

## [Docket No. GP95-7-000]

**Williams Natural Gas Company v. Oxy USA, Inc.; Notice of Complaint**

May 25, 1995.

Take notice that on May 22, 1995, Williams Natural Gas Company (WNG), pursuant to Rule 206, of the Commission's Rules of Practice and Procedure, 18 CFR 385.206(a), filed a complaint against Oxy USA Inc., (Oxy).

WNG submits that Oxy has filed a lawsuit against WNG in the District Court of Tulsa County, State of Oklahoma, Case No. CJ-95-01765 claiming the right to certain excess royalty reimbursements on two NGPA Section 102 wells during periods prior to 1985 when the price of Section 102 gas was regulated.

WNG states that it has already paid to Oxy the maximum lawful price (MLP) for such Section 102 gas. WNG requests that the Commission issue an order finding (a) any collection of excess royalties by Oxy from WNG in addition to the maximum lawful price already paid for such gas would violate the Natural Gas Policy Act of 1978, 15 USC §§ 3311-3333; and (b) this is an issue within the exclusive jurisdiction of the Commission.

Any person desiring to be heard or to protest said complaint should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.214, 385.211. All such motions or protests should be filed on or before June 26, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. Answers to this complaint shall be due on or before June 26, 1995.

**Lois D. Cashell,**  
Secretary.
