

- Land use.
- Cultural resources.
- Air quality and noise.
- Public safety.

We will also evaluate possible alternatives to the proposed project or portions of the project, and make recommendations on how to lessen or avoid impacts on the various resource areas.

Our independent analysis of the issues will be in the EA. Depending on the comments received during the scoping process, the EA may be published and mailed to Federal, state, and local agencies, public interest groups, interested individuals, affected landowners, newspapers, libraries, and the Commission's official service list for this proceeding. A comment period will be allotted for review if the EA is published. We will consider all comments on the EA before we recommend that the Commission approve or not approve the project.

Currently Identified Environmental Issues

We have already identified two issues that we think deserve attention based on a preliminary review of the proposed facilities and the environmental information provided by Texas Gas. Keep in mind that this is a preliminary list. The list of issues may be added to, subtracted from, or changed based on your comments and our analysis. Issues are:

- Two federally listed endangered or threatened species may occur in the proposed project area.
- Two proposed workspace areas may be located within 50 feet of a residence, one of which may directly impact an adjacent building.

Public Participation

You can make a difference by sending a letter addressing your specific comments or concerns about the project. You should focus on the potential environmental effects of the proposal, alternatives to the proposal (including alternative routes), and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please follow the instructions below to ensure that your comments are received and properly recorded:

- Address your letter to: Lois Cashell, Secretary, Federal Energy Regulatory Commission, 825 North Capital Street NE., Washington, D.C. 20426;
- Reference Docket No. CP95-341-000;
- Send a copy of your letter to: Ms. Amy Olson, EA Project Manager,

Federal Energy Regulatory Commission, 825 North Capitol Street NE., Room 7312, Washington, D.C. 20426; and

- Mail your comments so that they will be received in Washington, D.C. on or before June 30, 1995.

If you wish to receive a copy of the EA, you should request one from Ms. Olson at the above address.

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding or become an "intervenor". Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide copies of its filings to all other parties. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see appendix 2).

The date for filing of timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by section 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention. You do not need intervenor status to have your scoping comments considered.

Additional information about the proposed project is available from Ms. Amy Olson, EA Project Manager, at (202) 208-1199.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP94-37-003]

Alabama-Tennessee Natural Gas Co.; Notice of Filing of Refund Report

May 31, 1995.

Take notice that on May 26, 1995, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee), filed a report of refunds made pursuant to Section 33.3 of the General Terms and Conditions of its FERC Gas Tariff, Second Revised Volume No. 1.

Accordingly to Alabama-Tennessee, the amounts being refunded result from the partial flow through of a refund received by Alabama-Tennessee from Tennessee Gas Pipeline (Tennessee) pursuant to the settlement of Tennessee's FERC Docket Nos. RP93-147, et al., which the Commission approved on November 15, 1994.

Alabama-Tennessee states that it calculated the portion of Tennessee's refund to be flowed-through by deducting its revised liability to Tennessee resulting from the settlement in FERC Docket Nos. RP93-147, et al., from the amounts actually collected by Alabama-Tennessee from its customers.

Alabama-Tennessee has requested that the Commission grant such waivers as may be necessary to accept and approve Alabama-Tennessee's filing as submitted.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protest should be filed on or before June 7, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP95-310-000 and CP94-260-002]

Algonquin Gas Transmission Co.; Notice of Proposed Changes in FERC Gas Tariff

May 31, 1995.

Take notice that on May 26, 1995, Algonquin Gas Transmission Company (Algonquin) submitted pro forma tariff sheets in compliance with the Commission's April 19, 1995, order in Docket No. CP94-260-000. In that order the Commission directed Algonquin to provide service on the proposed Canal Lateral under a separately stated rate schedule under its Part 284 open-access transportation certificate, subject to the General Terms and Conditions of its tariff.

Algonquin further states that copies of this filing was mailed to all participants in Docket No. CP94-260-000 and affected customers of Algonquin and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR Sections 385.214 and 385.211 of the Commission's Rules of Practice and
