Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget (OMB) for reinstatement approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed information collection requirement and related forms and explanatory material may be obtained by contacting the Service's clearance officer at the phone number listed below. Comments and suggestions on the requirement should be made directly to the Service Clearance Officer and the Office of Management and Budget, Paperwork Reduction Project (1018-0066) Washington, D.C. 20503, telephone 202-395-7340.

Title: Marking, Tagging and Reporting Regulations for Polar Bear, Sea Otter and Walrus.

OMB Approval Number: 1018-0066.

Abstract: The Marine Mammal Protection Act of 1972, (Act) as amended, authorized the Secretary of the Interior to prescribe marking, tagging and reporting regulations in 50 CFR 18.23(f), for Alaska Natives harvesting polar bear, seat otter, and walrus. Under the Act Alaska Natives residing in Alaska and dwelling on the coast of the North Pacific or arctic Oceans may harvest these species for subsistence or handicraft purposes. The marking and tagging program is intended to gather reports of all kills made, and to tag or mark, as appropriate, skins, skulls and tusks of marine mammals killed to reduce illegal

trading in walrus ivory, polar bear and sea otter skins. The information collected is used by the Fish and Wildlife Service to improve its decision-making ability by substantially expanding the quality and quantity of harvest and biological data upon which future management decisions can be based. It provides the Service with the ability to make inferences about the condition and general health of the populations and to consider the importance and impact to these populations from such processes as development activities and habitat degradation.

Service Form Number(s): R7-50 (Walrus Certificate); R7-51 (Polar Bear Certificate); R7-52 (Sea Otter Certificate)

Frequency: On occasion.

Description of Respondents: Individuals and household.

Completion Time: The reporting burden is estimated to average 15 minutes per respondent; respondents will average 1.46 responses per year.

Annual Responses: 2,925.

Annual Burden Hours: 732.

Service Clearance Officer: Phyllis H. Cook, 703-358-1943, Mail Stop-224 Arlington Square, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

Dated May 22, 1995.

Rowan W. Gould,

Acting Assistant Director—Fisheries.

BILLING CODE 4310-55-M

Endangered and Threatened Species Permit Application

AGENCY: Fish and Wildlife, Interior.

ACTION: Notice of availability of the Final Environmental Impact Statement (EIS) on the Proposed Issuance of an Incidental Take Permit for Desert Tortoises in Clark County, Nevada.

SUMMARY: This notice advises the public that the Final Environmental Impact Statement (EIS) on the proposed issuance of an incidental take permit for desert tortoises in Clark County, Nevada is available. The Record of Decision will be published no sooner than 30 days from this notice.

FOR FURTHER INFORMATION CONTACT: Dolores Savignano, U.S. Fish and Wildlife Service, 1500 North Decatur Boulevard, #01, Las Vegas, Nevada 89108 or Carlos Mendoza, U.S. Fish and Wildlife Service, 4600 Kietzke Lane, Building C, Room 125, Reno, Nevada 89502.

Individuals wishing copies of this Final EIS should immediately contact Christine Robinson, Clark County

Manager's Office, 225 Bridger Avenue, Las Vegas, Nevada 89155. Copies of the Final EIS have been sent to all agencies and individuals who previously received copies of the Draft EIS and to all others who have already requested copies.

SUPPLEMENTARY INFORMATION:

A. Background

On April 2, 1990, the U.S. Fish and Wildlife Service (Service) issued a final rule (55 FR 12178) that determined the desert tortoise to be a threatened species under the Endangered Species Act of 1973, as amended (Act). That regulation became effective on the date of its publication in the **Federal Register**. Because of its listing as a threatened species, the desert tortoise is protected by the Act's prohibition against "taking." The Act defines "take" to mean: to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture or collect, or to attempt to engage in such conduct. "Harm" is further defined by regulation as any act that kills or injures wildlife including significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, or sheltering (50 CFR 17.3).

The Service, however, may issue permits to carry out otherwise lawful activities involving take of endangered and threatened wildlife under certain circumstances. Regulations governing permits are in 50 CFR 17.22, 17.23, and 17.32. For threatened species, such permits are available for scientific purposes, enhancing the propagation or survival of the species, economic hardship, zoological exhibition or educational purposes, incidental taking, or special purposes consistent with the purposes of the Act.

Clark County; the cities of Las Vegas, North Las Vegas, Henderson, Mesquite, and Boulder City; and Nevada Department of Transportation (NDOT) (Applicants) submitted an application to the Service for a permit to incidentally take desert tortoises (*Gopherus agassizii*), pursuant to section 10(a)(1)(B) of the Act, in association with various proposed public and private projects in Clark County, Nevada. The proposed permit would allow incidental take of desert tortoises for a period of 30 years, resulting from development on up to 113,900 acres of private lands within Clark County, Nevada. The permit application was received September 28, 1994, and was accompanied by the *Clark County Desert Conservation Plan* (CCDCP), which serves as the Applicant's habitat
