There were no potential ACEC areas identified that met the Bureau ACEC criteria of relevance and importance that are not included in whole or in part in the ARMP/ROD described above.

Off-Highway-Vehicle (OHV) Use: The ARMP/ROD makes the following designations for OHV management in the District: no lands will be open; 423,422 acres will be restricted to designated existing roads and trails and/or seasonally closed; and 2,166 acres will be closed to all use, except for specified administrative or emergency uses. The closed areas include administratively withdrawn areas such as progeny test sites and various ACECs. In addition, the ARMP/ROD provides for road closures to meet ecosystem management objectives. Such closures may be permanent or seasonal, and will be effected by use of signs, gates, barriers or total road deconstruction and site restoration.

Land Tenure Adjustment: The ARMP/ROD identifies approximately 35,930 acres of BLM-administered lands that will be retained in public ownership; 380,989 acres of BLM-administered lands that may be considered for exchange under prescribed circumstances; and 13,352 acres of BLM-administered lands that may be available for sale or disposal under other authorized processes. The ARMP also provides criteria for the acquisition of lands, or interests in lands, where such acquisition would meet objectives of the various resource programs. The plan allocates approximately 1,577 acres as right-of-way exclusion areas.

Special Recreation and Visual Resource Management Areas: The ARMP/ROD identifies three Special Recreation Management Areas (SRMA), including one existing (North Umpqua River) and two new (Cow Creek and Umpqua River). The existing SRMAs total approximately 1,620 acres and the new SRMAs total approximately 3,950 acres. The ARMP/ROD allocates approximately 1,309 acres of BLM-administered lands for 29 existing or potential recreation sites. The plan also allocates lands for 19 existing or potential trails, totaling approximately 49 miles. The plan also identifies management objectives for four visual resource management classifications.
