ADDRESSES: Holiday Inn Naperville, 1801 Naper Boulevard, Naperville, Illinois 60563.

FOR FURTHER INFORMATION CONTACT: Thomas H. Isaacs, Executive Director, Advisory Committee on External Regulation of Department of Energy Nuclear Safety, 1726 M Street, NW, Suite 401, Washington, DC 20036, (202) 254-3826.

SUPPLEMENTARY INFORMATION: The Purpose of the Committee is to provide the Secretary of Energy, the White House Council on Environmental Quality, and the Office of Management and Budget with advice, information, and recommendations on how new and existing Department of Energy (DOE) nuclear facilities and operations, except those operations covered under Executive Order 12344 (Naval Propulsion Program), might best be regulated with regard to safety. The Department currently self-regulates many aspects of nuclear safety, pursuant to the Atomic Energy Act of 1954, as amended. The Committee consists of 25 members drawn from Federal and State government and the private sector, and is co-chaired by John F. Ahearne, Executive Director of Sigma Xi, and Gerard F. Scannell, President of the National Safety Council. Members were chosen with environment, safety, and health backgrounds, balanced to represent different public, Federal, State, Tribal, regulatory, and industry interests and experience.

Purpose of the Meeting: To better understand the Department of Energy's

existing regulatory structure, the Committee will hear presentations by several senior DOE program officials, by a panel of directors of DOE's research laboratories, and by a panel of laboratory environment, safety, and health managers. The Committee will also consider draft reports from a series of subcommittees set up by the Committee. These draft reports will address current problems with internal regulation, advantages and disadvantages of external regulation, regulatory options and other special issues related to the Committee's charter. The Committee will hold a public comment period to hear views on external regulation from workers and interested members of the public.

Tentative Agenda: In addition to conducting deliberations related to its charter, the Committee will hear from the DOE Assistant Secretary for Environment, Safety and Health, and a member of the Defense Nuclear Facilities Safety Board (both Committee members) on the current processes for internal and external oversight of safety at DOE nuclear facilities and activities. The Committee will also hear observations on external regulation specific to environmental restoration and waste management activities from the DOE Assistant Secretary for Environmental Management. The Committee will hear comments from the DOE Director of the Office of Energy Research and from four National Laboratory Directors, followed by a panel of laboratory environment, safety, and health managers who will recount their experiences with DOE. The agenda will provide an opportunity for public comment at 7:30 pm on June 28, 1995, at the Holiday Inn, Naperville, Illinois. A final agenda will be available at the meeting.

Public Participation: The meeting is open to the public. Members of the public are welcome to make oral statements during the public comment period. Those who wish to do so may pre-register by contacting Glenda Oakley at (301) 924-6169. Individuals may also register on June 28, 1995, at the meeting site. Every effort will be made to hear all those wishing to speak. Written comments are welcomed, and should be mailed to Thomas H. Isaacs, Executive Director, 1726 M Street, NW, Suite 401, Washington, DC 20036. The Committee Co-Chairs are empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business.

Transcripts and Minutes: A meeting transcript and minutes will be available for public review and copying four to six weeks after the meeting at the DOE

Freedom of Information Public Reading Room, 1E-1990, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585 between 9:00 am and 4:00 pm, Monday through Friday, except Federal holidays. The transcript will also be made available at the Department's Field Office Reading Room locations.
