Permits; Foreign Fishing

In accordance with a memorandum of understanding with the Secretary of State, the National Marine Fisheries Service publishes for public review and comment summaries of applications received by the Secretary of State requesting permits for foreign fishing vessels to operate in the exclusive

economic zone, under provisions of the Magnuson Fishery Conservation and Management Act (Magnuson Act, 16 U.S.C. 1801 *et seq.*). This notice concerns the receipt of an application from the Government of Poland requesting authorization to conduct a joint venture (JV) in the Northwest Atlantic Ocean. The application requests 10,000 metric tons (mt) of Atlantic sea herring and 5,000 mt of Atlantic mackerel be made available for the JV. The freezer trawler MANTA is identified as the vessel that will receive sea herring and mackerel from U.S. vessels. Based on receipt of a foreign JV application for Atlantic sea herring, and in accordance with section 201(h) of the Magnuson Act, necessary regulatory actions are being effected and a Preliminary Fishery Management Plan (PMP) for Atlantic sea herring is being developed. Specifications for the Atlantic Mackerel, Squid and Butterfish Fishery Management Plan presently include 35,000 mt of Atlantic mackerel as available for JV processing. Approvability of the JV's, as proposed in the Polish application, will be contingent on development of a PMP for sea herring with specifications that include an amount of U.S.-harvested herring for such operations, and on other issues that bear on the approval of foreign fishing permits. Send comments on this application to:
