In the March 3, 1995, **Federal Register** (60 FR 11952), GIPSA asked persons interested in providing official services in South Texas under a pilot program allowing more than one official agency to provide service in a single geographic area to submit an application for designation. There were two applicants. Quanta Lab (Quanta), main office located in Selma, Texas, and Saybolt

South Texas Inspection Service, Inc. (Saybolt), main office located in Galena Park, Texas. Quanta applied for the Texas Counties of: Atascosa, Bexar, Dimmit, Duval, Frio, Kinney, La Salle, Maverick, McMullen, Medina, Uvalde, Val Verde, Webb, and Zavala. Saybolt applied for all counties published in the March 3, 1995, **Federal Register**.

GIPSA is publishing this notice to provide interested persons the opportunity to present comments. Commenters are encouraged to submit reasons and pertinent data for support or objection to the designation of these applicants. All comments must be submitted to the Compliance Division at the above address. Comments and other available information will be considered in making a final decision. GIPSA will publish notice of the final decision in the **Federal Register**, and GIPSA will send the applicants written notification of the decision.

GIPSA, in the March 3, 1995, **Federal Register** (60 FR 11952), also asked for comments on the need for Official Services in the South Texas Region. Comments were due by March 21, 1995. GIPSA received 10 comments by the deadline. There were 6 from grain firms, 2 from grain grower organizations, 1 from an individual, and 1 from a bank. All but one of the comments indicated that there is no need for an official inspection service in South Texas because of the good unofficial inspection service provided by the Corpus Christi Grain Exchange. The other comment expressed concern about competition and the demand for official inspection services in the pilot area. The comment expressed concern about the size of the pilot area and was of the view that the proposal was unworkable.

#### Natural Resources Conservation Service

#### Lower Hamakua Ditch Watershed, Hawaii County, Hawaii

**AGENCY:** Natural Resources Conservation Service, USDA.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Rules (40 CFR part 1500); and the Natural Resources Conservation Service Rules (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for the Lower Hamakua Ditch Watershed, Hawaii County, Hawaii.

#### FOR FURTHER INFORMATION CONTACT:

Kenneth M. Kaneshiro, State Conservationist, Natural Resources Conservation Service, 300 Ala Moana Blvd., Room 4316, Honolulu, Hawaii, 96850, telephone (808) 541-2600.

**SUPPLEMENTARY INFORMATION:** This federally-assisted project action may cause significant local, regional, or national impacts on the environment, or create controversy over man's use of limited water resources. As a result of these findings, Kenneth M. Kaneshiro, State Conservationist, has determined the preparation and review of an environmental impact statement is needed for this project.

The project concerns a plan to provide a dependable water supply for small farms, and on-farm irrigation systems on former sugar cane lands. It will also address the social and cultural conflicts of the use of water in the watershed. Irrigation is the primary project purpose. Alternatives under consideration to research these objectives include: Rehabilitation of the ditch system, use of wells for the agricultural water supply, reorganization of on-farm irrigation systems.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Natural Resources Conservation Service invites participation and consultation of agencies and individuals that have

special expertise, legal jurisdiction, or interest in the preparation of the draft environmental impact statement. Initial scoping meeting was held in Honokaa, May 16 at 6:00 p.m. to determine the scope of the evaluation of the proposed action. Further information on the proposed project action or additional scoping meetings may be obtained from Kenneth M. Kaneshiro, State Conservationist, at the above address or telephone (808) 541-2600.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.)
