[Docket Nos. AO-366-A36, et al.; DA-93-21]

Milk in the Southeast Marketing Area; Order Amending and Merging Orders

7 CFR part	Marketing area	Docket No.
1007	Georgia	AO-366-A36
1093	Alabama-West Florida.	AO-386-A14
1094	New Orleans-Mississippi.	AO-103-A56
1096	Greater Louisiana.	AO-257-A43
1108	Central Arkansas.	AO-243-A46

AGENCY: Agricultural Marketing Service, USDA.**ACTION:** Final rule.

SUMMARY: This final rule combines five Federal milk order marketing areas with unregulated counties in Arkansas, Georgia, Mississippi, and Tennessee to form the Southeast marketing area. It is based on industry proposals to merge the individual marketing areas so as to more equitably divide the markets' proceeds in what essentially has become a single, large market with significantly overlapping sales and procurement areas. More than two-thirds of the affected dairy farmers participating in a referendum voted in favor of the merged order.

EFFECTIVE DATE: July 1, 1995.

FOR FURTHER INFORMATION CONTACT: Nicholas Memoli, Marketing Specialist, USDA/AMS/Dairy Division, Order Formulation Branch, Room 2971, South Building, PO Box 96456, Washington, DC 20090-6456, (202) 690-1932.

SUPPLEMENTARY INFORMATION: This administrative rule is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and therefore is excluded from the requirements of Executive Order 12866.

The Regulatory Flexibility Act (5 U.S.C. 601-612) requires the Agency to examine the impact of a proposed rule on small entities. Pursuant to 5 U.S.C. 605(b), the Administrator of the Agricultural Marketing Service has certified that this rule will not have a significant economic impact on a substantial number of small entities. The amendments will promote orderly marketing of milk by producers and regulated handlers.

This final rule was reviewed under Executive Order 12778, Civil Justice

Reform. This action is not intended to have a retroactive effect and will not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with the law and requesting a modification of an order or to be exempted from the order. A handler is afforded the opportunity for a hearing on the petition. After a hearing, the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has its principal place of business, has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after the entry of the ruling.

Prior documents in this proceeding: Notice of Hearing: Issued September 3, 1993; published September 10, 1993 (58 FR 47653).

Supplemental Notice of Hearing: Issued October 13, 1993; published October 15, 1993 (58 FR 53436).

Extension of Time for Filing Briefs: Issued January 24, 1994; published February 3, 1994 (59 FR 5132).

Recommended Decision: Issued November 21, 1994; published November 29, 1994 (59 FR 61070).

Extension of Time for Filing Exceptions: Issued December 27, 1994; published January 3, 1995 (60 FR 65).

Final Decision: Issued May 3, 1995; published May 10, 1995 (60 FR 25014).

Findings and Determinations

The following findings and determinations supplement those that were made when the orders were first issued and when they were amended. The previous findings and determinations are hereby ratified and confirmed, except where they may conflict with those set forth herein.

(a) **Findings.** A public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforesaid marketing areas. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674),

and the applicable rules of practice and procedure (7 CFR part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The Southeast order, which amends and merges the aforesaid orders, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the aforesaid marketing areas. The minimum prices specified in the order as hereby amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The Southeast order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, marketing agreements upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in the Southeast order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require each handler to pay, as its pro rata share of such expense, 5 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1007.85.

(b) **Determinations.** It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk marketed within the Southeast marketing area to sign a proposed marketing agreement tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order; and

(3) The issuance of this order was approved by at least two-thirds of the producers who during the representative period of March 1995 were engaged in the production of milk for sale in the marketing area.

List of Subjects in 7 CFR Part 1007

Milk marketing orders.

Order Relative to Handling

It is therefore ordered that on and after the effective date hereof, the handling of milk in the Georgia, Alabama-West Florida, New Orleans-Mississippi, Greater Louisiana, and Central Arkansas marketing areas (parts 1007, 1093, 1094, 1096, and 1108, respectively) shall be amended and merged into one order. Parts 1093, 1094, 1096, and 1108 are vacated and reserved for future assignment. The handling of milk in the Southeast marketing area shall be in conformity to and in compliance with the following terms and conditions:

1. Part 1007 is revised to read as follows:

PART 1007—MILK IN THE SOUTHEAST MARKETING AREA**Subpart—Order Regulating Handling****General Provisions**

Sec.

1007.1 General provisions.

Subpart—Order Regulating Handling**General Provisions****§ 1007.1 General provisions.**

The terms, definitions, and provisions in part 1000 of this chapter apply to and are hereby made a part of this order.

Definitions**§ 1007.2 Southeast marketing area.**

The *Southeast marketing area*, hereinafter called the *marketing area*, means all territory within the bounds of the following Alabama, Florida, Georgia, Mississippi, Tennessee, and Arkansas counties and Louisiana parishes, including all piers, docks, and wharves connected therewith and all craft moored thereat, and all territory occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any of the listed counties or parishes:

Zone 1**Arkansas Counties**

Baxter, Clay, Fulton, Greene, Izard, Lawrence, Randolph, and Sharp.

Tennessee Counties

Cheatham, Clay, Davidson, Dickson, Fentress, Henry, Houston, Jackson, Lake, Macon, Montgomery, Obion, Overton, Pickett, Robertson, Smith, Stewart, Sumner, Trousdale, Weakley, and Wilson.

Zone 2**Arkansas Counties**

Newton, Searcy, and Stone.

Tennessee Counties

Bedford, Benton, Bledsoe, Cannon, Carroll, Chester, Coffee, Crockett, DeKalb, Decatur, Dyer, Gibson, Grundy, Henderson, Hickman, Humphreys, Lewis, Madison, Marshall, Maury, Perry, Putnam, Rutherford, Van Buren, Warren, White, and Williamson.

Zone 3**Arkansas Counties**

Cleburne, Craighead, Independence, Jackson, Johnson, Mississippi, Poinsett, Pope, and Van Buren.

Tennessee Counties

Lauderdale, Tipton, and Haywood.

Zone 4**Arkansas Counties**

Conway, Crittenden, Cross, Faulkner, Garland, Lee, Lonoke, Monroe, Montgomery, Perry, Polk, Prairie, Pulaski, Saline, St. Francis, White, Woodruff, and Yell.

Tennessee Counties

Fayette, Franklin, Giles, Hardeman, Hardin, Lawrence, Lincoln, McNairy, Moore, Shelby, and Wayne.

Zone 5**Alabama Counties**

Colbert, De Kalb, Franklin, Jackson, Lauderdale, Lawrence, Limestone, Madison, Marshall, and Morgan.

Arkansas Counties

Arkansas, Clark, Grant, Hot Spring, Howard, Jefferson, Phillips, Pike, and Sevier.

Georgia Counties

Gilmer, Towns, and Union.

Mississippi Counties

Alcorn, Benton, Coahoma, DeSoto, Itawamba, Lafayette, Lee, Marshall, Panola, Pontotoc, Prentiss, Quitman, Tate, Tippah, Tishomingo, Tunica, and Union.

Zone 6**Alabama Counties**

Blount, Cherokee, Cullman, Etowah, Fayette, Lamar, Marion, Walker, and Winston.

Arkansas Counties

Bradley, Calhoun, Cleveland, Dallas, Desha, Drew, Hempstead, Lincoln, Little River, Nevada, and Ouachita.

Georgia Counties

Bartow, Cherokee, Dawson, Floyd, Gordon, Habersham, Lumpkin, Pickens, Rabun, and White.

Mississippi Counties

Bolivar, Calhoun, Chickasaw, Grenada, Monroe, Sunflower, Tallahatchie, and Yalobusha.

Zone 7*Alabama Counties*

Bibb, Calhoun, Clay, Cleburne, Jefferson, Pickens, Randolph, Shelby, St. Clair, Talladega, and Tuscaloosa.

Arkansas Counties

Ashley, Chicot, Columbia, Lafayette, Miller, and Union.

Georgia Counties

Banks, Barrow, Butts, Carroll, Clarke, Clayton, Cobb, Coweta, De Kalb, Douglas, Elbert, Fayette, Forsyth, Franklin, Fulton, Greene, Gwinnett, Hall, Haralson, Hart, Heard, Henry, Jackson, Jasper, Lincoln, Madison, Morgan, Newton, Oconee, Oglethorpe, Paulding, Polk, Putnam, Rockdale, Spalding, Stephens, Taliaferro, Walton, and Wilkes.

Mississippi Counties

Attala, Carroll, Choctaw, Clay, Holmes, Humphreys, Leflore, Lowndes, Montgomery, Noxubee, Oktibbeha, Washington, Webster, and Winston.

Zone 8*Alabama Counties*

Chambers, Chilton, Coosa, Greene, Hale, Lee, Perry, Sumter (north of U.S. 80), and Tallapoosa.

Georgia Counties

Baldwin, Bibb, Burke, Columbia, Crawford, Glascock, Hancock, Harris, Jefferson, Jones, Lamar, McDuffie, Meriwether, Monroe, Muscogee, Pike, Richmond, Talbot, Taylor, Troup, Twiggs, Upson, Warren, Washington, and Wilkinson.

Louisiana Parishes

Bienville, Bossier, Caddo, Claiborne, East Carroll, Jackson, Lincoln, Morehouse, Ouachita, Richland, Union, Webster, and West Carroll.

Mississippi Counties

Issaquena, Kemper, Leake, Madison, Neshoba, Sharkey, and Yazoo.

Zone 9*Alabama Counties*

Autauga, Bullock, Dallas, Elmore, Lowndes, Macon, Marengo, Montgomery, Russell, Sumter (south of U.S. 80), and Wilcox.

Georgia Counties

Bleckley, Bulloch, Candler, Chattahoochee, Crisp, Dodge, Dooley, Effingham, Emanuel, Evans, Houston, Jenkins, Johnson, Laurens, Macon, Marion, Montgomery, Peach, Pulaski, Schley, Screven, Stewart, Sumter, Tattnall, Telfair, Toombs, Treutlen, Webster, Wheeler, and Wilcox.

Louisiana Parishes

Caldwell, De Soto, Franklin, Madison, Natchitoches (north of State Highway 6 and U.S. 84), Red River, Tensas, and Winn.

Mississippi Counties

Claiborne, Clarke, Copiah, Hinds, Jasper, Lauderdale, Newton, Rankin, Scott, Simpson, Smith, and Warren.

Zone 10*Alabama Counties*

Barbour, Butler, Choctaw, Clarke, Coffee, Conecuh, Covington, Crenshaw, Dale, Escambia, Geneva, Henry, Houston, Monroe, Pike, and Washington.

Georgia Counties

Appling, Atkinson, Bacon, Baker, Ben Hill, Berrien, Brantley, Brooks, Bryan, Calhoun, Camden, Charlton, Chatham, Clay, Clinch, Coffee, Colquitt, Cook, Decatur, Dougherty, Early, Echols, Glynn, Grady, Irwin, Jeff Davis, Lanier, Lee, Liberty, Long, Lowndes, McIntosh, Miller, Mitchell, Pierce, Quitman, Randolph, Seminole, Terrell, Thomas, Tift, Turner, Ware, Wayne, and Worth.

Louisiana Parishes

Avoyelles, Catahoula, Concordia, Grant, La Salle, Natchitoches (south of State Highway 6 and U.S. 84), Rapides, Sabine, and Vernon.

Mississippi Counties

Adams, Amite, Covington, Forrest, Franklin, Greene, Jefferson, Jefferson Davis, Jones, Lamar, Lawrence, Lincoln, Marion, Perry, Pike, Walthall, Wayne, and Wilkinson.

Zone 11*Alabama Counties*

Baldwin and Mobile (more than 20 miles from the Mobile city hall).

Florida Counties

Escambia, Okaloosa, Santa Rosa, and Walton.

Louisiana Parishes

Allen, Beauregard, East Feliciana, Evangeline, Pointe Coupee, St. Helena, St. Landry, St. Tammany, Tangipahoa, Washington, and West Feliciana.

Mississippi Counties

George, Hancock, Harrison, Jackson, Pearl River, and Stone.

Zone 12*Alabama Counties*

Mobile (within 20 miles of the Mobile city hall).

Louisiana Parishes

Acadia, Ascension, Assumption, Calcasieu, Cameron, East Baton Rouge, Iberia, Iberville, Jefferson, Jefferson Davis, Lafayette, Lafourche, Livingston, Orleans, Plaquemines, St. Bernard, St. Charles, St. James, St. John the Baptist, St. Martin, St. Mary, Terrebonne, Vermilion, and West Baton Rouge.

§ 1007.3 Route disposition.

Route disposition means a delivery to a retail or wholesale outlet (except a

plant), either directly or through any distribution facility (including disposition from a plant store, vendor or vending machine) of a fluid milk product classified as Class I milk.

Packaged fluid milk products that are transferred to a distributing plant from a plant with route disposition in the marketing area and which are classified as Class I under § 1007.40(a) shall be considered as route disposition from the transferor plant, rather than the transferee plant, for the single purpose of qualifying it as a pool plant under § 1007.7(a).

§ 1007.4 Plant.

Plant means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products, including filled milk, are received, processed, or packaged. Separate facilities without stationary storage tanks that are used only as a reload point for transferring bulk milk from one tank truck to another or separate facilities used only as a distribution point for storing packaged fluid milk products in transit for route disposition shall not be a plant under this definition.

§ 1007.5 Distributing plant.

Distributing plant means a plant that is approved by a duly constituted regulatory agency for the handling of Grade A milk and at which fluid milk products are processed or packaged and from which there is route disposition in the marketing area during the month.

§ 1007.6 Supply plant.

Supply plant means a plant that is approved by a duly constituted regulatory agency for the handling of Grade A milk and from which fluid milk products are transferred during the month to a pool distributing plant.

§ 1007.7 Pool plant.

Pool plant means a plant specified in paragraphs (a), (b), (c) or (d) of this section, or a unit of plants as specified in paragraph (e) of this section, but excluding a plant specified in paragraph (g) of this section. The pooling standards described in paragraphs (a) through (c) of this section are subject to modification pursuant to paragraph (f) of this section:

(a) A distributing plant from which during the month:

(1) Total route disposition, except filled milk, is equal to 50 percent or more of the total quantity of Grade A fluid milk products, except filled milk, physically received at such plant or diverted therefrom pursuant to § 1007.13; and

(2) Route disposition, except filled milk, in the marketing area is at least the lesser of a daily average of 1,500 pounds or 10 percent of the total quantity of fluid milk products, except filled milk, physically received or diverted therefrom pursuant to § 1007.13.

(b) A supply plant from which during each of the months of July through November 60 percent (40 percent during each of the months of December through June) of the total quantity of Grade A milk that is received during the month from dairy farmers (including producer milk diverted from the plant pursuant to § 1007.13 but excluding milk diverted to such plant) and handlers described in § 1007.9(c) is transferred to pool distributing plants.

(c) A plant located within the Southeast marketing area that is operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and during the month producer milk of members of such cooperative association is delivered directly from farms to pool distributing plants or is transferred to such plants as a fluid milk product from the cooperative's plant. Such deliveries, in excess of receipts by transfer from pool distributing plants, must equal not less than 60 percent of the total producer milk of such cooperative association in each of the months of July through November, and 40 percent of such milk in each of the months of December through June. The plant's pool plant status shall be subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraphs (a) or (b) of this section or under the provisions of another Federal order applicable to a distributing plant or a supply plant; and

(2) The plant is approved by a duly constituted regulatory agency to handle Grade A milk.

(d) A plant located within the marketing area (other than a producer-handler plant or a governmental agency plant) that meets the qualifications described in paragraph (a) of this section regardless of its quantity of route disposition in any other Federal order marketing area.

(e) Two or more plants operated by the same handler and that are located within the Southeast marketing area may qualify for pool status as a unit by meeting the total and in-area route disposition requirements specified in paragraph (a) of this section and the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process only Class I or Class II products and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit pursuant to paragraph (e)(1) of this section; and

(3) A written request to form a unit, or to add or remove plants from a unit, must be filed with the market administrator prior to the first day of the month for which it is to be effective.

(f) The applicable percentages in paragraphs (a) through (c) of this section may be increased or decreased up to 10 percentage points by the market administrator if, following a written request for such a revision, the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision by conducting an investigation and conferring with the Director of the Dairy Division. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in writing seven days before the effective date.

(g) The term *pool plant* shall not apply to the following plants:

- (1) A *producer-handler* plant;
- (2) An *exempt plant* as defined in § 1007.8(e);

(3) A plant qualified pursuant to paragraph (a) of this section which is not located within the Southeast marketing area, meets the pooling requirements of another Federal order, and has had greater sales in such other Federal order marketing area for three consecutive months, including the current month;

(4) A plant qualified pursuant to paragraph (a) of this section which is located in another order's marketing area and which is required to be regulated under such other order because of its location within the other order's marketing area; and

(5) A plant qualified pursuant to paragraph (b) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under such other order than are made to plants regulated under this part, or such plant has automatic pooling status under such other order.

§ 1007.8 Nonpool plant.

Nonpool plant means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) *Other order plant* means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) *Producer-handler plant* means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) *Partially regulated distributing plant* means a nonpool plant that is not an other order plant, a producer-handler plant, or an exempt plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) *Unregulated supply plant* means a supply plant that does not qualify as a pool supply plant and is not an other order plant, a producer-handler plant, or an exempt plant.

(e) *Exempt plant* means a plant:

(1) Operated by a governmental agency from which fluid milk products are distributed in the marketing area. Such plant shall be exempt from all provisions of this part; or

(2) Which has monthly route disposition of 100,000 pounds or less during the month. Such plant will be exempt from the pricing and pooling provisions of this order, but the handler will be required to file periodic reports as prescribed by the market administrator to enable determination of the exempt status of such handler.

§ 1007.9 Handler.

Handler means:

(a) Any person who operates one or more pool plants;

(b) Any cooperative with respect to producer milk which it causes to be diverted pursuant to § 1007.13 for the account of such cooperative association;

(c) Any cooperative association with respect to milk that it receives for its account from the farm of a producer for delivery to a pool plant of another handler in a tank truck owned and operated by, or under the control of, such cooperative association, unless both the cooperative association and the operator of the pool plant notify the market administrator prior to the time that such milk is delivered to the pool plant that the plant operator will be the handler of such milk and will purchase such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples. Milk for which the cooperative association is the handler pursuant to this paragraph shall

be deemed to have been received by the cooperative association at the location of the pool plant to which such milk is delivered;

- (d) Any person who operates a partially regulated distributing plant;
- (e) A producer-handler;
- (f) Any person who operates an other order plant described in § 1007.8(a);
- (g) Any person who operates an unregulated supply plant; and
- (h) Any person who operates an exempt plant.

§ 1007.10 Producer-handler.

Producer-handler means a person who:

- (a) Operates a dairy farm and a distributing plant from which there is monthly route disposition in excess of 100,000 pounds per month;
- (b) Receives no Class I milk from sources other than his/her own farm production and pool plants;
- (c) Disposes of no other source milk as Class I milk; and
- (d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from pool plants) and the operation of the processing and packaging business are his/her personal enterprise and personal risk.

§ 1007.11 [Reserved]

§ 1007.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk is:

- (1) Received at a pool plant directly from such producer;
- (2) Received by a handler described in § 1007.9(c); or
- (3) Diverted from a pool plant in accordance with § 1007.13.

(b) *Producer* shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by such person whose milk is delivered to an exempt plant, excluding producer milk diverted to such exempt plant pursuant to § 1007.13;

(3) Any person with respect to milk produced by such person which is diverted to a pool plant from an other order plant if the other order plant designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1007.44(a)(8)(iii) and the corresponding step of § 1007.44(b); or

(4) Any person with respect to milk produced by such person which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1007.13 Producer milk.

Producer milk means the skim milk and butterfat contained in milk of a producer that is:

- (a) Received at a pool plant directly from such producer by the operator of the plant;
- (b) Received by a handler described in § 1007.9(c);
- (c) Diverted from a pool plant to the pool plant of another handler. Milk so diverted shall be deemed to have been received at the location of the plant to which diverted; or
- (d) Diverted by the operator of a pool plant or cooperative association to a nonpool plant that is not a producer-handler plant, subject to the following conditions:

(1) In any month of December through June, not less than four days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

(2) In any month of July through November, not less than ten days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

(3) The total quantity of milk so diverted during the month by a cooperative association shall not exceed 33 percent during the months of July through November, or 50 percent during the months of December through June, of the producer milk that the cooperative association caused to be delivered to, and physically received at, pool plants during the month;

(4) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (d) of this section. The total quantity of milk so diverted during the month shall not exceed 33 percent during the months of July through November, or 50 percent during the months of December through June, of the producer milk physically received at such plant (or such unit of plants in the case of plants that pool as a unit pursuant to § 1007.7(d)) during the month;

(5) Any milk diverted in excess of the limits prescribed in paragraphs (d)(3) and (4) of this section shall not be producer milk. The diverting handler shall designate the dairy farmer deliveries that will not be producer milk

pursuant to paragraphs (d)(3) and (4) of this section. If the handler fails to make such designation, no milk diverted by such handler shall be producer milk;

(6) To the extent that it would result in nonpool status for the plant from which diverted, milk diverted for the account of a cooperative association from the pool plant of another handler shall not be producer milk;

(7) The cooperative association shall designate the dairy farm deliveries that are not producer milk pursuant to paragraph (d)(6) of this section. If the cooperative association fails to make such designation, no milk diverted by it to a nonpool plant shall be producer milk;

(8) Diverted milk shall be priced at the location of the plant to which diverted; and

(9) The market administrator may increase or decrease the applicable percentages in paragraphs (d) (3) and (4) of this section by up to 10 percentage points, and may increase or decrease the 10-day and 4-day delivery requirements in paragraphs (d) (1) and (2) of this section by 50 percent if, following a written request for such a revision, the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision by conducting an investigation and conferring with the Director of the Dairy Division. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in writing seven days before the effective date.

§ 1007.14 Other source milk.

Other source milk means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1007.40(b)(1) from any source other than producers, a handler described in § 1007.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1007.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1007.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1007.40(b)(1)) for which the handler fails to establish a disposition.

§ 1007.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, *fluid milk product* means any milk products in fluid or frozen form containing less than 9 percent butterfat, that are in bulk or are packaged, distributed and intended to be used as beverages. Such products include, but are not limited to: Milk, skim milk, lowfat milk, milk drinks, buttermilk, and filled milk, including any such beverage products that are flavored, cultured, modified with added nonfat milk solids, sterilized, concentrated (to not more than 50 percent total milk solids), or reconstituted.

(b) The term *fluid milk product* shall not include:

(1) Plain or sweetened evaporated milk, plain or sweetened evaporated skim milk, sweetened condensed milk or skim milk, formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1007.16 Fluid cream product.

Fluid cream product means cream (other than plastic cream or frozen cream), including sterilized cream, or a mixture of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1007.17 Filled milk.

Filled milk means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1007.18 Cooperative association.

Cooperative association means any cooperative marketing association of producers which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of

February 18, 1922, as amended, known as the "Capper-Volstead Act;" and

(b) To have full authority in the sale of milk of its members and be engaged in making collective sales of, or marketing, milk or milk products for its members.

§ 1007.19 Commercial food processing establishment.

Commercial food processing establishment means any facility, other than a milk or filled milk plant, to which bulk fluid milk products and bulk fluid cream products are disposed of, or producer milk is diverted, that uses such receipts as ingredients in food products, and has no disposition of fluid milk products or fluid cream products other than those that it received in consumer type packages. Producer milk diverted to commercial food processing establishments shall be subject to the same provisions relating to diversions to plants, including, but not limited to, provisions in §§ 1007.13, 1007.41, and 1007.52.

Handler Reports

§ 1007.30 Reports of receipts and utilization.

On or before the 5th day after the end of the month (if postmarked), or not later than the 7th day if the report is delivered in person to the office of the market administrator, each handler shall report for such month to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of its pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1007.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1007.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been

fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1007.9(b) and (c) shall report:

(1) The quantities of skim milk and butterfat contained in receipts from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to its receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1007.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1007.9(a), (b), and (c) shall report to the market administrator its producer payroll for such month, in detail prescribed by the market administrator, showing for each producer:

(1) Such producer's name and address;

(2) The total pounds of milk received from such producer, showing separately the pounds of milk received from the producer on each delivery day;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deduction, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1007.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1007.32 Other reports.

(a) Each handler described in § 1007.9(a), (b), and (c) shall report to the market administrator on or before the 7th day after the end of each month of February through May the aggregate quantity of base milk received from producers during the month, and on or before the 20th day after the end of each month of February through May the pounds of base milk received from each producer during the month. In the case of milk diverted to another plant, the handler shall also report the pounds of base milk of each producer assigned to the diverteer plant.

(b) In addition to the reports required pursuant to paragraph (a) of this section and §§ 1007.30 and 1007.31, each

handler shall report such information as the market administrator deems necessary to verify or establish each handler's obligation under the order.

Classification of Milk

§ 1007.40 Classes of utilization.

Except as provided in § 1007.42, all skim milk and butterfat required to be reported pursuant to § 1007.30 shall be classified as follows:

(a) *Class I milk* shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section;

(2) In packaged fluid milk products in inventory at the end of the month; and

(3) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk* shall be all skim milk and butterfat:

(1) Disposed in the form of a fluid cream product or any product containing artificial fat, fat substitutes, or 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section and in bulk concentrated fluid milk products in inventory at the end of the month;

(3) In bulk fluid milk products and bulk fluid cream products disposed of or diverted to a commercial food processing establishment if the market administrator is permitted to audit the records of the commercial food processing establishment for the purpose of verification. Otherwise, such uses shall be Class I;

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, dry curd cottage cheese, ricotta cheese, pot cheese, Creole cheese, and any similar soft, high-moisture cheese resembling cottage cheese in form or use;

(ii) Milkshake and ice milk mixes (or bases), frozen desserts, and frozen dessert mixes distributed in one-quart containers or larger and intended to be used in soft or semi-solid form;

(iii) Aerated cream, frozen cream, sour cream, sour half-and-half, sour cream mixtures containing nonmilk items, yogurt, and any other semi-solid product resembling a Class II product;

(iv) Eggnog, custards, puddings, pancake mixes, buttermilk biscuit mixes, coatings, batter, and similar products;

(v) Formulas especially prepared for infant feeding or dietary use (meal replacement) that are packaged in hermetically sealed containers;

(vi) Candy, soup, bakery products and other prepared foods which are processed for general distribution to the public, and intermediate products, including sweetened condensed milk, to be used in processing such prepared food products; and

(vii) Any product not otherwise specified in this section.

(c) *Class III milk* shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cream cheese and other spreadable cheeses, and hard cheese of types that may be shredded, grated, or crumbled, and are not included in paragraph (b)(4)(i) of this section;

(ii) Butter, plastic cream, anhydrous milkfat, and butteroil;

(iii) Any milk product in dry form except nonfat dry milk;

(iv) Evaporated or sweetened condensed milk in a consumer-type package and evaporated or sweetened condensed skim milk in a consumer-type package; and

(2) In inventory at the end of the month of unconcentrated fluid milk products in bulk form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products, products specified in paragraph (b)(1) of this section, and products processed by the disposing handler that are specified in paragraphs (b)(4)(i) through (iv) of this section, that are disposed of by a handler for animal feed;

(4) In fluid milk products, products specified in paragraph (b)(1) of this section, and products processed by the disposing handler that are specified in paragraphs (b)(4)(i) through (iv) of this section, that are dumped by a handler. The market administrator may require notification by the handler of such dumping in advance for the purpose of having the opportunity to verify such disposition. In any case, classification under this paragraph requires a handler to maintain adequate records of such use. If advance notification of such dumping is not possible, or if the market administrator so requires, the handler must notify the market administrator on the next business day following such use;

(5) In fluid milk products and products specified in paragraph (b)(1) of this section that are destroyed or lost by a handler in a vehicular accident, flood, fire, or in a similar occurrence beyond the handler's control, to the extent that the quantities destroyed or lost can be verified from records satisfactory to the market administrator;

(6) In skim milk in any modified fluid milk product or in any product specified in paragraph (b)(1) of this

section that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1007.15 and the fluid cream product definition pursuant to § 1007.16; and

(7) In shrinkage assigned pursuant to § 1007.41(a) to the receipts specified in § 1007.41(a)(2) and in shrinkage specified in § 1007.41 (b) and (c).

(d) *Class III-A milk* shall be all skim milk and butterfat used to produce nonfat dry milk.

§ 1007.41 Shrinkage.

For the purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1007.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraphs (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraphs (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1007.9(c), except that if the operator of the plant to which the milk is delivered purchased such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchased such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid

milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amount of skim milk and butterfat to which percentages are applied in paragraphs (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1007.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1007.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or transferred in the form of a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1007.44(a)(12) and the corresponding step of § 1007.44(b). The amount of skim milk or butterfat classified in each class shall include the assigned utilization of skim milk or butterfat in transfers of concentrated fluid milk products.

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1007.44(a)(7) or the corresponding step of

§ 1007.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1007.44(a) (11) or (12) or the corresponding steps of § 1007.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or transferred in the form of a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section.

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be Class I subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to the class consisting primarily of fluid milk products shall be classified as Class I

milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification shall be in accordance with the provisions of § 1007.40.

(c) *Transfers and diversions to producer-handlers and to exempt plants.* Skim milk or butterfat that is transferred or diverted from a pool plant to a producer-handler under another Federal order or to an exempt plant shall be classified:

(1) As Class I milk if transferred or diverted to a producer-handler;

(2) As Class I milk if transferred to an exempt plant in the form of a packaged fluid milk product;

(3) In accordance with the utilization assigned to it by the market administrator if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product to an exempt plant. For this purpose, the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to its receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant, a producer-handler plant, or an exempt plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or transferred in the form of a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraphs (d)(2)(i) (A) and (B) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraphs (d)(2) (ii) through (viii) of this section:

(A) The transferor-handler or divisor-handler claims such classification in such handler's report of receipts and utilization filed pursuant § 1007.30 for the month within which such transaction occurred; and

(B) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification

purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(A) Pro rata to receipts of packaged fluid milk products at such nonpool plants from pool plants;

(B) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plants from other order plants;

(C) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(D) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be classified to the extent possible in the following sequence:

(A) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(B) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(A) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(B) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I

utilization, then to Class II utilization, and then to Class III utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class II utilization, then to any remaining Class III utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this paragraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this paragraph.

(e) *Transfers by a handler described in § 1007.9(c) to pool plants.* Skim milk and butterfat transferred in the form of bulk milk by a handler described in § 1007.9(c) to another handler's pool plant shall be classified pursuant to § 1007.44 pro rata with producer milk received at the transferee-handler's plant.

§ 1007.43 General classification rules.

In determining the classification of producer milk pursuant to § 1007.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1007.30 and shall compute separately for each pool plant, and for each cooperative association with respect to milk for which it is the handler pursuant to § 1007.9 (b) or (c) that was not received at a pool plant, the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1007.40, 1007.41, and 1007.42. The combined pounds of skim milk and butterfat so determined in each class for a handler described in § 1007.9 (b) or (c) shall be such handler's classification of producer milk;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by the handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids;

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1007.9 (b) or (c) shall be determined separately from

the operations of any pool plant operated by such cooperative association;

(d) Skim milk and butterfat contained in receipts of bulk concentrated fluid milk and nonfluid milk products that are reconstituted for fluid use shall be assigned to Class I use, up to the reconstituted portion of labeled reconstituted fluid milk products, on a pro rata basis (except for any Class I use of specific concentrated receipts that is established by the handler) prior to any assignment under § 1007.44. Any remaining skim milk and butterfat in concentrated receipts shall be assigned to uses under § 1007.44 on a pro rata basis, unless a specific use of such receipts is established by the handler; and

(e) Class III-A milk shall be allocated in combination with Class III milk and the quantity of producer milk eligible to be priced in Class III-A shall be determined by prorating receipts from pool sources to Class III-A use on the basis of the quantity of total receipts of bulk fluid milk products allocated to Class III use at the plant.

§ 1007.44 Classification of producer milk.

For each month the market administrator shall determine for each handler described in § 1007.9(a) for each pool plant of the handler separately the classification of producer milk and milk received from a handler described in § 1007.9(c), by allocating the handler's receipts of skim milk and butterfat to the utilization of such receipts by such handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1007.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in:

(i) Receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(ii) Packaged fluid milk products in inventory at the beginning of the month. This paragraph shall apply only if the pool plant was subject to the provisions of this paragraph or comparable provisions of another Federal milk order in the immediately preceding month;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products

received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1007.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1007.40(b)(1) in packaged form and in bulk concentrated fluid milk products that were in inventory at the beginning of the month, but not in excess of the pounds of skim milk remaining in Class II. This paragraph shall apply only if the pool plant was subject to the provisions of this paragraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in bulk concentrated fluid milk products and in other source milk (except other source milk received in the form of an unconcentrated fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1007.40(b) (excluding the quantity of such skim milk that was classified as Class III milk pursuant to § 1007.40(c)(6)), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Bulk concentrated fluid milk products and other source milk (except other source milk received in the form of an unconcentrated fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1007.40(b)(1) that were not subtracted pursuant to paragraphs (a)(4), (a)(5), and (a)(6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under any Federal milk order and from an exempt distributing plant;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2)(i) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is fully regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2)(i) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2)(i), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraphs (a)(8)(ii) (A) through (C) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(A) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(B) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1007.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products

from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(C) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1007.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraphs (a)(2)(ii), (a)(5), and (a)(7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraphs (a)(11) (i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2)(i), (a)(7)(v), (a)(8)(i), and (a)(8)(ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to paragraph (a)(11) of this section exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased

(increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to paragraph (a)(11) of this section exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant that were not subtracted pursuant to paragraphs (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraphs (a)(12) (ii), (iii) and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(A) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1007.45(a); or

(B) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all

pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1007.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk and milk received from a handler described in § 1007.9(c), subtract such excess from the pounds of skim milk remaining in each class in series

beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk and milk received from a handler described in § 1007.9(c) in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1007.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1007.44(a)(12) and the corresponding step of § 1007.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to §§ 1007.43(d) and 1007.44 on the basis of such report (including any reclassification of inventories of bulk concentrated fluid milk products), and thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association that was used in each class by each handler receiving such milk. For the purpose of this report the milk

so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler.

Class Prices

§ 1007.50 Class prices.

Subject to the provisions of § 1007.52, the class prices for the month per hundredweight of milk containing 3.5% butterfat shall be as follows:

(a) The *Class I price* shall be the basic formula price for the second preceding month plus \$3.08.

(b) The *Class II price* shall be the basic formula price for the second preceding month plus \$.30.

(c) The *Class III price* shall be the basic formula price for the month.

(d) The *Class III-A price* for the month shall be the average Central States nonfat dry milk price for the month, as reported by the Department, less 12.5 cents, times an amount computed by subtracting from 9 an amount calculated by dividing 0.4 by such nonfat dry milk price, plus the butterfat differential value per hundredweight of 3.5 percent milk and rounded to the nearest cent, and subject to the adjustments set forth in paragraph (c) of this section for the applicable month.

§ 1007.51 Basic formula price.

The *basic formula price* shall be the preceding month's average pay price for manufacturing grade milk in Minnesota and Wisconsin using the "base month" series, as reported by the Department, adjusted to a 3.5 percent butterfat basis using the butterfat differential for the preceding month computed pursuant to § 1007.74 and rounded to the nearest cent, plus or minus the change in gross value yielded by the butter-nonfat dry milk and Cheddar cheese product price formula computed pursuant to paragraphs (a) through (e) of this section.

(a) The gross values of per hundredweight of milk used to manufacture butter-nonfat dry milk and Cheddar cheese shall be computed, using price data determined pursuant to paragraph (b) of this section and annual yield factors, for the preceding month and separately for the current month as follows:

(1) The gross value of milk used to manufacture butter-nonfat dry milk shall be the sum of the following computations:

- (i) Multiply the Grade AA butter price by 4.27;
- (ii) Multiply the nonfat dry milk price by 8.07; and
- (iii) Multiply the dry buttermilk price by 0.42.

(2) The gross value of milk used to manufacture Cheddar cheese shall be the sum of the following computations:

(i) Multiply the Cheddar cheese price by 9.87; and

(ii) Multiply the Grade A butter price by 0.238.

(b) The following product prices shall be used pursuant to paragraph (a) of this section:

(1) *Grade AA butter price.* Grade AA butter price means the simple average for the month of the Chicago Mercantile Exchange, Grade AA butter price, as reported by the Department.

(2) *Nonfat dry milk price.* Nonfat dry milk price means the simple average for the month of the Western Nonfat Dry Milk Low/Medium Heat price, as reported by the Department.

(3) *Dry buttermilk price.* Dry buttermilk price means the simple average for the month of the Western Dry Buttermilk price, as reported by the Department.

(4) *Cheddar cheese price.* Cheddar cheese price means the simple average for the month of the National Cheese Exchange 40-pound block Cheddar cheese price, as reported by the Department.

(5) *Grade A butter price.* Grade A butter price means the simple average for the month of the Chicago Mercantile Exchange Grade A butter price, as reported by the Department.

(c) Determine the amounts by which the gross value per hundredweight of milk used to manufacture butter-nonfat dry milk and the gross value per hundredweight of milk used to manufacture Cheddar cheese for the current month exceed or are less than the respective gross values for the preceding month.

(d) Compute weighting factors to be applied to the changes in gross values determined pursuant to paragraph (c) of this section by determining the relative proportion that the data included in each of the following paragraphs is of the total of the data represented in paragraphs (d)(1) and (d)(2) of this section:

(1) Combine the total nonfat dry milk production for the States of Minnesota and Wisconsin, as reported by the Department, for the most recent preceding period, and divide by the annual yield factor for nonfat dry milk, 8.07, to determine the quantity (in hundredweights) of milk used in the production of butter-nonfat dry milk; and

(2) Combine the total American cheese production for the States of Minnesota and Wisconsin, as reported by the Department, for the most recent preceding period, and divide by the

annual yield factor for Cheddar cheese, 9.87, to determine the quantity (in hundredweights) of milk used in the production of American cheese.

(e) Compute a weighted average of the changes in gross values per hundredweight of milk determined pursuant to paragraph (c) of this section in accordance with the relative proportions of milk determined pursuant to paragraph (d) of this section.

§ 1007.52 Plant location adjustments for handlers.

(a) For milk received at a plant from producers or a handler described in § 1007.9(c) and which is classified as Class I milk without movement in bulk form to a pool distributing plant at which a higher Class I price applies, the price specified in § 1007.50(a) shall be adjusted by the amount stated in paragraphs (a) (1) through (6) of this section for the location of such plant:

(1) For a plant located within one of the zones set forth in § 1007.2, the adjustment (cents per hundredweight) shall be as follows:

Zone 1	Minus 53.
Zone 2	Minus 48.
Zone 3	Minus 38.
Zone 4	Minus 31.
Zone 5	Minus 25.
Zone 6	Minus 10.
Zone 7	No adjustment.
Zone 8	Plus 10.
Zone 9	Plus 20.
Zone 10	Plus 32.
Zone 11	Plus 50.
Zone 12	Plus 57.

(2) For a plant located in that portion of the Tennessee Valley marketing area that is within the State of Georgia, the adjustment shall be minus 25 cents.

(3) For a plant located in the Missouri counties of Dunklin or Pemiscot, the adjustment shall be minus 53 cents.

(4) For a plant located in the Texas counties of Bowie or Cass, the adjustment shall be zero.

(5) For a plant located within another Federal order marketing area, other than in those counties specified in paragraphs (a) (2), (3), and (4) of this section, the adjustment shall be determined by subtracting the Class I differential price in Zone 7 of this order from the Class I differential price, adjusted for the plant's location, under such other Federal order.

(6) For a plant located outside the areas described in paragraphs (a) (1) through (5) of this section, the adjustment shall be computed by multiplying 2.5 cents per 10 miles, or fraction thereof (by the shortest hard-surfaced highway distance as determined by the market

administrator), from the nearer of Shreveport, Louisiana; Little Rock, Arkansas; Memphis, Tennessee; Jackson, Tennessee; Nashville, Tennessee; or Atlanta, Georgia, and subtracting that figure from the location adjustment applicable at Shreveport, Little Rock, Memphis, Jackson, Nashville, or Atlanta, as the case may be.

(b) For fluid milk products transferred in bulk form from a pool plant to a pool distributing plant at which a higher Class I price applies and which are classified as Class I milk, the Class I price shall be the Class I price at the transferee-plant subject to a location adjustment credit for the transferor-plant which shall be determined by the market administrator for skim milk and butterfat, respectively, as follows:

(1) Subtract from the pounds of skim milk remaining in Class I at the transferee-plant after the computations pursuant to § 1007.44(a)(12) plus the pounds of skim milk in receipts of concentrated fluid milk products from other pool plants that are assigned to Class I use, an amount equal to:

(i) The pounds of skim milk in receipts of milk at the transferee-plant from producers and handlers described in § 1007.9(c); and

(ii) The pounds of skim milk in receipts of packaged fluid milk products from other pool plants;

(2) Assign any remaining pounds of skim milk in Class I at the transferee-plant to the skim milk in receipts of fluid milk products from other pool plants, first to the transferor-plants at which the highest Class I price applies and then to other plants in sequence beginning with the plant at which the next highest Class I price applies;

(3) Compute the total amount of location adjustment credits to be assigned to transferor-plants by multiplying the hundredweight of skim milk assigned pursuant to paragraph (b)(2) of this section to each transferor-plant at which the Class I price is lower than the Class I price applicable at the transferor-plant and the transferee-plant, and add the resulting amounts;

(4) Assign the total amount of location adjustment credits computed pursuant to paragraph (b)(3) of this section to those transferor-plants that transferred fluid milk products containing skim milk classified as Class I milk pursuant to § 1007.42(a) and at which the applicable Class I price is less than the Class I price at the transferee-plant, in sequence beginning with the plant at which the highest Class I price applies. Subject to the availability of such credits, the credit assigned to each plant shall be equal to the hundredweight of

such Class I skim milk multiplied by the adjustment rate determined pursuant to paragraph (b)(3) of this section for such plant. If the aggregate of this computation for all plants having the same adjustment as determined pursuant to paragraph (b)(3) of this section exceeds the credits that are available to those plants, such credits shall be prorated to the volume of skim milk in Class I in transfers from such plants; and

(5) Location adjustment credit for butterfat shall be determined in accordance with the procedure outlined for skim milk in paragraphs (b) (1) through (4) of this section.

(c) The market administrator shall determine and publicly announce the zone location of each plant of each handler. The market administrator shall notify the handler on or before the first day of any month in which a change in a plant location zone will apply.

(d) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1007.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price and Class II prices for the following month, and the Class III and Class III-A prices for the preceding month.

§ 1007.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Prices

§ 1007.60 Handler's value of milk for computing the uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in § 1007.9 (b) and (c) with respect to milk that was not received at a pool plant as follows:

(a) Multiply the pounds of producer milk and milk received from a handler described in § 1007.9(c) that were classified in each class pursuant to §§ 1007.43(a) and 1007.44(c) by the applicable class prices, and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1007.44(a)(14) and the corresponding step of § 1007.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1007.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1007.44(a)(9) and the corresponding step of § 1007.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to § 1007.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1007.44(a)(7) (i) through (iv) and the corresponding step of § 1007.44(b), excluding receipts of bulk fluid cream products from an other order plant and bulk concentrated fluid milk products from pool plants, other order plants, and unregulated supply plants;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1007.44(a)(7) (v) and (vi) and the corresponding step of § 1007.44(b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to § 1007.43(d) and § 1007.44(a)(7)(i) and the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1007.44(a)(11) and the corresponding step of § 1007.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(g) Subtract, for reconstituted milk made from receipts of nonfluid milk products, an amount computed by multiplying \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class III price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to § 1007.43(d);

(h) Exclude, for pricing purposes under this section, receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another order under § 1007.76 (a)(5) or (c); and

(i) For pool plants that transfer bulk concentrated fluid milk products to other pool plants and other order plants, add or subtract the amount per hundredweight of any class price change from the previous month that results from any inventory reclassification of bulk concentrated fluid milk products that occurs at the transferee plant. Any such applicable class price change shall be applied to the plant that used the concentrated milk in the event that the concentrated fluid milk products were made from bulk unconcentrated fluid milk products received at the plant during the prior month.

§ 1007.61 Computation of uniform price (including weighted average price and uniform prices for base and excess milk).

(a) The market administrator shall compute the weighted average price for each month and the uniform price for each month of June through January per hundredweight of milk of 3.5 percent butterfat content as follows:

(1) Combine into one total the values computed pursuant to § 1007.60 for all handlers who filed the reports prescribed in § 1007.30 for the month and who made payments pursuant to § 1007.71 for the preceding month;

(2) Add not less than one-half the unobligated balance in the producer-settlement fund;

(3) Add an amount equal to the total value of the minus adjustments and subtract an amount equal to the total value of the plus adjustments computed pursuant to § 1007.75;

(4) Divide the resulting amount by the sum of the following for all handlers included in these computations;

(i) The total hundredweight of producer milk; and

(ii) The total hundredweight for which a value is computed pursuant to § 1007.60(f); and

(5) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The resulting figure, rounded to the nearest cent, shall be the weighted average price for each month and the uniform price for the months of June through January.

(b) For each month of February through May, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 3.5 percent butterfat content, as follows:

(1) Compute the total value of excess milk for all handlers included in the computations pursuant to paragraph (a)(1) of this section as follows:

(i) Multiply the hundredweight quantity of excess milk that does not exceed the total quantity of such handlers' producer milk assigned to Class III-A by the Class III-A price;

(ii) Multiply the remaining hundredweight quantity of excess milk that does not exceed the total quantity of such handlers' producer milk assigned to Class III by the Class III price;

(iii) Multiply the remaining hundredweight quantity of excess milk that does not exceed the total quantity of such handlers' producer milk assigned to Class II by the Class II price;

(iv) Multiply the remaining hundredweight quantity of excess milk by the Class I price; and

(v) Add together the resulting amounts;

(2) Divide the total value of excess milk obtained in paragraph (b)(1) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk;

(3) From the amount resulting from the computations pursuant to paragraphs (a)(1) through (a)(3) of this section subtract an amount computed by multiplying the hundredweight of milk specified in paragraph (a)(4)(ii) of this section by the weighted average price;

(4) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b)(2) of this section times the hundredweight of excess milk from the amount computed pursuant to paragraph (b)(3) of this section;

(5) Divide the amount calculated pursuant to paragraph (b)(4) of this section by the total hundredweight of base milk included in these computations; and

(6) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (b)(5) of this section. The resulting figure, rounded to the nearest cent, shall be the uniform price for base milk.

§ 1007.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 11th day after the end of the month the applicable uniform price(s) pursuant to § 1007.61 for such month.

Payments for Milk

§ 1007.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the producer-settlement fund into which the market administrator shall deposit all payments made by handlers pursuant to §§ 1007.71, 1007.76, and 1007.77, and out of which the market administrator shall make all payments pursuant to §§ 1007.72 and 1007.77. Payments due any handler shall be offset by any payments due from such handler.

§ 1007.71 Payments to the producer-settlement fund.

(a) On or before the 12th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1007.60.

(2) The sum of:

(i) The value at the uniform price(s) as adjusted pursuant to § 1007.75, of such handler's receipts of producer milk and milk received from handlers pursuant to § 1007.9(c); and

(ii) The value at the weighted average price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1007.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by the difference between the Class I price under this part applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1007.72 Payments from the producer-settlement fund.

On or before the 13th day after the end of each month, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1007.71(a)(2) exceeds the amount computed pursuant to § 1007.71(a)(1). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the funds are available.

§ 1007.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) On or before the 26th day of each month, for milk received during the first 15 days of the month from such producer who has not discontinued delivery of milk to such handler before the 23rd day of the month at not less than the Class III price for the preceding month or 90 percent of the weighted average price for the preceding month, whichever is higher, less proper deductions authorized in writing by the producer. If the producer had discontinued shipping milk to such handler before the 25th day of any month, or if the producer had no established base upon which to receive payments during the base paying months of February through May, the applicable rate for making payments to such producer shall be the Class III price for the preceding month; and

(2) On or before the 15th day of the following month, an amount equal to not less than the uniform price(s), as adjusted pursuant to §§ 1007.74 and 1007.75, multiplied by the hundredweight of milk or base milk and excess milk received from such producer during the month, subject to the following adjustments:

(i) Less payments made to such producer pursuant to paragraph (a)(1) of this section;

(ii) Less deductions for marketing services made pursuant to § 1007.86;

(iii) Plus or minus adjustments for errors made in previous payments made to such producers; and

(iv) Less proper deductions authorized in writing by such producer.

(3) If a handler has not received full payment from the market administrator pursuant to § 1007.72 by the 15th day of such month, such handler may reduce payments pursuant to this paragraph to producers on a pro rata basis but not by more than the amount of the underpayment. Such payments shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after receipt of the balance due from the market administrator.

(b) On or before the day prior to the dates specified in paragraph (a) (1) and (2) of this section, each handler shall make payment to the cooperative association for milk from producers who market their milk through the cooperative association and who have authorized the cooperative to collect such payments on their behalf an amount equal to the sum of the individual payments otherwise payable for such producer milk pursuant to paragraph (a) (1) and (2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to § 1007.72 by the 15th day of such month, such handler may reduce payments pursuant to paragraph (b) of this section to such cooperative association on a pro rata basis, prorating such underpayment to the volume of milk received from such cooperative association in proportion to the total milk received from producers by the handler, but not by more than the amount of the underpayment. Such payments shall be completed in the following manner:

(1) If the handler receives full payment from the market administrator by the 15th day of the month, the handler shall make payment to the cooperative association of the full value of the underpayment on the 15th day of the month;

(2) If the handler has not received full payment from the market administrator by the 15th day of the month, the handler shall make payment to the cooperative association of the full value of the underpayment on or before the date for making such payments pursuant to this paragraph next following after receipt of the balance due from the market administrator.

(d) Each handler pursuant to § 1007.9(a) who receives milk from a cooperative association as a handler pursuant to § 1007.9(c), including the milk of producers who are not members of such association, and who the market

administrator determines have authorized such cooperative association to collect payment for their milk, shall pay such cooperative for such milk as follows:

(1) On or before the 25th day of the month for milk received during the first 15 days of the month, not less than the Class III price for the preceding month or 90 percent of the weighted average price for the preceding month, whichever is higher; and

(2) On or before the 14th day of the following month, not less than the appropriate uniform price(s) as adjusted pursuant to §§ 1007.74 and 1007.75, and less any payments made pursuant to paragraph (d)(1) of this section.

(e) If a handler has not received full payment from the market administrator pursuant to § 1007.72 by the 14th day of such month, such handler may reduce payments pursuant to paragraph (d) of this section to such cooperative association and complete such payments for milk received from such cooperative association in its capacity as a handler pursuant to § 1007.9(c), in the manner prescribed in paragraph (c) (1) and (2) of this section.

(f) In making payments to producers pursuant to this section, each handler shall furnish each producer, except a producer whose milk was received from a handler described in § 1007.9(c), a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The month and identity of the producer;

(2) The daily and total pounds and the average butterfat content of producer milk;

(3) For the months of February through May the total pounds of base milk received from such producer;

(4) The minimum rate(s) at which payment to the producer is required pursuant to this order;

(5) The rate(s) used in making the payment if such rate(s) is (are) other than the applicable minimum rate(s);

(6) The amount, or rate per hundredweight, and nature of each deduction claimed by the handler; and

(7) The net amount of payment to such producer or cooperative association.

§ 1007.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform prices for base and excess milk shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.138 times the current month's butter price less

0.0028 times the preceding month's average pay price per hundredweight, at test, for manufacturing grade milk, in Minnesota and Wisconsin, using the "base month" series, adjusted pursuant to § 1007.51(a) through (e), as reported by the Department. The butter price means the simple average for the month of the Chicago Mercantile Exchange, Grade A butter price as reported by the Department.

§ 1007.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price and the uniform price for base milk shall be adjusted according to the location of the plant at which the milk was physically received at the rates set forth in § 1007.52(a); and

(b) The weighted average price applicable to other source milk shall be adjusted at the rates set forth in section § 1007.52(a) applicable at the location of the nonpool plant from which the milk was received, except that the adjusted weighted average price shall not be less than the Class III price.

§ 1007.76 Payments by a handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1007.30(b) and 1007.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be an amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any payment obligation under any order;

(3) Subtract the pounds of reconstituted milk that are made from

nonfluid milk products and which are then disposed of as route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price, both prices to be applicable at the location of the partially regulated distributing plant (except that the Class I price and weighted average price shall not be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of labeled reconstituted milk included in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant less \$1.00 (but not to be less than the Class III price) and the Class III price. For any reconstituted milk that is not so labeled, the Class I price shall not be reduced by \$1.00. Alternatively, for such disposition, payments may be made to the producer-settlement fund of the order regulating the producer milk used to produce the nonfluid milk ingredients at the difference between the Class I price applicable under the other order at the location of the plant where the nonfluid milk ingredients were processed (but not to be less than the Class III price) and the Class III price. This payment option shall apply only if a majority of the total milk received at the plant that processed the nonfluid milk ingredients is regulated under one or more Federal orders and payment may only be made to the producer-settlement fund of the order pricing a plurality of the milk used to produce the nonfluid milk ingredients. This payment option shall not apply if the source of the nonfluid ingredients used in reconstituted fluid milk products cannot be determined by the market administrator.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1007.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall

be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be computed to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1007.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest price class of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1007.60 for such handler shall include, in lieu of the value of other source milk specified in § 1007.60(f) less the value of such other source milk specified in § 1007.71(a)(2)(ii), a value of milk determined pursuant to § 1007.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributed plant during the month equivalent to the requirements of § 1007.7(b), subject to the following conditions:

(A) The operator of the partially regulated distributing plant submits with its reports filed pursuant to §§ 1007.30(b) and 1007.31(b) similar reports for each such nonpool supply plant;

(B) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(C) The value of milk determined pursuant to § 1007.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of the partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1007.74, for milk received at the plant during the month that would have been producer milk had the plant been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1007.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

(c) Any handler may elect partially regulated distributing plant status for any plant with respect to receipts of nonfluid milk ingredients assigned to Class I use under § 1007.43(d).

Payments may be made to the producer-settlement fund of the order regulating the producer milk used to produce the nonfluid milk ingredients at the difference between the Class I price applicable under the other order at the location of the plant where the nonfluid milk ingredients were processed (but not less than the Class III price) and the Class III price. This payment option shall apply only if a majority of the total milk received at the plant that processed the nonfluid milk ingredients is regulated under one or more Federal orders and payment may only be made to the producer-settlement fund of the order pricing a plurality of the milk used to produce the nonfluid milk ingredients. This payment option shall not apply if the source of the nonfluid ingredients used in reconstituted fluid milk products cannot be determined by the market administrator.

§ 1007.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts, or other verification discloses errors resulting in money due the market administrator from a handler, or due a handler from the market administrator, or due a producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making

payments as set forth in the provisions under which the error(s) occurred.

§ 1007.78 Charges on overdue accounts.

Any unpaid obligation due the market administrator from a handler pursuant to §§ 1007.71, 1007.76, 1007.77, 1007.78, 1007.85, and 1007.86 shall be increased 1.5 percent each month beginning with the day following the date such obligation was due under the order. Any remaining amount due shall be increased at the same rate on the corresponding day of each month until paid. The amounts payable pursuant to this section shall be computed monthly on each unpaid obligation and shall include any unpaid charges previously made pursuant to this section. The late charges shall be added to the respective accounts to which due. For the purpose of this section, any obligation that was determined at a date later than prescribed by the order because of a handler's failure to submit a report to the market administrator when due shall be considered to have been payable by the date it would have been due if the report had been filed when due.

Administrative Assessment and Marketing Service Deduction

§ 1007.85 Assessment for order administration.

As each handler's pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to:

(a) Receipts of producer milk (including such handler's own production) other than such receipts by a handler described in § 1007.9(c) that were delivered to pool plants of other handlers;

(b) Receipts from a handler described in § 1007.9(c);

(c) Receipts of concentrated fluid milk products from unregulated supply plants and receipts of nonfluid milk products assigned to Class I use pursuant to § 1007.43(d) and other source milk allocated to Class I pursuant to § 1007.44(a) (7) and (11) and the corresponding steps of § 1007.44(b), except such other source milk that is excluded from the computations pursuant to § 1007.60 (d) and (f); and

(d) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1007.76(a)(2).

§ 1007.86 Deduction for marketing services.

(a) Except as provided in paragraph (b) of this section each handler, in making payments to producers for milk (other than milk of such handler's own production) pursuant to § 1007.73, shall deduct 7 cents per hundredweight or such lesser amount as the Secretary may prescribe and shall pay such deductions to the market administrator not later than the 15th day after the month. Such money shall be used by the market administrator to verify or establish weights, samples and tests of producer milk and provide market information for producers who are not receiving such services from a cooperative association. Such services shall be performed in whole or in part by the market administrator or an agent engaged by and responsible to the market administrator;

(b) In the case of producers for whom a cooperative association that the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 15th day after the end of the month, pay such deductions to the cooperative association rendering such services accompanied by a statement showing the amount of any such deductions and the amount of milk for which such deduction was computed for each producer.

Base-Excess Plan

§ 1007.90 Base milk.

Base milk means the producer milk of a producer in each month of February through May that is not in excess of the producer's base multiplied by the number of days in the month.

§ 1007.91 Excess milk.

Excess milk means the producer milk of a producer in each month of February through May in excess of the producer's base milk for the month, and shall include all the producer milk in such months of a producer who has no base.

§ 1007.92 Computation of base for each producer.

(a) Subject to paragraph (c) of this section, a base for each dairy farmer who was a producer pursuant to § 1007.12 during one or more of the immediately preceding months of July through December shall be determined

by dividing the total pounds of producer milk delivered by such producer during each of those months by the number of calendar days in the month, adding together the four highest monthly averages so computed, and dividing by four. If a producer operated more than one farm at the same time, a separate computation of base shall be made for each such farm.

(b) Any producer who delivered milk to a nonpool plant that became a pool plant after the beginning of the July-December base-forming period shall be assigned a base calculated as if the plant were a pool plant during such entire base-forming period. A base thus assigned shall not be transferable.

(c) A person who was unable to qualify as a producer during four or more of the immediately preceding months of July through December or who did not have at least four complete months of production, in either case for one or more of the reasons specified in this paragraph, may request a base computation based upon a lesser number of months by submitting to the market administrator in writing on or before February 1 a statement that establishes to the satisfaction of the market administrator that during four or more of the months in the immediately preceding July through December base-forming period the amount of milk produced on such producer's farm was substantially reduced because of conditions beyond the control of such person as a result of:

(1) The loss by fire, windstorm, or other natural disaster of a farm building used in the production of milk on the producer's farm;

(2) Brucellosis, bovine tuberculosis or other infectious diseases in the producer's milking herd as certified by a licensed veterinarian; or

(3) A quarantine by a Federal or State authority that prevented the dairy farmer from supplying milk from the farm of such producer to a plant.

§ 1007.93 Base rules.

(a) Except as provided in § 1007.92 (b) and (c) and paragraph (b) of this section, a base may be transferred in its entirety or in amounts of not less than 300 pounds effective on the first day of the month following the date on which such application is received by the market administrator. Base may be transferred only to a person who is or will be a producer by the end of the month that the transfer is to be effective. A base transfer to be effective on February 1 for the month of February must be received on or before February 15. Such application shall be on a form approved by the market administrator and signed by the baseholder or the legal representative of the baseholder's estate. If a base is held jointly, the application shall be signed by all joint holders or the legal representative of the estate of any deceased baseholder.

(b) A producer who transferred base on or after February 1 may not receive by transfer additional base that would be applicable during February through May of the same year. A producer who received base by transfer on or after February 1 may not transfer a portion of the base to be applicable during February through May of the same year, but may transfer the entire base.

(c) The base established by a partnership may be divided between the

partners on any basis agreed to in writing by them if written notification of the agreed upon division of base by each partner is received by the market administrator prior to the first day of the month in which such division is to be effective.

(d) Two or more producers in a partnership may combine their separately established bases by giving notice to the market administrator prior to the first day of the month in which such combination of bases is to be effective.

§ 1007.94 Announcement of established bases.

On or before January 31 of each year, the market administrator shall calculate a base for each person who was a producer during one or more of the preceding months of July through December and shall notify each producer and the handler receiving milk from such dairy farmer of the base established by the producer. If requested by a cooperative association, the market administrator shall notify the cooperative association of each producer-member's base.

**PARTS 1093, 1094, 1096, AND 1108
[REMOVED AND RESERVED]**

2. Parts 1093, 1094, 1096, and 1108 are removed and reserved.

Dated: May 23, 1995.

Patricia Jensen,

Acting Assistant Secretary, Marketing and Regulatory Programs.
