[MI42-01-702b; FRL 5213-4]

**Determination of Attainment of Ozone Standard by Grand Rapids and Muskegon, MI; Determination Regarding Applicability of Certain Reasonable Further Progress and Attainment Demonstration Requirements**

**AGENCY:** United States Environmental Protection Agency (USEPA).

**ACTION:** Proposed rule.

**SUMMARY:** The USEPA proposes to determine that the Grand Rapids (Kent and Ottawa Counties) and Muskegon (Muskegon County) ozone nonattainment areas have attained the National Ambient Air Quality Standard (NAAQS) for ozone and that certain reasonable further progress and attainment demonstration requirements, along with certain related requirements, of part D of title I of the Clean Air Act are not applicable for so long as the area continues to attain the ozone standard. In the final rules section of this **Federal Register**, USEPA is making these

determinations without prior proposal. A detailed rationale for the action is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments, USEPA will withdraw the direct final rule and address the comments in a subsequent final rule based on this proposed rule. USEPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this action must be received by July 3, 1995.

**ADDRESSES:** Written comments should be mailed to: Carlton T. Nash, Chief, Regulation Development Section, Air Toxics and Radiation branch (AT-18J), United States Environmental Protection Agency, 77 West Jackson boulevard, Chicago, Illinois 60604.

A copy of the air quality data and EPA's analysis are available for inspection at the following address: Regulation Development Section, Air Toxics and Radiation Branch (AT-18J), United States Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604. (It is recommended that you telephone Madelin Rucker at (312) 886-0661 before visiting the Region 5 office.)

**FOR FURTHER INFORMATION CONTACT:** Madelin Rucker, Telephone: (312) 886-0661.

**SUPPLEMENTARY INFORMATION:** For additional information, see the direct final rule published in the Final Rules section of this **Federal Register**.

RIN 1090-AA23

**Natural Resource Damage Assessments: Type A Procedure for Coastal and Marine Environments**

**AGENCY:** Department of the Interior.

**ACTION:** Proposed rule; availability of technical reports.

**SUMMARY:** This document announces the availability of technical reports relating to the Department of the Interior's

December 8, 1994, notice of proposed rulemaking to revise the natural resource damage assessment regulations. 59 FR 63300. The natural resource damage assessment regulations establish procedures for assessing damages for injury to natural resources resulting from a discharge of oil or hazardous substance into navigable waters under the Clean Water Act, or a release of a hazardous substance under the Comprehensive Environmental Response, Compensation, and Liability Act. The December 8, 1994, document proposed revisions to a simplified "type A" procedure for assessing damages from relatively minor discharges or releases in coastal and marine environments. That proposed assessment procedure incorporates the use of a computer model named the Natural Resource Damage Assessment Model for Coastal and Marine Environments (NRDAM/CME), Version 2.2. The Department has arranged for a number of technical specialists to conduct independent reviews of the proposed NRDAM/CME, Version 2.2 and is making those technical reports available for public review.

**ADDRESSES:** Copies of the reports are available for inspection at the Office of Environmental Policy and Compliance, Room 2243, Department of the Interior, 1849 C Street, NW, Washington, DC 20240, tel: (202) 208-3301 (regular business hours 7:45 a.m. to 4:15 p.m., Monday through Friday).

**FOR FURTHER INFORMATION CONTACT:** Mary Morton, Office of Environmental Policy and Compliance, Department of the Interior, MS 2340, 1849 C Street, NW, Washington, DC 20240, (202), tel: 208-3301 or MMORTON@IOS.DOI.GOV on Internet.

**SUPPLEMENTARY INFORMATION:** The natural resource damage assessment regulations establish procedures that Federal, State, and Tribal natural resource trustees may use to obtain compensation from liable parties for natural resource injuries under the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 *et seq.*) and the Clean Water Act, as amended (33 U.S.C. 1251 *et seq.*). The regulations provide an administrative process for conducting assessments as well as two types of technical procedures for the actual determination of injuries and damages. "Type A" procedures are standard procedures for simplified assessments requiring minimal field observation in cases of minor discharges or releases in certain environments. "Type B" procedures are site-specific
