BILLING CODE 4160-01-F

Health Resources and Services Administration

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the

Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Health Resources and Services Administration (HRSA) will publish periodic summaries of proposed projects. To request more information on the proposed project, call the HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the

use of automated collection techniques or other forms of information technology.

Proposed Projects

1. Study of Physicians' Educational Preparation for Practice in Managed Care Settings—New—A mail survey will be conducted of primary care physicians and medical directors in managed care organizations to assess their views of the adequacy of their preparation for practice in that setting. The survey of physicians will be limited to those who graduated between 1986 and 1990. The information will be used by the Bureau of Health Professions to formulate recommendations for curriculum changes. Because this is a mail survey, automated collection techniques will not be used. Burden estimates are as follows:

	No. of respondents	No. of responses per respondent	Avg. burden/response (in hours)
Physicians	1800	1	.25
Medical directors	200	1	.25

2. Study of the Dissemination of the Maternal and Child Assistance Programs Model Application Form—New—A telephone survey will be conducted of (1) governor's offices in 59 states and territories, (2) the leadership of state-level maternal and child assistance programs in 59 states and territories, and (3) the leadership of local maternal and child assistance programs in 10 carefully selected jurisdictions across the country. The survey will provide

data on the effectiveness of the federal dissemination of the maternal and child assistance programs Model Application Form, and on the use and impact of the Model Application Form or other similar consolidated application forms on maternal and child assistance programs and clients. The data collected will inform Members of Congress, which mandated the development and dissemination of the Model Application Form, and state and federal maternal

and child assistance program leaders about the effectiveness of the federal dissemination process, the extent of Model Application Form and other consolidated application form implementation, and their impact on agency operations and program clients. Because this is a targeted telephone survey with limited numbers, automated collection techniques will not be used. Burden estimates are as follows:

	No. of respondents	No. of responses per respondent	Avg. burden/response (in hours)
Governors office	59	1	.5
State level officials	236	1	.5
Local level officials	50	1	.5

3. Evaluation of Special Projects of National Significance: Adolescent Focused Grantees—Under the Ryan White Comprehensive AIDS Resources Emergency Act of 1990, Special Projects of National Significance are supported to evaluate and disseminate innovative models of care. In order to fulfill the

evaluation requirements of the Act, grantees collect, on an ongoing basis, information on numbers of clients served, characteristics of those clients, services provided, and outcomes of those services. The information will be used to identify models of care with promise for national replication and

dissemination. Most data are collected by care providers who complete very brief (one page or less) forms to document each client contact, and some data will be collected directly from volunteering care recipients. Burden estimates follow:

	No. of respondents	No. of responses per respondent	Avg. burden/response (in hours)
Care providers (nurses, case managers, counselors)	232	407	2.4 hours (2.8 minutes per form).
Care recipients	495	1	1 hour.

4. Evaluation of the Interdisciplinary Generalist Curriculum—New—The Interdisciplinary Generalist Curriculum (IGC) Project awards funds to Schools of Medicine that change their curricula to include preclinical generalist primary care training directed toward influencing medical students to select primary care medical careers. The

evaluation of this project will include two surveys. A survey of faculty members of the schools funded by this project will assess the faculty attitudes and beliefs about the innovations in the curriculum one year after the project began and three years after the project began. The funded schools were selected through a request for proposal

(RFP) process. All 141 allopathic and osteopathic Schools of Medicine received the RFP. The second survey will be sent to the Deans of these schools. This RFP survey will assess the extent to which the RFP process itself generated changes in curricula.

	No. of Respondents	No. of responses per respondent	Avg burden/response (in hours)
Faculty survey	3104	2	.25
RFP Survey	141	1	.50

5. Bureau of Primary Health Care (BPHC) Facility and Equipment Survey—New—Under the Capital Improvement Program, the Bureau of Primary Health Care provides additional funds to grantees supported under the BPHC primary health care delivery programs for renovations, repair,

modernization or construction/ replacement of health care facilities to correct fire and life-safety hazards and overcrowding conditions. In order to understand the nature and extent of such problems, the BPHC is planning to conduct a mail survey of all grantee facilities to collect information on their

facility and equipment problems and on estimated costs to correct the problems. The information will be used to set program priorities and to target technical assistance to grantees in greatest need.

	No. of respondents	No. of responses per respondent	Avg. burden/ response (in hours)
Grantee facilities	1880	1	.6

Send comments to Patricia Royston, HRSA Reports Clearance Officer, Room 14-36, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Application for Conveyance of Land, Mohave County, Arizona; Correction

AGENCY: Bureau of Land Management, Interior.

ACTION: Correction

SUMMARY: In notice document 95-3811 beginning on page 8728 in the issue of Wednesday, February 15, 1995, make the following correction:

On page 8729, the legal description should read:

Gila and Salt River Meridian, Arizona
 T. 40 N., R. 6 W.,
 sec. 4, Lots 3 and 4, S½NW¼;
 sec. 5, Lots 1 and 2, S½NE¼.
 Containing 270.170 acres.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability of the Approved Resource Management Plan and Record of Decision for the Coos Bay BLM District, Oregon.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (40 CFR 1550.2), and the Federal Land Policy and Management Act of 1976, (43 CFR 1610.2 (g)), the Department of the Interior, Bureau of Land Management (BLM), Coos Bay District provides notice of availability of the Approved Resource Management Plan (ARMP) and Record of Decision (ROD) for the Coos Bay District. In addition to describing the decisions, the ARMP will provide the framework to guide land and resource allocations and management direction for the next 10 to 20 years in the Coos Bay District. This ARMP supersedes the existing South
