DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Announcement 540]

Development of State Health Promotion and Chronic Disease Prevention Databases/Clearinghouses

Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1995 funds for a cooperative agreement program for the development of State health promotion and chronic disease prevention databases/clearinghouses that are compatible with Chronic Disease Prevention File (CDP) and the Combined Health Information Database (CHID). CDP File and CHID link health information and education resources into a national network of information on programs, interventions, and methods, and act as a mechanism for collecting, sharing, and distributing information, bibliographies, literature,

and health promotion and chronic disease prevention information to professionals responsible for planning, developing, conducting, and evaluating health promotion and chronic disease prevention programs.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority areas of Cancer, Clinical Preventive Services, Diabetes and Chronic Disabling Conditions, Educational and Community-Based Programs, HIV Infection, Family Planning, Heart Disease and Stroke, Physical Activity and Fitness, Nutrition, Tobacco, Maternal and Infant Health, Sexually Transmitted Diseases, and Surveillance and Data Systems. (For ordering a copy of "Healthy People 2000," see the section Where to Obtain Additional Information.)

Authority

This program is authorized under section 317(k)(2) [42 U.S.C. 247b(k)(2)] of the Public Health Service Act, as amended.

Smoke-Free Workplace

The Public Health Service strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

Eligible Applicants

Eligible applicants are the official public health agencies of States or their bona fide agents. This includes the District of Columbia, American Samoa, the Commonwealth of Puerto Rico, the Virgin Islands, the Federated States of Micronesia, Guam, the Northern Mariana Islands, the Republic of the Marshall Islands, the Republic of Palau, and federally recognized Indian tribal governments.

Funding is limited to one three-year project period to provide start-up costs for establishing a State database. Therefore, Colorado, Minnesota, and Missouri are not eligible applicants because they were funded September 1, 1991, for a three-year project period, under Program Announcement Number: 940, entitled "Assistance Program for Chronic Disease Prevention and Control" for the activities described in

this program announcement. In addition, California, Florida, and Michigan are not eligible participants because they were funded September 30, 1993, for a three-year project period, under Program Announcement Number: 344, entitled "Development of State Health Promotion and Chronic Disease Prevention Databases/Clearinghouses."

Availability of Funds

Approximately \$90,000 is available in FY 1995 to fund approximately three awards. It is expected that the average award will be \$30,000. It is expected that the awards will begin on or about September 30, 1995, and will be made for a 12-month budget period within a project period of up to three years. Funding estimates may vary and are subject to change.

Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.
