

resources of the member associations to implement the grants which support the renewable energy export development efforts.

US/ECRE will implement the umbrella agreement with DOE, composed of a series of grants, through subcontracts to the member trade associations and non-profit sister organizations who are uniquely qualified to fulfill the objectives of each grant. US/ECRE, through a grant from DOE under this agreement, will provide the management and oversight of each subcontract to facilitate synergy between activities funded through this agreement, as well as those funded through other Government agencies.

The series of grants represent a continued opportunity to promote United States renewable energy and energy efficiency technology and domestic companies in an international marketplace. The promotion of these activities will not only serve to educate, but also serves as a means for United States companies to expand their services in the global marketplace. The participating entities have been found to possess unique capabilities to successfully meet the objectives stated.

The estimated grant is \$1,308,000. This notice is published for public comment at least fourteen calendar days prior to making an award.

Issued in Golden, Colorado, on May 18, 1995.

John W. Meeker,

Chief, Procurement, GO.

[FR Doc. 95-13304 Filed 5-31-95; 8:45 am]

BILLING CODE 6450-01-P
