[Announcement Number 532]

**Cooperative Agreements for a National  
System of Integrated Activities to  
Prevent HIV Infection and Other  
Serious Health Problems Among  
Students, Especially Postsecondary  
Students****Introduction**

The Centers for Disease Control and  
Prevention (CDC) announces the  
availability of fiscal year (FY) 1995  
funds for cooperative agreements to  
establish a national system of integrated  
activities for preventing HIV infection  
and other serious health problems  
among the nation's students, especially  
postsecondary students and those in  
high-risk situations.

Applicants may apply for funding to  
carry out activities in one or more of the  
following priority areas:

*Priority One—Educate Policy and  
Decision-Makers*

To educate and encourage policy and  
decision-making members of  
postsecondary institutions to support  
programs to prevent HIV infection  
among students, especially  
postsecondary students and those in  
high-risk situations.

*Priority Two—Support Institution-Wide  
Health Promotion Programs*

To build the capacity of  
postsecondary institutions to implement  
comprehensive integrated strategies  
designed to prevent HIV infection as  
part of institution-wide health  
promotion and disease prevention  
programs for postsecondary students,  
especially those in high-risk situations.

*Priority Three—Support Preservice  
Education*

To provide technical assistance and  
training to personnel in postsecondary  
institutions about the skills that health,  
education, social service, and other  
professionals need in order to help  
young people, including students in  
grades K-12 and those in high-risk  
situations, avoid HIV infection and  
other serious health problems.

The Public Health Service (PHS) is  
committed to implementing the  
recommendations outlined in the  
*External Review of HIV Prevention  
Strategies*, and the health promotion  
and disease prevention objectives of  
*Healthy People 2000*, a PHS-led national  
activity to reduce morbidity and  
mortality and improve the quality of  
life. This program announcement is  
related to the priority areas of HIV
