*Background*

The Cedar River drainage basin is located southeast of Seattle, Washington and lies entirely within the boundaries of King County. The upper portion of the Cedar River basin is within the City of Seattle's watershed and closed to public use. The mainstem portion is surrounded by rural farming and residential areas. The lower three miles of river run through the middle of the City of Renton. The Cedar River supports runs of sockeye, chinook and coho salmon and steelhead, and much of Lake Washington's smelt population.

*Proposed Action*

The Corps and City of Renton propose to modify the lower one and one-quarter miles of the river channel to provide additional flood passage and storage. In 1912, a channel was dredged to connect
