Triflurosulfuron Methyl; Establishment of Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established temporary tolerances for residues of the herbicide triflurosulfuron methyl in or on certain raw agricultural commodities. These temporary tolerances were requested by E.I. DuPont de Nemours & Company, Inc.

DATES: These temporary tolerances expire September 30, 1997.

FOR FURTHER INFORMATION CONTACT: By mail: Robert Taylor, Product Manager (PM) 25, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 245, CM#2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-

6800; e-mail:

taylor.robert@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: E.I. DuPont de Nemours & Company, Inc., Agricultural Products, Walkers Mill, Barley Mill Plaza, P.O. Box 80038, Wilmington, DE 19880-0038, has requested in pesticide petition (PP) 3G4161, the establishment of temporary tolerances for residues of the herbicide triflurosulfuron methyl (methyl-2-[[[4-(dimethylamino)-6-(2,2,2-trifluoroethoxy)-1,3,5-triazin-2-yl]carbonyl]amino]sulfonyl]-3-methylbenzoate) in or on the raw agricultural commodities sugar beet roots and tops at 0.05 part per million (ppm). These temporary tolerances will permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of the experimental use permit 352-EUP-160, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that establishment of the temporary tolerances will protect the public health. Therefore, the temporary tolerances have been established on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.

2. DuPont must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These tolerances expire September 30, 1997. Residues not in excess of these amounts remaining in or on the raw agricultural commodities after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These tolerances may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.
