

submitted to the office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the information and collection requirement and related forms and explanatory material may be obtained by contacting the Bureau's clearance Officer at phone number listed below. Comments and suggestions on the requirements should be made to the Bureau Clearance Officer and to the Office of Management and Budget, Paperwork Reduction Project (1004-0107), Washington, DC 20503, telephone number 202-395-7340.

Title: 43 CFR 2800 and 2880, Rights-of-Way.

OMB Approval Number: (1004-0107).

Abstract: This information, supplied by an applicant for a right-of-way, is needed for the authorized officer to determine whether or not a right-of-way may be granted, establish terms and conditions of the grant, and administer the grant when made.

Bureau Form Number: None.

Frequency: Once when an application is filed.

Description of Respondents:

Applicants needing a right-of-way on Federal Lands.

Estimated Completion Time: 16.8 hours.

Annual Responses: 1,000.

Annual Burden Hours: 16,800.

Bureau Clearance Officer: Wendy Spencer 303-236-6642.

Dated: April 15, 1995.

W. Hord Tipton,

Assistant Director, Resource Use & Protection.

BILLING CODE 4310-84-M

Fish and Wildlife Service

Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit From Aronov Realty Management Incorporated, in Baldwin County, Alabama

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Aronov Realty Management Incorporated, (Applicant), has applied to the Fish and Wildlife Service (Service) for an incidental take permit pursuant to Section 10(a)(1)(B) of the Endangered Species Act (Act). The proposed permit would authorize for a period of 30 years the incidental take of an endangered species, the Alabama beach mouse (*Peromyscus polionotus ammobates*), known to occupy a 52-acre tract of land owned by the Applicant in

Baldwin County, Alabama. The Application proposed to construct a project known as Martinique, which will include two 18-unit mid-rise residential buildings, their associated landscaped grounds and parking areas, a beach club recreation amenity, and two dune walkover structures (Project).

The Service also announces the availability of an environmental assessment (EA) and habitat conservation plan (HCP) for the incidental take application. Copies of the EA or HCP may be obtained by making requests to the addresses below. This notice is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act Regulations (40 CFR 1506.6).

DATES: Written comments on the permit application, EA and HCP should be received on or before June 30, 1995.

ADDRESSES: Persons wishing to review the application may obtain a copy *by writing* the Service's Southeast Regional Office, Atlanta, Georgia. Persons wishing to review the EA or HCP may obtain a copy *by writing* the Regional Office or the Jackson, Mississippi, Field Office. Requests must be in writing to properly process requests. Documents will also be available for public inspection, by appointment, during normal business hours at the Regional Office, or the Field Office. Written data or comments concerning the application, EA, or HCP should be submitted to the Regional Office. Please reference permit under PRT-802986 in such comments.

Regional Permit Coordinator (TE), U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 210, Atlanta, Georgia 30345. (telephone 404/679-7110, FAX 404/679-7280).

Field Supervisor, U.S. Fish and Wildlife Service, 6578 Dogwood View Parkway, Suite A, Jackson, Mississippi 39213 (telephone 601/965-4900, FAX 601/965-4340).

FOR FURTHER INFORMATION CONTACT: Mr. Will McDearman at the above Jackson, Mississippi, Field Office.

SUPPLEMENTARY INFORMATION: The Alabama beach mouse (ABM), *Peromyscus polionotus ammobates*, is a subspecies of the common oldfield mouse *Peromyscus polionotus* and is restricted to the dune systems of the Gulf Coast of Alabama. The known current range of ABM extends from Fort Morgan eastward to the western terminus of Alabama Highway 182, including the Perdue Unit on the Bon Secour National Wildlife Refuge (BSNWR). The sand dune systems inhabited by this species are not uniform; several habitat types are

distinguishable. The species inhabits primary dunes, interdune areas, secondary dunes, and scrub dunes. The depth and area of these habitats from the beach inland varies. Population surveys indicate that this subspecies is usually more abundant in primary dunes than in secondary dunes, and usually more abundant in secondary dunes than in scrub dunes. Optimal habitat consists of dune systems with all dune types. Though fewer ABM inhabit scrub dunes, these high dunes can serve as refugia during devastating hurricanes that overwash, flood, and destroy or alter secondary and frontal dunes. ABM surveys on the Applicant's property reveal habitat occupied by ABM. The Applicant's property contains designated critical habitat for the ABM. Construction of the Project may result in the death of, or injury to, ABM. Habitat alterations due to house placement and its subsequent use may reduce available habitat for food, shelter, and reproduction. Further, the Applicant's property borders the BSNWR, and is considered Priority I lands for inclusion into the Perdue Unit (of BSNWR).

The EA considers the environmental consequences of several alternatives. One action proposed is the issuance of the incidental take permit. This alternative provides for restrictions that include placing landward of the designated ABM critical habitat, establishment of a walkover structure across that scrub dune, a prohibition against housing or keeping pet cats, ABM competitor control and monitoring measures, scavenger-proof garbage containers, restoration of dune systems impacted by the construction, and the minimization and control of outdoor lighting. The HCP provides a funding source for these mitigation measures. Another alternative is Service acquisition of the property for inclusion into the BSNWR. A third alternative is no-action, or deny the request for authorization to incidentally take the ABM.

Dated: May 23, 1995.

Noreen K. Clough,
Regional Director.

BILLING CODE 4310-55-P

Receipt of Application(s) for Permit

The following Applicant(s) have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*)

PRT-798900

Applicant: Mr. Andy G. Grubbs, San Marcos, Texas.

The Applicant requests a permit amendment to take the listed Texas cave invertebrates from previously unknown locations in Texas, for the purpose of scientific research, recovery actions, and survival of the species as prescribed by Service recovery documents.

PRT-802708

Applicant: Mr. Karl Stephan, Red Oak, Oklahoma.

The Applicant requests a permit to take the American burying beetle (*Nicrophorus americanus*) at specified locations in Oklahoma, for the purpose of scientific research, recovery actions, and survival of the species as prescribed by Service recovery documents.

PRT-802731

Applicant: Mr. Kenneth D. Heil, San Juan College, Farmington, New Mexico.

The Applicant requests a permit to take several threatened and endangered plant species within the San Juan Basin and drainages in Arizona, New Mexico, Colorado, and Utah, for the purposes of scientific research and recovery actions, and survival of the species as prescribed by Service recovery documents.

PRT-802744

Applicant: Ms. Karen Baud, The S.M. Stoller Corporation, Boulder, Colorado.

The Applicant requests a permit to take southwestern willow flycatcher (*Empidonax traillii extimus*) and Mexican spotted owl (*Strix occidentalis lucida*) north of Pecos, New Mexico, for the purpose of scientific research and recovery actions, and survival of the species as prescribed by Service recovery documents.

ADDRESSES: Written data or comments should be submitted to the Assistant Regional Director, Ecological Services, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103, and must be received by the Assistant Regional Director within 30 days for the date of this publication.

Documents and other information submitted with this application are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the above office within 30 days of the date of publication of this notice. (See **ADDRESSES** above.)

James A. Young,

Acting Regional Director, Region 2, Albuquerque, New Mexico.

BILLING CODE 4310-55-M

U.S. Geological Survey**Indonesia; Comprehensive Geographic Information System Development**

SUMMARY: Notice is hereby given that the U.S. Geological Survey (USGS) is planning to enter into a Cooperative Research and Development Agreement (CRADA) with a consortium of U.S. industries and academic institutions. The purpose of the CRADA is to develop a comprehensive geographic information system for the Government of Indonesia. Any other parties interested in pursuing the possibility of a CRADA for similar kinds of activities should contact the USGS.

DATES: This notice is effective immediately.

ADDRESSES: Information on the proposed CRADA is available to the public upon request at the following location: U.S. Geological Survey, Office of International Geology, 12201 Sunrise Valley Drive, Reston, Virginia 22092.

FOR FURTHER INFORMATION CONTACT: Dr. Jack Medlin of the U.S. Geological Survey, Office of International Geology, at the address given above; telephone (703) 648-6062; fax (703) 648-4227.

Dated: May 22, 1995.

P. Patrick Leahy,
Chief, Geologist.

BILLING CODE 4310-31-M

National Park Service**Native American Graves Protection and Repatriation Review Committee: Meeting**

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice.

Notice is hereby given in accordance with the Federal Advisory Committee Act (FACA), 5 U.S.C. Appendix (1988), that a meeting of the Native American Graves Protection and Repatriation Act Review Committee will be held on October 16, 17, and 18, 1995, in Anchorage, Alaska.

The Committee will meet in the Dillingham room at the Anchorage Hilton, 500 West 3rd Ave., Anchorage, AK 99510-9953. The final day of the meeting may be held in the Eagan Center, Anchorage, AK, in conjunction with the Alaska Federation of Natives annual convention. Meetings will begin each day at 8:30 a.m. and conclude not later than 5:00 p.m.

The Native American Graves Protection and Repatriation Review Committee was established by Public

Law 101-601 to monitor, review, and assist in implementation of the inventory and identification process and repatriation activities required under the statute.

On the agenda for this meeting will be comments to the Committee's draft recommendations regarding the disposition of culturally unidentifiable human remains in museums and Federal collections. The Committee will also hear public comment and discuss the application of the statute in Alaska.

Culturally unidentifiable human remains are those in museum or Federal agency collections for which, following the completion of inventories by November 16, 1995, no lineal descendants or culturally affiliated Indian tribe has been determined.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited. Persons will be accommodated on a first-come, first-served basis. In addition, due to the presence of Alaska Federation of Natives delegates, hotel rooms in Anchorage may be scarce. Any member of the public may file a written statement concerning the matters to be discussed with Dr. Francis P. McManamon, Departmental Consulting Archeologist.

Persons wishing further information concerning this meeting, or who wish to submit written statements may contact Dr. Francis P. McManamon, Departmental Consulting Archeologist, Archeological Assistance Division (MS0436), National Park Service, P.O. Box 37127 Washington, D.C. 20013-7127, Washington D.C. 20002, Telephone (202) 343-4101. Draft summary minutes of the meeting will be available for public inspection about eight weeks after the meeting at the office of the Departmental Consulting Archeologist, Suite 210, 800 North Capital Street, Washington, D.C.

Dated: May 16, 1995.

Francis P. McManamon,

Departmental Consulting Archeologist and Chief, Archeological Assistance Division.
