All written correspondence should clearly show the following caption on the first page: Goat Lake Hydroelectric Project, FERC Project No. 11077-001.

Intervenors—those on the FERC's service list for this proceeding (parties)—are reminded of the FERC's Rules of Practice and Procedure, requiring parties filing documents with FERC, to serve a copy of the document on each person whose name appears on the official service list. Further, if a party or interceder files comments or documents with FERC relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

#### Site Visit

A site visit to the proposed Goat Lake Hydroelectric Project is planned for Tuesday, June 20, 1995, and is intended to provide interested parties a first hand observation of the project site. Because of the remoteness and difficulty of ground access at the proposed project site, we intend to provide helicopter shuttle to the site. To plan on helicopter use in advance of the visit, we must identify the number of parties interested in attending the site visit. Therefore, if you have a particular interest in visiting the proposed project site and plan on participating in scoping of this project as identified in section 3 of the Scoping Document 1, you *must* first register with Mr. Stan Selmer at (907) 983-2202, no later than June 5, 1995. Mr. Selmer will serve as the principle site visit coordinator.

We will meet at Alaska Power's office at 5th and Spring Street in Skagway, Alaska at 7:00 a.m., and promptly leave for the upper project area near Goat Lake located about 8 miles away, via helicopter.<sup>1</sup> Those in attendance will then hike down Pitchfork Falls along the alignment of proposed project features. Around 1:00 p.m., the participants will be picked up around milepost 9 by a flag train on the White Pass and Yukon Route Railroad, and will travel northbound across White Pass to Frazer, Canada to give participants a scenic overview of the Klondike area around the proposed

<sup>1</sup> Because of the remote steep topography, shrub thickets, and abundant surface water in the project area, those attending the site visit should be physically fit and must wear appropriate clothing and footwear. In addition, those shuttled by helicopter to the project site not on official agency business, may need to sign a waiver of liability.

project. There will be a cost of approximately \$64.00 for the train ride to Frazer, and tickets would have to be purchased in advance. Vehicles will be parked at Frazer to provide transportation back to Skagway along the Klondike Highway.<sup>2</sup> Arrival in Skagway is expected around 4:00 p.m.<sup>3</sup>

In the event inclement weather precludes the site visit on June 20, an alternate site visit will be held on Wednesday, June 21, 1995, with the same itinerary.

Any questions regarding this notice may be directed to Mr. Carl Keller, FERC Environmental Coordinator, Washington, DC (202) 219-2831, or Ms. Margaret Beilharz, FS Project Manager at (907) 586-8800, Juneau, Alaska.
