III. Amended Patent Certifications

Abbreviated new drug applications (ANDA's), abbreviated new animal drug applications (ANADA's), and applications provided for in section 505(b)(2) of the act (505(b)(2) applications) pending before the agency on June 8, 1995, including such applications that may have received tentative approval letters, must be amended to respond to the URAA-extended patent expiration dates, if information on the new expiration dates is submitted to the agency by the NDA or NADA holder in a timely manner. ANDA's, ANADA's, and 505(b)(2) applications submitted after June 8, 1995, likewise must provide patent certifications with respect to the URAA-extended patent expiration dates. The agency expects that an applicant that wishes to market a drug under an approved ANDA, ANADA, or 505(b)(2) application before the expiration of a URAA-extended patent, for which information was submitted to FDA in a timely manner, will file a paragraph IV certification with respect to that patent (See sections 505(b)(2)(A), (j)(2)(A)(vii), and 512(n)(1)(H) of the act.)

Substance Abuse and Mental Health Services Administration (SAMHSA)

Competitive Supplements for Integrated Children and Family Services

AGENCY: Substance Abuse and Mental Health Services Administration (SAMHSA), HHS.

ACTION: Notice of availability of supplemental funds for certain programs of the Center for Mental Health Services (CMHS), Center for Substance Abuse Prevention (CSAP) and Center for Substance Abuse Treatment (CSAT).

SUMMARY: This notice informs the public that SAMHSA is making available approximately \$2-3 million in Fiscal Year 1995 for up to 10 supplemental awards to existing grantees who have a minimum of 3 years of Federal grant support remaining as of September 1995, as reflected on the current Notice of Grant Award. Funds are being provided to support 3 year supplemental projects designed to implement and evaluate the

effectiveness of integrated service delivery approaches for families with children from birth to 7 years of age, who are affected by alcohol, drug abuse and/or mental health disorders or who are at risk for such disorders.

Eligibility is limited to grantees with 3 years remaining in the following SAMHSA programs in order to be able to evaluate the effects of funding such integrated approaches in a known, well-defined project where the various strengths and other grantee characteristics have already been generally identified. Thus, most of the variables affecting performance are known so that the direct effects of the supplemental funding can be better measured than would be possible in an untested environment. This control in supplementing a variety of different programs allows the maximum insight to be obtained with the limited resources available. The grantees will need to have 3 years remaining since we do not anticipate having measurable results to evaluate in a shorter period.

The receipt date for applications is July 25, 1995. The application review and award process will be handled in an expedited manner. Applications will be evaluated for technical merit by a panel of expert non-Federal and Federal reviewers. Awards will be made on the basis of the award criteria set forth in the supplemental guidelines subject to the availability of funds. Awards will be made no later than September 30, 1995.
