DEPARTMENT OF ENERGY

[Docket No. EA-105]

Application to Export Electricity; NorAm Energy Services, Inc.

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: NorAm Energy Services, Inc. (NorAm) has submitted an application to export electric energy to Canada and Mexico pursuant to section 202(e) of the Federal Power Act. NorAm is both a

broker and a marketer of electric power. It does not own or control any electric generation or transmission facilities.

DATES: Comments, protests or requests to intervene must be submitted on or before July 17, 1995.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Electricity (FE-52), Office of Fuels Programs, Office of Fossil Energy, Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585 (FAX 202-586-0678).

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202-586-9624 or Michael Skinker (Program Attorney) 202-586-6667.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA).

On June 2, 1995, NorAm filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) for authorization to export electric energy to Canada and Mexico pursuant to section 202(e) of the Federal Power Act. NorAm owns no generation or transmission facilities but has been certified by the Federal Energy Regulatory Commission (FERC) as a power marketer. NorAm proposes to export, on either a firm or interruptible basis, electric power that will be surplus to the system of the generator thereof. NorAm further proposes to export the electric energy through the following transmission facilities for which Presidential permits have been issued:

Presidential permit holder	Permit Number	Voltage	Location
Basin Electric Coop	PP-64	230 kV	Tioga, ND.

This is the third application for export that FE has accepted from an individual entity that does not own or operate physical facilities. The FE decision to accept applications from power marketers, as opposed to the "traditional" electric power entities which own and/or operate physical facilities, is based on the marketer taking possession of the electric energy inside the United States. This situation is distinguished from the power broker which simply facilitates a sale of electric energy without ever taking ownership of the commodity.

Procedural Matters

Any person desiring to be heard or to protest this application should file a petition to intervene or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Rules of Practice and Procedures (18 CFR 385.211, 385.214).

Any such petitions and protests should be filed with DOE on or before the date listed above. Additional copies of such petitions to intervene or protest also should be filed directly with: Michael L. Wallace, General Counsel, NorAm Energy Services, Inc., PO Box 4455, Houston, TX 77210 (FAX 713-654-5513) AND MaryJane Reynolds, Morrison & Reynolds, Suite 405, 1110 Vermont Avenue, NW, Washington, DC 20005 (FAX 202-466-3502).

Pursuant to 18 CFR 385.211, protests and comments will be considered by the DOE in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to

become a party must file a petition to intervene under 18 CFR 385.214. Section 385.214 requires that a petition to intervene must state, to the extent known, the position taken by the petitioner and the petitioners interest in sufficient factual detail to demonstrate either that the petitioner has a right to participate because it is a State Commission; that it has or represents an interest which may be directly affected by the outcome of the proceeding, including any interest as a consumer, customer, competitor, or a security holder of a party to the proceeding; or that the petitioner's participation is in the public interest.

A final decision will be made on this application after the DOE determines whether the proposed action would impair the sufficiency of electric supply within the United States or would impede or tend to impede the coordination in the public interest of facilities as required by Section 202(e) of FPA.

Before an export authorization may be issued, the environmental impacts of the proposed DOE action (i.e., granting the export authorization, with any conditions and limitations, or denying it) must be evaluated pursuant to the National Environment Policy Act of 1969 (NEPA).

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above.

Issued in Washington, D.C., June 8, 1995.

Director, Office of Coal & Electricity, Office of Fuels Programs, Fossil Energy
