[CA-140-2-6993b; FRL-5212-1]

Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision, Mojave Desert Air Quality Management District and South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the California State Implementation Plan (SIP) which concern the control of volatile organic compound (VOC) emissions from automobile refinishing operations, magnet wire coating, and metal container, closure, and coil coating operations.

The intended effect of proposing approval of these rules is to regulate emissions of VOCs in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this **Federal Register**, the EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not

institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

BILLING CODE 6560-50-W

40 CFR Part 52

[MN37-1-6901b; FRL-5212-7]

Approval and Promulgation of Implementation Plans; Minnesota

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: USEPA proposes to approve miscellaneous amendments to previously approved administrative orders that are part of Minnesota's particulate matter and sulfur dioxide SIPs. These amendments make minor modifications such as reducing requirements for reporting operating information, updating certain rule citations, changing owner names, revoking an administrative order for a facility that no longer has significant emissions, and approving two revisions that will somewhat reduce emissions. USEPA also proposes to correct the codification of Minnesota's approved offset rules.

In the final rules section of this **Federal Register**, the USEPA is approving these revisions as a direct final rule without prior proposal, because USEPA views the action as noncontroversial and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposal of that action. If USEPA receives adverse public comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this action must be received by July 13, 1995.

ADDRESSES: Written comments should be addressed to: William L. MacDowell, Chief, Regulation Development Section, Air Enforcement Branch (AE-17J), United States Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.
