

submitted to the office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the information and collection requirement and related forms and explanatory material may be obtained by contacting the Bureau's clearance Officer at phone number listed below. Comments and suggestions on the requirements should be made to the Bureau Clearance Officer and to the Office of Management and Budget, Paperwork Reduction Project (1004-0107), Washington, DC 20503, telephone number 202-395-7340.

Title: 43 CFR 2800 and 2880, Rights-of-Way.

OMB Approval Number: (1004-0107).

Abstract: This information, supplied by an applicant for a right-of-way, is needed for the authorized officer to determine whether or not a right-of-way may be granted, establish terms and conditions of the grant, and administer the grant when made.

Bureau Form Number: None.

Frequency: Once when an application is filed.

Description of Respondents:

Applicants needing a right-of-way on Federal Lands.

Estimated Completion Time: 16.8 hours.

Annual Responses: 1,000.

Annual Burden Hours: 16,800.

Bureau Clearance Officer: Wendy Spencer 303-236-6642.

Dated: April 15, 1995.

W. Hord Tipton,

Assistant Director, Resource Use & Protection.

Fish and Wildlife Service

Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit From Aronov Realty Management Incorporated, in Baldwin County, Alabama

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Aronov Realty Management Incorporated, (Applicant), has applied to the Fish and Wildlife Service (Service) for an incidental take permit pursuant to Section 10(a)(1)(B) of the Endangered Species Act (Act). The proposed permit would authorize for a period of 30 years the incidental take of an endangered species, the Alabama beach mouse (*Peromyscus polionotus ammobates*), known to occupy a 52-acre tract of land owned by the Applicant in

Baldwin County, Alabama. The Application proposed to construct a project known as Martinique, which will include two 18-unit mid-rise residential buildings, their associated landscaped grounds and parking areas, a beach club recreation amenity, and two dune walkover structures (Project).

The Service also announces the availability of an environmental assessment (EA) and habitat conservation plan (HCP) for the incidental take application. Copies of the EA or HCP may be obtained by making requests to the addresses below. This notice is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act Regulations (40 CFR 1506.6).

DATES: Written comments on the permit application, EA and HCP should be received on or before June 30, 1995.

ADDRESSES: Persons wishing to review the application may obtain a copy by writing the Service's Southeast Regional Office, Atlanta, Georgia. Persons wishing to review the EA or HCP may obtain a copy by writing the Regional Office or the Jackson, Mississippi, Field Office. Requests must be in writing to properly process requests. Documents will also be available for public inspection, by appointment, during normal business hours at the Regional Office, or the Field Office. Written data or comments concerning the application, EA, or HCP should be submitted to the Regional Office. Please reference permit under PRT-802986 in such comments.

Regional Permit Coordinator (TE), U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 210, Atlanta, Georgia 30345, (telephone 404/679-7110, FAX 404/679-7280).

Field Supervisor, U.S. Fish and Wildlife Service, 6578 Dogwood View Parkway, Suite A, Jackson, Mississippi 39213 (telephone 601/965-4900, FAX 601/965-4340).

FOR FURTHER INFORMATION CONTACT: Mr. Will McDearman at the above Jackson, Mississippi, Field Office.

SUPPLEMENTARY INFORMATION: The Alabama beach mouse (ABM), *Peromyscus polionotus ammobates*, is a subspecies of the common oldfield mouse *Peromyscus polionotus* and is restricted to the dune systems of the Gulf Coast of Alabama. The known current range of ABM extends from Fort Morgan eastward to the western terminus of Alabama Highway 182, including the Perdue Unit on the Bon Secour National Wildlife Refuge (BSNWR). The sand dune systems inhabited by this species are not uniform; several habitat types are

distinguishable. The species inhabits primary dunes, interdune areas, secondary dunes, and scrub dunes. The depth and area of these habitats from the beach inland varies. Population surveys indicate that this subspecies is usually more abundant in primary dunes than in secondary dunes, and usually more abundant in secondary dunes than in scrub dunes. Optimal habitat consists of dune systems with all dune types. Though fewer ABM inhabit scrub dunes, these high dunes can serve as refugia during devastating hurricanes that overwash, flood, and destroy or alter secondary and frontal dunes. ABM surveys on the Applicant's property reveal habitat occupied by ABM. The Applicant's property contains designated critical habitat for the ABM. Construction of the Project may result in the death of, or injury to, ABM. Habitat alterations due to house placement and its subsequent use may reduce available habitat for food, shelter, and reproduction. Further, the Applicant's property borders the BSNWR, and is considered Priority I lands for inclusion into the Perdue Unit (of BSNWR).

The EA considers the environmental consequences of several alternatives. One action proposed is the issuance of the incidental take permit. This alternative provides for restrictions that include placing landward of the designated ABM critical habitat, establishment of a walkover structure across that scrub dune, a prohibition against housing or keeping pet cats, ABM competitor control and monitoring measures, scavenger-proof garbage containers, restoration of dune systems impacted by the construction, and the minimization and control of outdoor lighting. The HCP provides a funding source for these mitigation measures. Another alternative is Service acquisition of the property for inclusion into the BSNWR. A third alternative is no-action, or deny the request for authorization to incidentally take the ABM.

Dated: May 23, 1995.

Noreen K. Clough,
Regional Director.
