Determination of Attainment of Ozone Standard by Grand Rapids and Muskegon, MI; Determination Regarding Applicability of Certain Reasonable Further Progress and Attainment Demonstration Requirements

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: The USEPA proposes to determine that the Grand Rapids (Kent and Ottawa Counties) and Muskegon (Muskegon County) ozone nonattainment areas have attained the National Ambient Air Quality Standard (NAAQS) for ozone and that certain reasonable further progress and attainment demonstration requirements, along with certain related requirements, of part D of title I of the Clean Air Act are not applicable for so long as the area continues to attain the ozone standard. In the final rules section of this **Federal Register**, USEPA is making these

determinations without prior proposal. A detailed rationale for the action is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments, USEPA will withdraw the direct final rule and address the comments in a subsequent final rule based on this proposed rule. USEPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this action must be received by July 3, 1995.

ADDRESSES: Written comments should be mailed to: Carlton T. Nash, Chief, Regulation Development Section, Air Toxics and Radiation branch (AT-18J), United States Environmental Protection Agency, 77 West Jackson boulevard, Chicago, Illinois 60604.

A copy of the air quality data and EPA's analysis are available for inspection at the following address: Regulation Development Section, Air Toxics and Radiation Branch (AT-18J), United States Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604. (It is recommended that you telephone Madelin Rucker at (312) 886-0661 before visiting the Region 5 office.)

FOR FURTHER INFORMATION CONTACT: Madelin Rucker, Telephone: (312) 886-0661.

SUPPLEMENTARY INFORMATION: For additional information, see the direct final rule published in the Final Rules section of this **Federal Register**.

Dated: May 18, 1995.

BILLING CODE 6560-50-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

43 CFR Part 11

RIN 1090-AA23

Natural Resource Damage Assessments: Type A Procedure for Coastal and Marine Environments

AGENCY: Department of the Interior.

ACTION: Proposed rule; availability of technical reports.

SUMMARY: This document announces the availability of technical reports relating to the Department of the Interior's

December 8, 1994, notice of proposed rulemaking to revise the natural resource damage assessment regulations. 59 FR 63300. The natural resource damage assessment regulations establish procedures for assessing damages for injury to natural resources resulting from a discharge of oil or hazardous substance into navigable waters under the Clean Water Act, or a release of a hazardous substance under the Comprehensive Environmental Response, Compensation, and Liability Act. The December 8, 1994, document proposed revisions to a simplified "type A" procedure for assessing damages from relatively minor discharges or releases in coastal and marine environments. That proposed assessment procedure incorporates the use of a computer model named the Natural Resource Damage Assessment Model for Coastal and Marine Environments (NRDAM/CME), Version 2.2. The Department has arranged for a number of technical specialists to conduct independent reviews of the proposed NRDAM/CME, Version 2.2 and is making those technical reports available for public review.

ADDRESSES: Copies of the reports are available for inspection at the Office of Environmental Policy and Compliance, Room 2243, Department of the Interior, 1849 C Street, NW, Washington, DC 20240, tel: (202) 208-3301 (regular business hours 7:45 a.m. to 4:15 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: Mary Morton, Office of Environmental Policy and Compliance, Department of the Interior, MS 2340, 1849 C Street, NW, Washington, DC 20240, (202), tel: 208-3301 or MMORTON@IOS.DOI.GOV on Internet.

SUPPLEMENTARY INFORMATION: The natural resource damage assessment regulations establish procedures that Federal, State, and Tribal natural resource trustees may use to obtain compensation from liable parties for natural resource injuries under the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 *et seq.*) and the Clean Water Act, as amended (33 U.S.C. 1251 *et seq.*). The regulations provide an administrative process for conducting assessments as well as two types of technical procedures for the actual determination of injuries and damages. "Type A" procedures are standard procedures for simplified assessments requiring minimal field observation in cases of minor discharges or releases in certain environments. "Type B" procedures are site-specific

procedures for detailed assessments in other cases.

On December 8, 1994, the Department published a proposed rule to revise the type A procedure for coastal and marine environments, in compliance with a court order and a statutory biennial review requirement. 59 FR 63300. The proposed revised type A procedure for coastal and marine environments incorporates a computer model called the Natural Resource Damage Assessment Model for Coastal and Marine Environments Version 2.2 (NRDAM/CME). The comment period on the December 8, 1994, proposed rule has been extended until July 6, 1995. 60 FR 7155.

NOAA is responsible for developing natural resource damage assessment regulations under the Oil Pollution Act (OPA). 33 U.S.C. 2701 *et seq.* On January 7, 1994, NOAA published a proposed rule and indicated that it may allow for use of the revised NRDAM/CME under its OPA regulations after the Department publishes a final rule. 59 FR 1062, 1124-1125.

The Department and NOAA have arranged for a number of technical specialists to conduct independent reviews of the proposed NRDAM/CME. These reports are under evaluation by the Department and are being included in the administrative record for the rulemaking. Anyone interested in reviewing the reports is encouraged to contact the Department.

Dated: May 30, 1995.

Willie R. Taylor,

Director, Office of Environmental Policy and Compliance.

BILLING CODE 4310-RG-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 61

[CC Docket No. 87-313 and 93-197, FCC 95-198]

Rates for Dominant Carriers: Revisions to Price Cap Rules for AT&T

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action seeks comment on proposed revisions to the price cap rules that would redefine AT&T Corp.'s promotional tariffs and optional calling plans as alternative pricing plans (APPs) for domestic residential MTS. The proposed rule would allow AT&T to file APPs outside of price caps initially on

a streamlined basis and to receive price cap credit for these services on a more expedited basis than the new services rules currently provide, while requiring it to calculate index credit based on historical data, rather than forecasts. These revised rules would simplify review of AT&T's price cap tariff filings and would accord AT&T greater pricing flexibility in the increasingly competitive interexchange market.

DATES: Comments must be filed on or before July 3, 1995, and reply comment on or before July 24, 1995.

ADDRESS: Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Jane Gross, tel: 202-418-1556.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Further notice of Proposed Rulemaking in CC Docket Nos. 87-313 and 93-197, FCC 95-198, adopted May 5, 1995, and released May 18, 1995. This document requests comments on the regulatory treatment that the Commission should accord to AT&T Corp.'s promotional tariffs and OCPs, as well as similar discounts for the remaining AT&T services in Basket 1. The Commission seeks comment regarding its tentative conclusion to redefine AT&T Corp.'s promotional tariffs and OCPs as alternative callings plans (APPs) for the domestic MTS service category, as well as whether it should modify its rules to allow AT&T to file APPs outside of price caps initially on a streamlined basis and to receive price cap credit for these services on a more expedited basis than the new services rules currently provide. The Commission requests comment on whether it should reduce the existing Basket 1 service categories to three service categories: (1) Domestic MTS, including all three current time-of-day MTS categories, OCPs in the existing domestic ReachOut America category, and domestic MTS promotions; (2) operator and credit card services; and (3) international MTS; and whether it should modify the service category bands applicable to the existing residential service categories affected to impose a four-percent upper limit and a 15 percent lower limit on the domestic MTS service category band. The Commission is also seeking comment on whether there is a need to limit AT&T's ability to raise the basic schedule or rates for domestic MTS, and, if so, what methods the Commission should use to impose such limits. Finally, the Commission seeks comment on whether it should revise the rule for AT&T for PCI changes based on changes in exogenous costs arising from GAAP

accounting changes to resemble the rules recently adopted in the review of price cap regulation for local exchange carriers, the Price Cap Performance Review for Local Exchange Carriers, CC Docket No. 94-1, FCC 95-132, (rel. April 7, 1995) (60 FR 19,526, April 19, 1995).

The full text of this Commission proposal is available for inspection and copying during normal business hours in the FCC Reference Center (Room 230), 1919 M Street, NW, Washington, DC. The complete text of this proposal may also be purchased from the Commission's copy contractor, International Transcription Services, Inc., (202) 857-3800, 2100 M Street, NW, Washington, DC 20037.

Paperwork Reduction Act

The revisions contained herein have been analyzed with respect to the Paperwork Reduction Act of 1980 and found not to impose new or modified information collection and/or recordkeeping, labeling, disclosure or record retention requirements and will not increase burden hours imposed on the public.

Regulatory Flexibility Act

As required by Section 603 of the Regulatory Flexibility Act, the Commission has prepared an Initial Regulatory Flexibility Analyses (IFRA) of the expected impact on small entities of the proposals suggested in this document. The IRFA is set forth in Section V. Written public comments are requested on the IFRA. These comments must be filed in accordance with the same filing deadlines as comments on the rest of the Notice, but they must have a separate and distinct heading designating them as responses to the Initial Regulatory Flexibility Analysis. The Secretary shall send a copy of this Notice of Proposed Rulemaking, including the Initial Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration in accordance with paragraph 603(a) of the Regulatory Flexibility Act. Public Law 96-354, 94 Stat. 1164, 5 U.S.C. section 601 *et seq.* (1981).

Ex Parte

This is a non-restricted notice and comment rulemaking proceeding. Written and/or oral *ex parte* presentations are permitted except during the Sunshine Agenda period, provided they are disclosed as provided in Commission rules. See generally, 47 CFR 1.1202, 1.1203, and 1.1206(a).
