

guarantee any title, Applicant argues that the proposed activities are not the equivalent of title insurance.

In order to approve the proposal, the Board must determine that the proposed activities "can reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." 12 U.S.C. 1843(c)(8).

Applicant believes that the proposed activities would produce public benefits that outweigh any potential adverse effects. These public benefits include more accurate and faster preparation of abstracts and lower costs. In addition, Applicant indicates that the proposed activities would not result in adverse effects such as an undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices.

In publishing the proposal for comment, the Board does not take a position on issues raised by the proposal. Notice of the proposal is published solely in order to seek the views of interested persons on the issues presented by the notice, and does not represent a determination by the Board that the proposal meets or is likely to meet the standards of the BHC Act.

Any comments or requests for hearing should be submitted in writing and received by William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, Washington, DC 20551, not later than June 13, 1995. Any request for a hearing on this proposal must, as required by section 262.3(e) of the Board's Rules of Procedure (12 CFR 262.3(e)), be accompanied by a statement of the reasons why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal. The notice may be inspected at the offices of the Board of Governors, the Federal Reserve Bank of Chicago.

Board of Governors of the Federal Reserve System, May 23, 1995.

Jennifer J. Johnson,

Deputy Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Announcement 558]

Center for Agricultural Disease and Injury Research, Education, and Prevention

Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1995 funds for a cooperative agreement program with universities or university-affiliated medical centers for the establishment of a Center for Agricultural Disease and Injury Research, Education, and Prevention. The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Occupational Safety and Health. (For ordering a copy of Healthy People 2000, see Section WHERE TO OBTAIN ADDITIONAL INFORMATION.)

Authority

This program is authorized under Sections 20(a) and 22(e)(7) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669 (a) and 671(e)(7)).

Smoke-Free Workplace

The PHS strongly encourages all grant recipients to provide a smoke-free workplace and promote the nonuse of all tobacco products, and Pub. L. 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

Eligible Applicants

Eligible applicants include State and private universities and university-affiliated, not-for-profit medical centers within the United States (U.S.). The restriction of eligible applicants is due to the FY 1990 appropriations language which initiated this program and States that centers for agricultural occupational safety and health will be established at universities. Because of programmatic and regional differences throughout agriculture in the U.S., only one center will be established in any Department of Health and Human Services (DHHS) region. Currently, there are centers in DHHS Regions II, IV, V,
