

that, "[w]here the statutory purpose could * * * be easily frustrated through the use of separate corporate entities, the [Federal Communications Commission] is entitled to look through corporate form and treat the separate entities as one and the same for purposes of regulation."²⁰ Therefore, if the Commission were to determine here that the corporate structure of the four companies frustrated the statutory purpose of the NGA and was contrary to the public interest, it would have the authority to disregard their corporate forms.

In any event, at the very minimum the Commission believes that KansOk may be an interstate pipeline, based on the nature of its transportation services. At present, it appears that KansOk provides no intrastate service on its East Leg, and only a *de minimis* amount of intrastate service on its West Leg. The Commission recognizes the KansOk's mix of intrastate and interstate transportation volumes has not changed dramatically since the Commission issued its February 6, 1992 order.²¹ Although no party contested KansOk's claim to be an intrastate pipeline at that time, Western Resources has raised the issue now.

F. Show Cause

For the reasons discussed above, the Commission is instituting this show cause proceeding, pursuant to sections 5, 7, and 16 of the NGA, to investigate further these matters. To this end, the Commission is ordering the following:

(1) KansOk, Riverside, Kansas Natural, Kansas Pipeline are ordered to show cause why the Commission should not disregard their corporate forms and find them to be one interstate pipeline system subject to the Commission's NGA jurisdiction; and

(2) KansOk is ordered to show cause why, since all but a *de minimis* amount of the service it provides is in interstate commerce, it should not be found to be an interstate pipeline subject to the Commission's NGA jurisdiction.

In their responses, the parties are encouraged to address the concerns raised above by the Commission.

The Commission Orders

(A) Within 30 days of the issuance of this order:

²¹ In 1990, approximately 97.4 percent of KansOk's transportation service was pursuant to NGPA section 311, whereas KansOk does not dispute Western Resources' claim that KansOk now performs approximately 99.9 percent of its services under NGPA section 311.

(1) KansOk, Riverside, Kansas Natural, Kansas Pipeline are ordered to show cause why the Commission should not disregard their corporate forms and find them to be one interstate pipeline system subject to the Commission's NGA jurisdiction; and

(2) KansOk is ordered to show cause why, since all but a *de minimis* amount of the service it provides is in interstate commerce, it should not be found to be an interstate pipeline subject to the Commission's NGA jurisdiction.

(B) Notice of this proceeding will be published in the **Federal Register**. Interested persons will have 20 days from the date of publication of the notice to intervene.

By the Commission.
