

**40 CFR Part 52**

[KY-88-6956b; FRL-5208-1]

**Approval and Promulgation of Implementation Plans; State Approval of Revisions to Kentucky****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Kentucky for the purpose of correcting deficiencies in the definition of volatile organic compounds (VOCs). In the final rules section of this **Federal Register**, the EPA is approving the Kentucky's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

**DATES:** To be considered, comments must be received by July 13, 1995.**ADDRESSES:** Written comments on this action should be addressed to Scott Southwick, at the EPA Regional Office listed below.

Copies of the documents relative to this action are available for public inspection during normal business hours at the following locations. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

Air and Radiation Docket and Information Center (Air Docket 6102), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460.

**Approval and Promulgation of Implementation Plans and Section 111(d) Plans; State of Iowa, Polk County****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve the State Implementation Plan (SIP) revisions submitted by the state of Iowa on behalf of Polk County. The state's request for a revision to the SIP includes provisions to make Polk County's rules consistent with the state's Iowa Administrative Code. This revision also includes provisions to fulfill the requirements of section 111(d) of the Act, standards of performance for existing sources. These revisions fulfill federal regulations which strengthen maintenance of established air quality standards.

In the Final Rules Section of the **Federal Register**, the EPA is approving the state's SIP revision as a direct final rule without prior proposal, because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this notice. Any parties interested in commenting on this notice should do so at this time.

**DATES:** Comments must be received on or before July 13, 1995.

**ADDRESSES:** Comments may be mailed to Christopher D. Hess, Environmental Protection Agency, Air Branch, 726 Minnesota Avenue, Kansas City, Kansas 66101.

**FOR FURTHER INFORMATION CONTACT:** Christopher D. Hess at (913) 551-7213.**SUPPLEMENTARY INFORMATION:** See the information provided in the direct final notice which is located in the rules section of the **Federal Register**.

Dated: May 2, 1995.

[FRL-5221-1]

**Outer Continental Shelf Air Regulations; Consistency Update for California****AGENCY:** Environmental Protection Agency ("EPA").**ACTION:** Notice of proposed rulemaking; consistency update.

**SUMMARY:** EPA is proposing to update a portion of the Outer Continental Shelf ("OCS") Air Regulations. Requirements applying to OCS sources located within 25 miles of states' seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area ("COA"), as mandated by section 328(a)(1) of the Clean Air Act ("the Act"), the Clean Air Act Amendments of 1990. The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources for which the South Coast Air Quality Management District (South Coast AQMD) and the Ventura County Air Pollution Control District (Ventura County APCD) are the designated COAs. The OCS requirements for the above Districts, contained in the Technical Support Document, are proposed to be incorporated by reference into the Code of Federal Regulations and are listed in the appendix to the OCS air regulations. Proposed changes to the existing requirements are discussed below.

**DATES:** Comments on the proposed update must be received on or before July 13, 1995.

**ADDRESSES:** Comments must be mailed (in duplicate if possible) to: EPA Air Docket (A-5), Attn: Docket No. A-93-16 Section IX, Environmental Protection Agency, Air and Toxics Division, Region 9, 75 Hawthorne St., San Francisco, CA 94105.

Docket: Supporting information used in developing the proposed notice and

copies of the documents EPA is proposing to incorporate by reference are contained in Docket No. A-93-16 (Section IX). This docket is available for public inspection and copying Monday-Friday during regular business hours at the following locations:

EPA Air Docket (A-5), Attn: Docket No. A-93-16 Section IX, Environmental Protection Agency, Air and Toxics Division, Region 9, 75 Hawthorne St., San Francisco, CA 94105.

EPA Air Docket (LE-131), Attn: Air Docket No. A-93-16 Section IX, Environmental Protection Agency, 401 M Street SW, Room M-1500, Washington, DC 20460.

A reasonable fee may be charged for copying.

**FOR FURTHER INFORMATION CONTACT:**

Christine Vineyard, Air and Toxics Division (A-5-3), U.S. EPA Region 9, 75 Hawthorne Street, San Francisco, CA 94105, (415) 744-1197.

**SUPPLEMENTARY INFORMATION:**

**Background**

On September 4, 1992, EPA promulgated 40 CFR part 55,<sup>1</sup> which established requirements to control air pollution from OCS sources in order to attain and maintain federal and state ambient air quality standards and to comply with the provisions of part C of title I of the Act. Part 55 applies to all OCS sources offshore of the States except those located in the Gulf of Mexico west of 87.5 degrees longitude. Section 328 of the Act requires that for such sources located within 25 miles of a state's seaward boundary, the requirements shall be the same as would be applicable if the sources were located in the COA. Because the OCS requirements are based on onshore requirements, and onshore requirements may change, section 328(a)(1) requires that EPA update the OCS requirements as necessary to maintain consistency with onshore requirements.

Pursuant to § 55.12 of the OCS rule, consistency reviews will occur (1) at least annually; (2) upon receipt of a Notice of Intent under § 55.4; or (3) when a state or local agency submits a rule to EPA to be considered for incorporation by reference in part 55. This notice of proposed rulemaking is being promulgated in response to the submittal of rules by two local air pollution control agencies. Public comments received in writing within 30

days of publication of this notice will be considered by EPA before publishing a notice of final rulemaking.

Section 328(a) of the Act requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of states' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into part 55 as they exist onshore. This limits EPA's flexibility in deciding which requirements will be incorporated into part 55 and prevents EPA from making substantive changes to the requirements it incorporates. As a result, EPA may be incorporating rules into part 55 that do not conform to all of EPA's state implementation plan (SIP) guidance or certain requirements of the Act. Consistency updates may result in the inclusion of state or local rules or regulations into part 55, even though the same rules may ultimately be disapproved for inclusion as part of the SIP. Inclusion in the OCS rule does not imply that a rule meets the requirements of the Act for SIP approval, nor does it imply that the rule will be approved by EPA for inclusion in the SIP.

**EPA Evaluation and Proposed Action**

In updating 40 CFR part 55, EPA reviewed the state and local rules submitted for inclusion in part 55 to ensure that they are rationally related to the attainment or maintenance of federal or state ambient air quality standards or part C of title I of the Act, that they are not designed expressly to prevent exploration and development of the OCS and that they are applicable to OCS sources. 40 CFR 55.1. EPA has also evaluated the rules to ensure they are not arbitrary or capricious. 40 CFR 55.12(e). In addition, EPA has excluded administrative or procedural rules,<sup>2</sup> and requirements that regulate toxics which are not related to the attainment and maintenance of federal and state ambient air quality standards.

A. After review of the rules submitted by South Coast AQMD against the criteria set forth above and in 40 CFR part 55, EPA is proposing to make the following rules applicable to OCS sources for which the South Coast AQMD is designated as the COA. The

following rules were submitted as revisions to existing requirements:

- Rule 1106 Marine Coating Operations (Adopted 1/13/95)
- Rule 1110.2 Emissions From Gaseous and Liquid-Fueled Internal Combustion Engines (Adopted 12/9/94)

The following rules were submitted but will not be included:

- Rule 1102.1 Perchloroethylene Dry Cleaning Systems (Adopted 12/9/94)
- Rule 1124 Aerospace Assembly and Component Manufacturing Operations (Adopted 1/13/95)
- Rule 1126 Magnet Wire Coating Operations (Adopted 1/13/95)
- Rule 1151 Motor Vehicle and Mobile Equipment Non-Assembly Line Coating Operations (Adopted 12/9/94)
- Rule 1153 Commercial Bakery Ovens (Adopted 1/13/95)
- Rule 1164 Semiconductor Manufacturing (Adopted 1/13/95)
- Rule 1421 Control of Perchloroethylene Emissions from Dry Cleaning Operations (Adopted 12/9/94)

B. After review of the rules submitted by Ventura County APCD against the criteria set forth above and in 40 CFR part 55, EPA is proposing to make the following rules applicable to OCS sources for which Ventura County APCD is designated as the COA. None of the existing OCS requirements was deleted.

The following rules were submitted as revisions to existing requirements:

- Rule 23 Exemptions from Permit (Adopted 12/13/94)
- Rule 71 Crude Oil and Reactive Organic Compound Liquids (Adopted 12/13/94)
- Rule 74.12 Surface Coating of Metal Parts and Products (Adopted 12/13/94)
- Rule 74.15 Boilers, Steam Generators and Process Heaters (5MM BTUs and greater) (Adopted 11/8/94)

The following rules were submitted to be added as new requirements:

- Rule 34 Acid Deposition Control (Adopted 3/14/95)
- Rule 71.5 Glycol Dehydrators (Adopted 12/13/94)
- Rule 74.23 Stationary Gas Turbines (Adopted 3/14/95)
- Rule 74.26 Crude Oil Storage Tank Degassing Operations (Adopted 11/8/94)
- Rule 74.27 Gasoline and ROC Liquid Storage Tank Degassing Operations (Adopted 11/8/94)

The following rule was submitted but will not be included:

- Rule 3 Advisory Committee (Adopted 3/14/95)

**Executive Order 12291 (Regulatory Impact Analysis)**

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291. This exemption continues

<sup>1</sup> The reader may refer to the Notice of Proposed Rulemaking, December 5, 1991 (56 FR 63774), and the preamble to the final rule promulgated September 4, 1992 (57 FR 40792) for further background and information on the OCS regulations.

<sup>2</sup> After delegation, each COA will use its administrative and procedural rules as onshore. In those instances where EPA does not delegate authority to implement and enforce part 55, EPA will use its own administrative and procedural requirements to implement the substantive requirements. 40 CFR 55.14(c)(4).

in effect under Executive Order 12866 which superseded Executive Order 12291 on September 30, 1993.

**Regulatory Flexibility Act**

The Regulatory Flexibility Act of 1980 requires each federal agency to perform a Regulatory Flexibility Analysis for all rules that are likely to have a "significant impact on a substantial number of small entities." Small entities include small businesses, organizations, and governmental jurisdictions.

As was stated in the final regulation, the OCS rule does not apply to any small entities, and the structure of the rule averts direct impacts and mitigates indirect impacts on small entities. This consistency update merely incorporates onshore requirements into the OCS rule to maintain consistency with onshore regulations as required by section 328 of the Act and does not alter the structure of the rule.

The EPA certifies that this notice of proposed rulemaking will not have a significant impact on a substantial number of small entities.

**List of Subjects in 40 CFR Part 55**

Environmental protection, Administrative practice and procedures, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Nitrogen oxides, Outer Continental Shelf, Ozone, Particulate matter, Permits, Reporting and recordkeeping requirements, Sulfur oxides.

Dated: June 2, 1995.

**David P. Howekamp,**

*Acting Regional Administrator.*

Title 40 of the Code of Federal Regulations, part 55, is proposed to be amended as follows:

**PART 55—[AMENDED]**

1. The authority citation for part 55 continues to read as follows:

**Authority:** Section 328 of the Clean Air Act (42 U.S.C. 7401 *et seq.*) as amended by Public Law 101-549.

2. Section 55.14 is proposed to be amended by revising paragraphs (e)(3)(ii)(G) and (e)(3)(ii)(H) to read as follows:

**§ 55.14 Requirements that apply to OCS sources located within 25 miles of states' seaward boundaries, by state.**

\* \* \* \* \*

- (e) \* \* \*
- (3) \* \* \*
- (ii) \* \* \*

(G) *South Coast Air Quality Management District Requirements Applicable to OCS Sources.*

(H) *Ventura County Air Pollution Control District Requirements Applicable to OCS Sources.*

\* \* \* \* \*

3. Appendix A to 40 CFR Part 55 is amended by revising paragraph (b) (7) and (8) under the heading "California" to read as follows:

**Appendix A to 40 CFR Part 55—Listing of State and Local Requirements Incorporated by Reference Into Part 55, by State**

\* \* \* \* \*

California

\* \* \* \* \*

(b) \* \* \*

\* \* \* \* \*

(7) The following requirements are contained in *South Coast Air Quality Management District Requirements Applicable to OCS Sources:*

- Rule 102 Definition of Terms (Adopted 11/4/88)
- Rule 103 Definition of Geographical Areas (Adopted 1/9/76)
- Rule 104 Reporting of Source Test Data and Analyses (Adopted 1/9/76)
- Rule 108 Alternative Emission Control Plans (Adopted 4/6/90)
- Rule 109 Recordkeeping for Volatile Organic Compound Emissions (Adopted 3/6/92)
- Rule 201 Permit to Construct (Adopted 1/5/90)
- Rule 201.1 Permit Conditions in Federally Issued Permits to Construct (Adopted 1/5/90)
- Rule 202 Temporary Permit to Operate (Adopted 5/7/76)
- Rule 203 Permit to Operate (Adopted 1/5/90)
- Rule 204 Permit Conditions (Adopted 3/6/92)
- Rule 205 Expiration of Permits to Construct (Adopted 1/5/90)
- Rule 206 Posting of Permit to Operate (Adopted 1/5/90)
- Rule 207 Altering or Falsifying of Permit (Adopted 1/9/76)
- Rule 208 Permit for Open Burning (Adopted 1/5/90)
- Rule 209 Transfer and Voiding of Permits (Adopted 1/5/90)
- Rule 210 Applications (Adopted 1/5/90)
- Rule 212 Standards for Approving Permits (8/12/94) except (c)(3) and (e)
- Rule 214 Denial of Permits (Adopted 1/5/90)
- Rule 217 Provisions for Sampling and Testing Facilities (Adopted 1/5/90)
- Rule 218 Stack Monitoring (Adopted 8/7/81)
- Rule 219 Equipment Not Requiring a Written Permit Pursuant to Regulation II (Adopted 8/12/94)
- Rule 220 Exemption—Net Increase in Emissions (Adopted 8/7/81)
- Rule 221 Plans (Adopted 1/4/85)
- Rule 301 Permit Fees (Adopted 6/10/94) except (e)(3) and Table IV
- Rule 304 Equipment, Materials, and Ambient Air Analyses (Adopted 6/10/94)

- Rule 304.1 Analyses Fees (Adopted 6/10/94)
- Rule 305 Fees for Acid Deposition (Adopted 10/4/91)

## DEPARTMENT OF TRANSPORTATION

### National Highway Traffic Safety Administration

#### 49 CFR Part 571

[Docket No. 74-14; Notice 95]

RIN 2127-AF66

#### Federal Motor Vehicle Safety Standards; Occupant Crash Protection

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), DOT.  
**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This document proposes to amend the agency's safety belt requirements for forward-facing rear outboard seating positions of police cars and other law enforcement vehicles. This action was initiated in response to a petition for rulemaking submitted by Laguna Manufacturing, Inc. Believing that the considerations governing the design of safety belts for use by prisoners are different from those applicable to safety belts for the general public, Laguna requested that Standard No. 208 be amended to provide greater flexibility to design safety belt systems that are better suited for restraining prisoners being transported in the rear seats of law enforcement vehicles.

**DATES:** Comment Date: Comments must be received by August 14, 1995.

Effective Date: If adopted, the proposed amendments would become effective 30 days following publication of the final rule.

**ADDRESSES:** Comments should refer to the docket and notice number of this notice and be submitted to: Docket Section, Room 5109, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590. (Docket Room hours are 9:30 a.m.-4 p.m., Monday through Friday.)

**FOR FURTHER INFORMATION CONTACT:** Ms. Linda McCray, Frontal Crash Protection Division, Office of Vehicle Safety Standards, NPS-12, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590. Telephone: (202) 366-4793.

**SUPPLEMENTARY INFORMATION:** Standard No. 208, *Occupant Crash Protection*, requires an integral Type 2 (lap and shoulder) safety belt assembly at all forward-facing rear outboard seating positions in passenger cars and other light vehicles. The standard also requires that each of these safety belt assemblies be equipped with an emergency locking retractor. The emergency locking retractor allows the belt webbing to unwind from the spool when the belt user leans forward or to the side and rewinds it when the user leans back against the seat. However, in the event of a sudden stop or crash, the retractor locks up. This type of retractor serves several purposes. By providing a comfortable belt fit and allowing the belt user some freedom of movement, this type of retractor makes it more likely that the typical vehicle occupant will use safety belts. It also reduces the likelihood of excessive slack in safety belts during use.

Believing that the considerations governing the design of safety belts for use by prisoners being transported in police cars and other law enforcement vehicles are different from those applicable to safety belts for the general public, Laguna Manufacturing, Inc. submitted to NHTSA a petition for rulemaking requesting that Standard No. 208 be amended. Laguna sought an amendment that would provide greater flexibility to design safety belt systems that are better suited for restraining prisoners being transported in forward-facing rear outboard seating positions in these vehicles. That company argued that the requirement for an emergency locking retractor is inappropriate for safety belt systems used by prisoners, since it allows too much slack in non-emergency situations. This is because these retractors spool out webbing and thus allow safety-belted prisoners too much range of movement. Laguna stated that some police departments refrain altogether from safety belting a prisoner and instead use a "hog tie restraint" and lay the prisoner down on the rear seat. In these situations, the prisoner does not have any safety belt protection.

More specifically, Laguna requested that Standard No. 208 be amended to permit the use of a manual tightening system instead of an emergency locking retractor for safety belts intended for use by prisoners. That company stated that
