

removal, treatment of friction and impact surfaces, and soil interim controls. The course should also introduce the worker to the importance of monitoring and reevaluation, and the role of maintenance in preserving the integrity of interim controls during routine activities and minimizing contamination of housing. The course should include a worker's manual and an instructor's manual as well as a video consisting of work demonstrations accompanied by explanatory narration. The course will be used to train both certified and noncertified individuals involved in the control of lead-based paint that is not undergoing removal.

Model courses in lead-based paint activities have already been developed or are in the process of development for the five disciplines specified in the regulations. These courses are: inspector technician, inspector/risk assessor, supervisor, planner/project designer, and lead abatement worker. Required course content for four of the five disciplines includes instruction in methods of risk reduction. In addition, inspector/risk assessors must learn how to develop an interim control plan and the minimum training curricula requirements for the planner/project designer course includes instruction in operation and maintenance planning. Because of the hazards to workers, residents and the environment associated with lead-based paint, training of specialists in the field and maintenance workers should include the most up-to-date methods of control to assure that exposure will be minimized in areas where abatement is not initially contemplated.

I. Administrative Requirements

This program is subject to matching share requirements. Awards shall be given only to applicants who can fund at least 5 percent of their programs from non-Federal sources, excluding in-kind contributions. (In-kind contributions are defined as the value of a non-cash contribution to meet a recipient's cost-sharing requirements. An in-kind contribution may consist of charges for real property and equipment, or the value of goods and services directly benefiting the EPA-funded project.) The recipient's matching share may exceed 5 percent.

The applicant must also provide proof of the organization's not-for-profit status.

II. Evaluation Process and Criteria

Preproposals submitted for the cooperative agreement solicited in this notice will be evaluated on a competitive basis by a review panel

composed of EPA and HUD staff members. The following factors will be considered in the evaluations of the preproposals.

A. Program Design

The course length should be approximately 8 hours, focusing on teaching workers the fundamentals of appropriate interim controls as well as hands-on demonstrations of the application and maintenance of these controls.

Preproposals should be developed in conformance with the HUD *Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing*. Another relevant source soon to be available is a document currently under development by the National Institute of Building Sciences titled *Lead-Based Paint Operations and Maintenance Work Practices Manual*.

B. Program Experience

The applicant must include the following organizational information:

1. Experience with lead-related issues with an emphasis on lead-based paint.
2. Experience with the development of adult education courses particularly for workers with limited education or with language difficulties.
3. A summary of any lead-related courses taught and a description of the materials used to teach those courses.
4. Experience with providing hands-on training.
5. Qualifications of key personnel.

C. Budget

A detailed budget should be included that specifies the amount of money proposed for each element of the course curriculum as well as the non-federal share of the budget (at least 5 percent of the total excluding in-kind contributions).

III. Application Procedures and Notification of Selection

Preproposals are due by June 30, 1995. Preproposals should be approximately 10 pages in length and 7 copies of the proposal should be provided. Notice of selection as a possible award recipient will not constitute approval of the final proposal as submitted. Prior to the actual awarding of the cooperative agreement, representatives of the potential recipient and EPA will begin negotiations concerning various components of the program, such as funding levels and course materials. The project budget is anticipated to be in the range of \$200,000 to \$400,000.

Dated: May 10, 1995.

Lynn R. Goldman,

Assistant Administrator for Prevention, Pesticides and Toxic Substances.

Science Advisory Board; Notification of Two Public Advisory Committee Meetings

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that two committees of the Science Advisory Board (SAB) will meet on the dates and times described below. All times noted are Eastern Time. All meetings are open to the public. Due to limited space, seating at meetings will be on a first-come basis. For further information concerning specific meetings, please contact the individuals listed below. Documents that are the subject of SAB reviews are normally available from the originating EPA office and are *not* available from the SAB Office.

1. Research Strategies Advisory Committee (RSAC)

The Research Strategies Advisory Committee (RSAC) will meet on June 15-16, 1995, at the Holiday Inn, 550 C Street SW., Washington, DC. The meeting will begin at 8:30 a.m. and end no later than 5:00 p.m. The RSAC routinely reviews broad issues related to the planning and management of research activities within the Agency. At this meeting, RSAC will receive briefings from the Office of Research and Development (ORD) on its process for developing priorities for the FY 1997 Budget and the Research Priorities that the Agency will consider in the formulation of that Budget. Based on these presentations, RSAC may offer recommendations to the Agency on the process, the overall directions of the research and the specific priorities that the Agency is currently considering. In addition, RSAC will discuss its own mission and function statement and criteria that may be used to develop priorities for research.

Members of the public desiring additional information about the meeting, including an agenda (after May 30), should contact Ms. Mary Winston, Staff Secretary, Science Advisory Board (1400F), U.S. EPA, 401 M Street SW., Washington, DC 20460, by telephone at (202) 260-6552, fax at (202) 260-7118, or to the Designated Federal Official, Dr. Edward Bender at (202) 260-2562, or

via the INTERNET at:
Bender.Edward@EPAMAIL.EPA.GOV.

Anyone wishing to submit written comments should forward at least 35 copies to Dr. Bender no later than June 9th for distribution to the Committee and the interested public. Members of the public wishing to make an oral presentation at the meeting must contact Dr. Bender by noon on the same deadline in order to have time reserved on the agenda. See below for additional information on providing comments to the SAB.

2. Environmental Engineering Committee (EEC)

The Environmental Engineering Committee (EEC) will meet June 22–23, 1995 at the One Washington Circle Hotel, One Washington Circle NW., Washington, DC. The meeting will begin each day at 8:30 a.m. and end no later than 6:00 p.m.

The Committee will consider four draft Science Advisory Board subcommittee reports: (1) A review of the Office of Pollution Prevention and Toxics draft Use Cluster Scoring System, (2) the OSWER Exposure Model Subcommittee review of EPA's Composite Model for Leachate Migration with Transformation Products (EPACMTP) and the Finite Source Methodology, (3) the Hazardous Air Pollutant Monitoring Subcommittee review of a proposed research program on continuous emissions monitoring, and (4) the Innovative Technology Subcommittee's review of the Environmental Technology Innovation and Commercialization Enhancement Program (EnTICE), a technology verification program. Please contact one of the Committee Staff members listed below for availability of these draft documents. The Committee also plans to begin preparation of a commentary on modeling, and will discuss review options and priorities for future meetings.

Any member of the public wishing further information, such as a proposed agenda, should contact Mrs. Dorothy Clark, Staff Secretary, Science Advisory Board (1400F), U.S. EPA, Washington, DC 20460, telephone (202) 260-6552 or fax (202) 260-7118. Written comments of any length (at least 35 copies) may be provided up until the meeting. Members of the public who wish to make a brief oral presentation should contact the Designated Federal Official, Mrs. Kathleen Conway by phone at (202) 260-2558, or INTERNET at: CONW-AY.KATHLEEN@epamail.epa.gov, no later than noon (eastern time), Monday,

June 19, in order to have time reserved on the agenda.

Providing Oral or Written Comments at SAB Meetings

The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. In general, each individual or group making an oral presentation will be limited to a total time of ten minutes. Requests for public comment time should identify the name of the individual who will make the presentation, requirements for audio visual equipment (e.g., overhead projector, 35mm projector, chalk board, etc.), and an outline of the issues to be addressed. At least 35 copies of the oral presentation (including overhead slides) must be provided to the SAB no later than the meeting. Written comments (at least 35 copies) received in the SAB Staff Office sufficiently prior to a meeting date may be mailed to the relevant SAB committee or subcommittee prior to its meeting; comments received too close to the meeting date will normally be provided to the committee at its meeting. Written comments may be provided to the relevant committee or subcommittee up until the time of the meeting.

Dated: May 18, 1995.

A. Robert Flaak,

Acting Staff Director, Science Advisory Board.

BILLING CODE 6560-50-P

[OPP-30388; FRL-4956-6]

Mycogen Corp.; Application To Register a Pesticide Product

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of an application to register a pesticide product containing an active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. **DATES:** Written comments must be submitted by June 30, 1995.

ADDRESSES: By mail, submit written comments identified by the document control number [OPP-30388] and the file symbol (53219-RG) to: Public Response and Program Resources Branch, Field Operations Divisions (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In

person, bring comments to: Environmental Protection Agency, Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will be accepted on disks in Wordperfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-30388] No "Confidential Business Information" (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submission can be found below in this document.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Linda Hollis, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. CS51B6, Westfield Building North Tower, 2800 Crystal Drive, Arlington, VA 22202, (703) 308-8733; e-mail: hollis.linda@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA received an application from Mycogen Corporation, 4980 Carroll Canyon Road, San Diego, CA 92121, to register the pesticide product MYX 910 Bioinsecticide (EPA File Symbol 53219-RG), containing the active ingredient *Bacillus thuringiensis* variety *japonensis* strain *buibui* at 13 percent, an ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(4) of FIFRA. This product is for the control of larvae of soil dwelling beetles on or in turfgrass, landscape ornamentals,
