BILLING CODE 4163-19-P

Advisory Committee to the Director, Centers for Disease Control and Prevention; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following committee meeting.

Name: Advisory Committee to the Director, CDC.

Time and Date: 8:30 a.m.-3 p.m., June 23, 1995.

Place: CDC, Auditorium A, 1600 Clifton Road, NE, Atlanta, Georgia 30333.

Status: Open to the public, limited only by the space available.

Purpose: This committee advises the Director, CDC, on policy issues and broad strategies that will enable CDC, the Nation's prevention agency, to fulfill its mission of promoting health and quality of life by preventing and controlling disease, injury, and disability. The committee recommends ways to incorporate prevention activities more fully into health care. It also provides guidance to help CDC work more effectively with its various constituents, in both the private and public sectors, to make prevention a practical reality.

Matters To Be Discussed: The agenda will include updates from CDC Director, David Satcher, M.D., Ph.D., followed by committee discussion on CDC's evolving relationship with managed care and major challenges to public health science and to CDC programs.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Martha F. Katz, Executive Secretary, Advisory Committee to the Director, CDC, 1600 Clifton Road, NE, Mailstop D-23, Atlanta, Georgia 30333, telephone 404/639-3243.

Dated: May 23, 1995.

Carolyn J. Russell,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163-18-M

Advisory Committee for Injury Prevention and Control: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC), announces the following committee meeting.

Name: Advisory Committee for Injury Prevention and Control (ACIPC).

Times and Dates: 1 p.m.-4 p.m., July 10, 1995; 8:30 a.m.-3:15 p.m., July 11, 1995.

Place: Atlanta Airport Hilton and Towers, 1031 Virginia Avenue, Atlanta, Georgia 30354.

Status: Closed 1 p.m.-4 p.m., July 10, and 8:30 a.m.-9 a.m., July 11; Open 9 a.m.-3:15 p.m., July 11.

Purpose: The committee will continue to make recommendations on policy, strategy, objectives, and priorities including the balance and mix of intramural and extramural research; advise on the implementation of a national plan for injury prevention and control, the development of new technologies and their application; and review progress toward injury prevention and control.

Matters to be Discussed

The meeting will convene in closed session from 1 p.m. to 4 p.m. on July 10, 1995. The purpose of this closed session is for the Science and Program Review Work Group to consider injury control research grant applications recommended for further consideration by CDC's Injury Research Grant Review Committee. On July 11, 1995, from 8:30 a.m. to 9 a.m., the meeting will convene in closed session in order for the full committee to vote on a funding recommendation. These portions of the meeting will be closed to the public in accordance with provisions set forth in section 552b(c) (4) and (6) title 5 U.S.C., and the Determination of the Associate Director for Management and Operations, CDC, pursuant Pub. L. 92-463. Following the closed sessions, the committee will discuss (1) an update from the Director, National Center for Injury Prevention and Control (NCIPC), (2) updates on injury issues from other Federal agencies, (3) overview of the Consumer Product Safety Commission, (4) issues in traumatic brain injury, and (5) a report from the ad hoc work group.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Mr. Tom Bartenfeld, Acting Executive Secretary, ACIPC, NCIPC, Mailstop K-60, CDC, 4770 Buford Highway, NE, Atlanta, Georgia 30341-3724, telephone 404/488-4690.

Dated: May 23, 1995.

Carolyn J. Russell,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163-18-M

Savannah River Site Environmental Dose Reconstruction Project: Public Meetings

The National Center for Environmental Health (NCEH) of the Centers for Disease Control and Prevention (CDC), the Agency for Toxic Substances and Disease Registry (ATSDR), and the Radiological

Assessments Corporation announce the following meetings.

Name: Savannah River Site Environmental Dose Reconstruction Project.

Date: Tuesday, June 27, 1995—Wednesday, June 28, 1995

Time: 7 p.m.-9 p.m.—7 p.m.-9 p.m.

Place: Holiday Inn Coliseum at the University of South Carolina, 630 Assembly Street, Columbia, South Carolina 29201—Radisson Riverfront Augusta Hotel, Two Tenth Street, Augusta, Georgia 30901.

Date: Thursday, June 29, 1995

Time: 7 p.m.-9 p.m.

Place: Savannah DeSoto Hilton, 15 East Liberty Street, Savannah, Georgia 31401

Status: Open to the public for observation and comment, limited only by the space available. Seating space for 50 individuals will be available at each meeting.

Background: Under a Memorandum of Understanding (MOU) signed in December 1990 with the Department of Energy (DOE), the Department of Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production use. HHS delegated program responsibility to CDC.

In addition, an MOU was signed in October 1990 and renewed in November 1992 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

Community involvement is a critical part of the HHS energy-related research and activities. With an environmental dose reconstruction for DOE's Savannah River Site (SRS) near Augusta, Georgia, as well as a worker study at the same site, the availability of a formal site-specific advisory committee composed of citizens of the communities surrounding the DOE sites is necessary to provide consensus advice regarding these projects. On December 1, 1994, the "Citizens Advisory Committee on Public Health Service Activities and Research at DOE Sites" was chartered. This charter is in response to the requests by representatives of the communities surrounding DOE sites to provide consensus advice and recommendations on community concerns related to CDC's and ATSDR's activities related to the sites. Committee members will be representatives of the concerned and affected community, Native American Tribes,
