking. This docket is available for public inspection and copying between 8:00 a.m. and 5:30 p.m., Monday through Friday, excluding Government holidays, and is located at EPA Air Docket (LE-131), Room M-1500,

Waterside Mall, 401 M Street, SW, Washington, DC 20460.

SUPPLEMENTARY INFORMATION: On May 1, 1995, EPA received a 60-day extension of the court-ordered deadline in *Sierra Club v. Browner*, No. 93-0564 NHJ (D.D.C.), for final promulgation of enhanced monitoring rules in order for the Agency to reassess the approach it has developed and to consider other, alternative approaches. EPA advised the court that during this 60-day period, EPA will determine the best means to accomplish the substantive goals of the enhanced monitoring requirements of the Clean Air Act in a cost-effective manner. EPA also advised the court that it anticipates that it will need a substantially longer extension beyond June 30, 1995, in order to promulgate rules embodying a new approach to enhanced monitoring.

The Agency plans to take a fresh look at enhanced monitoring in light of the President's reform efforts to design performance-based environmental programs that provide industry with the flexibility to comply in cost-effective ways, while requiring accountability for achieving results. EPA had prepared a draft notice of final rulemaking based
