## NATIONAL SCIENCE FOUNDATION

### Collection of Information Submitted for OMB Review

In accordance with the Paperwork Reduction Act and OMB Guidelines, the National Science Foundation is posting an expedited notice of information collection that will affect the public. Interested persons are invited to submit comments by June 30, 1995. Copies of materials may be obtained at the NSF address or telephone number shown below.

(A) *Agency Clearance Officer.* Herman G. Fleming, Division of Contracts, Policy and Oversight, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, or by telephone (703) 306-1243. Comments may also be submitted to:

(B) *OMB Desk Officer.* Office of Information and Regulatory Affairs, ATTN: Jonathan Winer, Desk Officer, OMB, 722 Jackson Place, Room 3208, NEOB, Washington, DC 20503.

*Title:* Education and Human Resources Impact Database.

*Affected Public:* State or local governments.

*Respondents/Reporting Burden:* 19 respondents; average 110 hours per response.

*Abstract:* An Integrated data system that will contain data for all programs managed by the NSF's Directorate for Education and Human Resources. Data will be used to support program studies and evaluations and also for effective program assessments and evaluations throughout the Directorate.

Dated: May 24, 1995.

**Herman G. Fleming,**  
*Reports Clearance Officer.*

### Notice of Permit Applications Received Under the Antarctic Conservation Act

**AGENCY:** Notice is hereby given that the National Science Foundation (NSF) has received a waste management permit application from Mr. Skip Novak, owner and operator of the *Pelagic* (a 54-foot steel sloop), for management of materials and wastes for camping and climbing activities in the Antarctic Peninsula, submitted to NSF pursuant to regulations issued under the Antarctic Conservation Act of 1978.

**DATES:** Interested parties are invited to submit written data, comments, or views with respect to this permit application on or before June 29, 1995. Permit applications may be inspected by interested parties at the Permit Office, address below.

**ADDRESSES:** Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230.

**FOR FURTHER INFORMATION CONTACT:** Robert S. Cunningham or Peter R. Karasik at the above address or (703) 306-1031.

**SUPPLEMENTARY INFORMATION:** NSF's Antarctic Waste Regulation, 45 CFR Part 671, requires all U.S. citizens and entities to obtain a permit for the use or release of banned substances or designated pollutants in Antarctica, and for the release of waste in Antarctica. NSF has received a permit application under this Regulation which covers materials and waste management associated with two planned expeditions per year by the *Pelagic*, which accommodates a total of eight people on board, for camping and climbing activities along the Antarctic peninsula. The permit applicant is: Mr. Skip Novak, PELAGIC, 92 Stachell Lane, Hamble, Hampshire, S031 4HL ENGLAND. The proposed duration of the permit is from December 27, 1995 through December 26, 2000.

#### Activity for Which Permit Requested

The PELAGIC is planned to make two 35-day trips per year to the Antarctic Peninsula. Passengers will be making one to two day outings on shore at various landing locations and will be using gasoline or kerosene in camping stoves during camping and climbing trips. All garbage including food wastes, plastics, tins, and bottles will be packed out of Antarctica and returned to South America on the ship. Conditions of the permit will include requirements to avoid Antarctic Specially Protected Areas (SPAs) and Sites of Special Scientific Interest (SSSIs), educate

participants with the requirements of the Antarctic Conservation Act (ACA), report on the removal of materials and any accidental releases, and manage human waste in accordance with antarctic waste regulations.

**Robert S. Cunningham,**

*NEPA Compliance Manager, Office of Polar Programs, National Science Foundation.*

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-424 and 50-425]

### Georgia Power Company, et al; Vogtle Electric Generating Plant, Units 1 and 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from certain requirements of its regulations to Facility Operating License Nos. NPF-68 and NPF-84, issued to Georgia Power Company, et al. (the licensee) for operation of the Vogtle Electric Generating Plant (Vogtle), Units 1 and 2, located at the licensee's site in Burke County, Georgia.

#### Environmental Assessment

##### Identification of Proposed Action

The proposed action would grant an exemption from certain requirements of 10 CFR 50.60, "Acceptance Criteria for Fracture Prevention Measures for Light-Water Nuclear Power Reactors for Normal Operation," to allow application of an alternate methodology to determine the low temperature overpressure protection (LTOP) setpoint for Vogtle. The proposed alternate methodology is consistent with guidelines developed by the American Society of Mechanical Engineers (ASME) Working Group on Operating Plant Criteria (WGOPC) to define pressure limits during LTOP events that avoid certain unnecessary operational restrictions, provide adequate margins against failure of the reactor pressure vessel, and reduce the potential for unnecessary activation of pressure-relieving devices used for LTOP. These guidelines have been incorporated into Code Case N-514, "Low Temperature Overpressure Protection," that has been approved by the ASME Code Committee. The content of this Code case has been incorporated into Appendix G of Section XI of the ASME Code and published in the 1993 Addenda to Section XI. The NRC staff is revising 10 CFR 50.55a that will
